BARNES & NOBLE

Praise for Building an Innovative Learning Organization:

"The true heartbeat of competitive advantage is learning … the ability to live the learning in real time, apply that learning to drive exceptional performance, and teach that application to others. Russell Sarder, our most passionate CEO of Learning, understands this because he has lived it in his business and in his life. Building an Innovative Learning Organization takes us deep into the heartbeat of learning to deliver greater value for our businesses while we grow greater value within ourselves."

—Roseanna DeMaria, Former Chief Learning Officer at Merrill Lynch

"To succeed in today's turbo-charged environment, organizations must innovatively learn. Sarder's book incorporates the best ideas of leaders from around the world and skillfully crafts them into a highly practical narrative that enables readers to build their own innovative learning organizations. This book will become a classic."

—Dr. Michael Marquardt, President of the World Institute for Action Learning, Professor at George Washington University

Adobe Acrobat

Acrobat Fundamentals: An Introduction to Acrobat DC

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/14/2020 – 10/16/2020
11/16/2020 – 11/18/2020
12/07/2020 – 12/09/2020

In this course, you'll get an excellent overview of how to convert your work into Adobe Portable Document Format (PDF) using Adobe Acrobat. You will learn to use Acrobat's cross-platform capabilities to distribute your documents efficiently without sacrificing the original design. You will learn how to incorporate text, notes, graphics, movies, and links to the Internet. You will gain an excellent understanding of the menu and tools in Acrobat and be able to use Acrobat at a high level of efficiency.

Adobe Acrobat Pro DC – Combo

16 Hours | $750

Schedules

07/06/2020 – 07/07/2020
07/13/2020 – 07/14/2020
08/03/2020 – 08/04/2020
08/17/2020 – 08/18/2020
09/21/2020 – 09/22/2020
09/21/2020 – 09/22/2020
10/05/2020 – 10/06/2020
10/19/2020 – 10/20/2020
11/02/2020 – 11/03/2020
11/16/2020 – 11/17/2020
12/07/2020 – 12/08/2020
12/14/2020 – 12/15/2020

Adobe Acrobat Pro DC – Combo

Adobe Acrobat Pro DC: Advanced

8 Hours | $375

Schedules

06/12/2020 – 06/12/2020
06/16/2020 – 06/16/2020
07/07/2020 – 07/07/2020
07/10/2020 – 07/10/2020
07/14/2020 – 07/14/2020
08/04/2020 – 08/04/2020
08/07/2020 – 08/07/2020
08/18/2020 – 08/18/2020
09/04/2020 – 09/04/2020
09/22/2020 – 09/22/2020
09/22/2020 – 09/22/2020
10/06/2020 – 10/06/2020
10/09/2020 – 10/09/2020
10/20/2020 – 10/20/2020
11/03/2020 – 11/03/2020
11/06/2020 – 11/06/2020
11/17/2020 – 11/17/2020
12/04/2020 – 12/04/2020
12/08/2020 – 12/08/2020
12/15/2020 – 12/15/2020

As a business professional, you have some experience using Adobe Acrobat. Now you're ready to take further advantage of all the features of Acrobat Pro DC to bring your documents to the next level. Whether you are creating PDFs for commercial printing or for viewing digital versions on a range of platforms, Adobe Acrobat Pro DC enables you to output your content so your audience will be able to access and view the document just the way you intended.

In this course, you will use Adobe Acrobat Pro DC to convert technical documents to PDF files, enhance PDF documents, create interactive PDF forms, and prepare PDF files for commercial printing.

12/02/2020 – 12/02/2020
12/07/2020 – 12/07/2020
12/14/2020 – 12/14/2020

Communicating ideas and information is the cornerstone of organizational operations. And, electronic forms of communication have made the transfer of knowledge quick, easy, and inexpensive. The ability to harness the potential of electronic forms of communication is critical in nearly every type of organization. But, in many, if not most, organizations, people work with a wide variety of devices running on a wide variety of platforms. And sometimes, what works well or looks good on one device, won't work at all on another device. Or, your carefully designed and formatted document may end up looking like a jumbled mess on someone else's computer. So, how do you balance the need to communicate ideas to large groups of people with the enormous diversity found in today's electronic devices? The answer: you don't have to because Adobe created the Portable Document Format (PDF) as a solution to incompatible document formats.

Adobe® Acrobat® Pro DC puts the power of the Portable Document Format, literally, at your fingertips. By taking advantage of the functionality and features available in Acrobat, you will ensure the integrity of your electronic documents regardless of who views them, on what devices, or with what operating systems. And that will give you the confidence and peace of mind that comes with knowing that what you meant to communicate is what your document recipients will see.

Adobe Acrobat XI Pro Combo

16 Hours | $1,198

Schedules

06/22/2020 – 06/23/2020
07/20/2020 – 07/21/2020
08/17/2020 – 08/18/2020
09/21/2020 – 09/22/2020
10/19/2020 – 10/20/2020
11/16/2020 – 11/17/2020
12/21/2020 – 12/22/2020

Communicating ideas and information is the cornerstone of organizational operations. And electronic forms of communication have made the transfer of knowledge quick, easy, and inexpensive.

The ability to harness the potential of electronic forms of communication is critical in nearly every type of organization. Adobe Captivate

Adobe Captivate – Beyond the Essentials

16 Hours | $1,195

Schedules

06/15/2020 – 06/16/2020
07/13/2020 – 07/14/2020
08/17/2020 – 08/18/2020
09/21/2020 – 09/22/2020
10/19/2020 – 10/20/2020
11/16/2020 – 11/17/2020
12/14/2020 – 12/15/2020

This course is a continuation of the concepts covered in Captivate Essentials – An Introduction to Captivate. In this course you will fine-tune those concepts by learning about object styles, master slides, themes and advanced actions. You will be able to personalize your presentations with variables and branching scenarios that will help decide the best path for the learner. You will learn to make your presentations Section 508-compliant with accessibility text and closed captions. Finally, you will learn how to transform your presentations from e-learning to mLearning (mobile learning).

Adobe Captivate Essentials – An Introduction to Captivate

24 Hours | $1,495

Schedules

06/22/2020 – 06/24/2020
07/20/2020 – 07/22/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/26/2020 – 10/28/2020
11/16/2020 – 11/18/2020
12/21/2020 – 12/23/2020

Captivate Essentials – An Introduction to Captivate is a three-day course designed to teach the core Adobe Captivate skills needed to create interactive e-learning and mLearning content.

By following step-by-step instructions, you will learn how to create a soft-skills lesson from scratch. You'll learn to record and produce software demonstrations, and interactive training simulations.

Creating Responsive Projects with Captivate

16 Hours | $1,295

Schedules

06/25/2020 – 06/26/2020
07/30/2020 – 07/31/2020
08/27/2020 – 08/28/2020
09/24/2020 – 09/25/2020
10/22/2020 – 10/23/2020
11/23/2020 – 11/24/2020
12/07/2020 – 12/08/2020

This course builds upon the concepts covered in Captivate – Beyond the Essentials. In this course you will explore how to create responsive projects that adapt to fit any screen size, whether it be mobile, tablet or desktop. With mobile learning becoming a large percentage of e-learning, it is important to understand how to adapt your projects to this new environment.

You begin by exploring the responsive interface within Captivate. You then take a look at the HTML5 environment and its benefits and limitations. You move on to create custom breakpoints and adapt project content to accommodate these breakpoints. You will learn how to control themes, styles, and content for various screens sizes. You will learn the benefits of using smart positioning for content when building projects for multiple screen sizes. You will explore how to modify non-responsive content to adapt to a responsive design. Finally, learn how to take advantage of tools for testing responsive projects.

Adobe Dreamweaver

Adobe Illustrator CC Advanced

16 Hours | $1,195

Schedules

06/08/2020 – 06/09/2020
07/09/2020 – 07/10/2020
08/03/2020 – 08/04/2020
09/10/2020 – 09/11/2020
10/05/2020 – 10/06/2020
11/19/2020 – 11/20/2020
11/30/2020 – 12/01/2020

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this course, which is a combination of Adobe Certified Instructor-led demonstration and hands-on practice, you will learn the advanced techniques of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe Illustrator Fundamentals: An Introduction to Illustrator CC

24 Hours | $1,495

Schedules

07/06/2020 – 07/08/2020
07/29/2020 – 07/31/2020
09/07/2020 – 09/09/2020
09/30/2020 – 10/02/2020
11/16/2020 – 11/18/2020
11/18/2020 – 11/20/2020

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this three-day course, you will get a thorough overview of the interface, tools, and features of Illustrator CC. You will learn, step-by-step, the key techniques, as well as tips and tricks, for working in Illustrator CC.

Adobe InDesign CC Advanced

16 Hours | $1,195

Schedules

06/18/2020 – 06/19/2020
07/16/2020 – 07/17/2020
09/17/2020 – 09/18/2020
10/22/2020 – 10/23/2020
11/05/2020 – 11/06/2020
12/10/2020 – 12/11/2020

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages. It works seamlessly with Adobe Photoshop and Adobe Illustrator, providing a single integrated design environment that doesn't interrupt your creative process.

InDesign CC Advanced course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe InDesign Fundamentals: An Introduction to InDesign CC

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/02/2020 – 11/04/2020
12/07/2020 – 12/09/2020

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages. It works seamlessly with Adobe Photoshop and Adobe Illustrator, providing a single integrated design environment that doesn't interrupt your creative process.

Adobe InDesign CC course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe Photoshop CC Advanced – Web and Video

16 Hours | $1,195

Schedules

06/22/2020 – 06/23/2020
07/20/2020 – 07/21/2020
07/27/2020 – 07/28/2020
08/24/2020 – 08/25/2020
09/21/2020 – 09/22/2020
09/28/2020 – 09/29/2020
10/19/2020 – 10/20/2020
11/16/2020 – 11/17/2020
11/23/2020 – 11/24/2020
12/21/2020 – 12/22/2020

Photoshop CC Advanced – Web and Video course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop. This class is aimed at the Photoshop professional who needs to enhance their knowledge to work with web and video images more effectively.

Adobe Photoshop CC Advanced: Print and Photography

11/09/2020 – 11/11/2020
11/30/2020 – 12/02/2020
12/14/2020 – 12/16/2020

An Introduction to Photoshop CC course provides a thorough overview of the interface, the tools, the features, tricks, and tips for using Photoshop CC.

An Introduction to Flash CC

32 Hours | $1,750

Schedules

06/16/2020 – 06/19/2020
08/11/2020 – 08/14/2020
10/19/2020 – 10/22/2020
12/07/2020 – 12/10/2020

Adobe Flash Professional CC provides a comprehensive authoring environment for creating interactive and media-rich applications. Flash is widely used to create engaging projects integrating video, sound, graphics, and animation. You can create original content in Flash or import assets from other Adobe applications such as Photoshop or

Illustrator, quickly design animation and multimedia, and use Adobe ActionScript 3.0 to integrate sophisticated interactivity.

Use Flash to build innovative and immersive Web sites, to create stand-alone applications for the desktop, or to create apps to distribute to mobile devices running on the Android or the iOS system.

With extensive controls for animation, intuitive and flexible drawing tools, and a powerful object-oriented coding language, Flash delivers one of the only robust environments that let your imagination become reality.

Dreamweaver Fundamentals: An Introduction to Dreamweaver CC

32 Hours | $1,750

Schedules

06/10/2020 – 06/15/2020
08/05/2020 – 08/10/2020
10/07/2020 – 10/12/2020
12/02/2020 – 12/07/2020

Adobe Dreamweaver CC web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. This course will provide web designers with the knowledge and hands-on practice they need to build and manage professional websites.

Adobe Experience Manager (AEM)

AEM Forms & Databases

16 Hours | $1,800

Schedules

06/08/2020 – 06/09/2020
07/13/2020 – 07/14/2020
08/10/2020 – 08/11/2020
09/14/2020 – 09/15/2020
10/05/2020 – 10/06/2020
11/02/2020 – 11/03/2020
12/10/2020 – 12/11/2020

Integrate your AEM forms with databases such as Microsoft SQL Server and Oracle. This course shows you the secrets of integrating AEM adaptive/responsive forms with your company's databases and other enterprise systems. This course shows you how to prefill forms with data, use data within an adaptive form, and process a form submission. AEM form submissions with and without attachments will also be covered.

Create Web Experiences Using Adobe Experience Manager v6.x

16 Hours | $1,800

Schedules

06/08/2020 – 06/09/2020

Create Web Experiences Using Adobe Experience Manager v6.x (formerly known as AEM Sites: Author) course, where you will learn authoring concepts using the Adobe Experience Manager Touch UI. This course will cover creating and editing web pages, and responsive web pages based on different templates along with hands-on exercises. Participants will learn the importance of using workflows and launches, as well as personalization and targeting. This course is suitable for content authors.

Adobe Flash

Adobe Graphic and Web Designer (InDesign, Photoshop – Print, Web & Video, Illustrator, Dreamweaver and Flash) Combo

200 Hours | $12,765

Schedules

07/13/2020 – 08/14/2020
09/14/2020 – 10/22/2020
11/02/2020 – 12/10/2020

This combo course is consisting of five customized Adobe CC & CS6 modules comprising of nine courses plus an introductory web design course focusing on the skills needed to launch or accelerate your career as a professional graphic and web designer.

This class provides individuals with the knowledge and learning tools necessary to transitioning into or improving their skills in the Graphic and Web Design areas. This course goes over the content of Adobe products needed for Design and Web Certification, but is not a certification preparation course.

Adobe Illustrator CC Advanced

16 Hours | $1,195

Schedules

06/08/2020 – 06/09/2020
07/09/2020 – 07/10/2020
08/03/2020 – 08/04/2020
09/10/2020 – 09/11/2020
10/05/2020 – 10/06/2020
11/19/2020 – 11/20/2020
11/30/2020 – 12/01/2020

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this course, which is a combination of Adobe Certified, you will learn the advanced techniques of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe Illustrator Fundamentals: An Introduction to Illustrator CC

24 Hours | $1,495

Schedules

07/06/2020 – 07/08/2020

11/12/2020 – 11/13/2020
11/30/2020 – 12/01/2020
12/28/2020 – 12/29/2020

Photoshop CC Advanced: Print and Photography course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop CC. The course trains photographers and designers how to catalogue their work as well as how to enhance their photographs.

Adobe Photoshop Fundamentals: An Introduction to Photoshop CC

24 Hours | $1,495

Schedules

06/24/2020 – 06/26/2020
07/20/2020 – 07/22/2020
07/29/2020 – 07/31/2020
08/26/2020 – 08/28/2020
09/21/2020 – 09/23/2020
09/30/2020 – 10/02/2020
10/28/2020 – 10/30/2020
11/09/2020 – 11/11/2020
11/30/2020 – 12/02/2020
12/14/2020 – 12/16/2020

An Introduction to Photoshop CC course provides a thorough overview of the interface, the tools, the features, tricks, and tips for using Photoshop CC.

An Introduction to Flash CC

32 Hours | $1,750

Schedules

06/16/2020 – 06/19/2020
08/11/2020 – 08/14/2020
10/19/2020 – 10/22/2020
12/07/2020 – 12/10/2020

Adobe Flash Professional CC provides a comprehensive authoring environment for creating interactive and media-rich applications. Flash is widely used to create engaging projects integrating video, sound, graphics, and animation. You can create original content in Flash or import assets from other Adobe applications such as Photoshop or Illustrator, quickly design animation and multimedia, and use Adobe ActionScript 3.0 to integrate sophisticated interactivity.

Use Flash to build innovative and immersive Web sites, to create stand-alone applications for the desktop, or to create apps to distribute to mobile devices running on the Android or the iOS system.

Dreamweaver Fundamentals: An Introduction to Dreamweaver CC

32 Hours | $1,750

Schedules

06/10/2020 – 06/15/2020
08/05/2020 – 08/10/2020
10/07/2020 – 10/12/2020
12/02/2020 – 12/07/2020

Adobe Dreamweaver CC web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. This course will provide web designers with the knowledge and hands-on practice they need to build and manage professional websites.

Adobe Photoshop

Adobe Illustrator CC Advanced

16 Hours | $1,195

Schedules

06/08/2020 – 06/09/2020
07/09/2020 – 07/10/2020
08/03/2020 – 08/04/2020
09/10/2020 – 09/11/2020
10/05/2020 – 10/06/2020
11/19/2020 – 11/20/2020
11/30/2020 – 12/01/2020

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this course, you will learn the advanced techniques of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe Illustrator Fundamentals: An Introduction to Illustrator CC

24 Hours | $1,495

Schedules

07/06/2020 – 07/08/2020
07/29/2020 – 07/31/2020
09/07/2020 – 09/09/2020
09/30/2020 – 10/02/2020
11/16/2020 – 11/18/2020
11/18/2020 – 11/20/2020

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this three-day course, you will get a thorough overview of the interface, tools, and features of Illustrator CC. You will learn, step-by-step, the key techniques, as well as tips and tricks, for working in Illustrator CC. In this course, you will learn the basics of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe InDesign CC Advanced

16 Hours | $1,195

Schedules

06/18/2020 – 06/19/2020
07/16/2020 – 07/17/2020
09/17/2020 – 09/18/2020
10/22/2020 – 10/23/2020
11/05/2020 – 11/06/2020
12/10/2020 – 12/11/2020

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages.

InDesign CC Advanced course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe InDesign Fundamentals: An Introduction to InDesign CC

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/02/2020 – 11/04/2020
12/07/2020 – 12/09/2020

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages. It works seamlessly with Adobe Photoshop and Adobe Illustrator, providing a single integrated design environment that doesn't interrupt your creative process.

Adobe InDesign CC course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe Photoshop CC Advanced – Web and Video

16 Hours | $1,195

Schedules

06/22/2020 – 06/23/2020
07/20/2020 – 07/21/2020
07/27/2020 – 07/28/2020
08/24/2020 – 08/25/2020
09/21/2020 – 09/22/2020
09/28/2020 – 09/29/2020
10/19/2020 – 10/20/2020
11/16/2020 – 11/17/2020
11/23/2020 – 11/24/2020
12/21/2020 – 12/22/2020

Photoshop CC Advanced – Web and Video course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop. This class is aimed at the Photoshop professional who needs to enhance their knowledge to work with web and video images more effectively.

Adobe Photoshop CC Advanced: Print and Photography

16 Hours | $1,195

Schedules

06/29/2020 – 06/30/2020
07/23/2020 – 07/24/2020
07/27/2020 – 07/28/2020
08/31/2020 – 09/01/2020
09/24/2020 – 09/25/2020
09/28/2020 – 09/29/2020
10/26/2020 – 10/27/2020
11/12/2020 – 11/13/2020
11/30/2020 – 12/01/2020
12/28/2020 – 12/29/2020

Photoshop CC Advanced: Print and Photography course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop CC. The course trains photographers and designers how to catalogue their work as well as how to enhance their photographs.

Adobe Photoshop CS6 – Part 1

16 Hours | $790

Schedules

07/06/2020 – 07/07/2020
08/03/2020 – 08/04/2020
09/03/2020 – 09/04/2020
10/01/2020 – 10/02/2020
11/05/2020 – 11/06/2020
12/03/2020 – 12/04/2020

Adobe Photoshop CS6: Part 1 focuses on basic features of Photoshop so that the student can navigate the environment and use the Photoshop tools to work with photographic images.

Adobe Photoshop Fundamentals: An Introduction to Photoshop CC

24 Hours | $1,495

Schedules

06/24/2020 – 06/26/2020
07/20/2020 – 07/22/2020
07/29/2020 – 07/31/2020
08/26/2020 – 08/28/2020
09/21/2020 – 09/23/2020
09/30/2020 – 10/02/2020
10/28/2020 – 10/30/2020
11/09/2020 – 11/11/2020
11/30/2020 – 12/02/2020
12/14/2020 – 12/16/2020

An Introduction to Photoshop CC course provides a thorough overview of the interface, the tools, the features, tricks, and tips for using Photoshop CC.

An Introduction to Flash CC

32 Hours | $1,750

Schedules

06/16/2020 – 06/19/2020
08/11/2020 – 08/14/2020
10/19/2020 – 10/22/2020
12/07/2020 – 12/10/2020

Adobe Flash Professional CC provides a comprehensive authoring environment for creating interactive and media-rich applications. Flash is widely used to create engaging projects integrating video, sound, graphics, and animation. You can create original content in Flash or import assets from other Adobe applications such as Photoshop or Illustrator, quickly design animation and multimedia, and use Adobe ActionScript 3.0 to integrate sophisticated interactivity.

Use Flash to build innovative and immersive Web sites, to create stand-alone applications for the desktop, or to create apps to distribute to mobile devices running on the Android or the iOS system.

Dreamweaver Fundamentals: An Introduction to Dreamweaver CC

32 Hours | $1,750

Schedules

06/10/2020 – 06/15/2020
08/05/2020 – 08/10/2020
10/07/2020 – 10/12/2020
12/02/2020 – 12/07/2020

Adobe Dreamweaver CC web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. This course will provide web designers with the knowledge and hands-on practice they need to build and manage professional websites.

Adobe Premiere Pro

Adobe Premiere Pro for Experienced Editors

16 Hours | $1,195

Schedules

06/11/2020 – 06/12/2020
07/09/2020 – 07/10/2020
08/13/2020 – 08/14/2020
09/10/2020 – 09/11/2020
10/15/2020 – 10/16/2020
11/12/2020 – 11/13/2020
12/10/2020 – 12/11/2020

In this intermediate level class, students will go step-by-step through the entire editing process in Premiere Pro, from file creation all the way through output. Along the way they will learn the ins-and-outs of file management, essential and intermediate editing techniques, color correction, audio mixing and repairing, titling and effects, and delivering their video onto tape, the web, and mobile devices. They will learn to work within the Adobe ecosystem as well, getting up to speed on time saving tools such as Dynamic Link.

Introduction to Premiere Pro CC

24 Hours | $1,495

Schedules

07/14/2020 – 07/16/2020
09/21/2020 – 09/23/2020
11/11/2020 – 11/13/2020

In this three-day course, you will get a thorough overview of the interface, tools, features, and production flow for Premiere Pro CC. The course is an ideal combination of instructor-led demonstration and hands-on practice to introduce you to Adobe Premiere Pro software, a revolutionary 64-bit nonlinear video-editing application. You will learn powerful real-time video and audio editing tools that give you precise control over virtually every aspect of your production.

Premiere Pro CC Advanced

16 Hours | $1,195

Schedules

06/29/2020 – 06/30/2020
07/02/2020 – 07/03/2020
08/06/2020 – 08/07/2020
09/03/2020 – 09/04/2020
10/01/2020 – 10/02/2020
11/05/2020 – 11/06/2020
12/03/2020 – 12/04/2020

This course provides a thorough overview of the interface, tools, features, and production flow for using Premiere Pro. The course is an ideal combination of instructor-led demonstration and hands-on practice for getting to know this revolutionary nonlinear video-editing application. You will perform basic editing functions while familiarizing yourself with the user interface, and you will learn to use Premiere Pro powerful real-time video and audio editing tools to give you precise control over virtually every aspect of your production.

Agile Project Management

PMI Agile Certified Practitioner (PMI-ACP)

24 Hours | $1,299

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

If you're experienced using agile approaches, have good collaboration skills, eagerly embrace complexity and thrive on rapid response times, then your talents are in demand.

The Project Management Institute Agile Certified Practitioner (PMI-ACP) formally recognizes your knowledge of agile principles and your skill with agile techniques. It will make you shine even brighter to your employers, stakeholders, and peers. The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you.

What you will receive:

- Expert-led lectures
- Real-life examples
- 24 PMI PDUs (Based on course delivery & assignment hours)
- Tips and tricks to conquer the exam
- Assistance with the PMI application process.

Autodesk 3ds Max

Autodesk 3ds Max 2020 Fundamentals

32 Hours | $1,995

Schedules

08/03/2020 – 08/06/2020
10/05/2020 – 10/08/2020
12/01/2020 – 12/04/2020

The Autodesk 3ds Max 2020 Fundamentals course provides a thorough introduction to the Autodesk 3ds Max 2020 software that will help new users make the most of this sophisticated application, as well as broaden the horizons of existing, self-taught users. The course instructs you on how to effectively use the software interface and navigate through the scenes. It explores the creation of 3D objects and how to bring in objects from other software such as Autodesk Revit, AutoCAD, and Civil 3D. Additionally, it teaches you to prepare the scenes for renderings by adding materials, lights, and cameras. Finally, the course covers an understanding of various renderers included with the software as well as image creation and animation techniques.

The practices in this course are primarily geared towards real-world tasks encountered by users of the Autodesk 3ds Max software in the Architecture, Interior Design, and Civil Engineering industries. Advanced topics such as character modeling, character animation, and rigging, are not covered in this course.

Autodesk AutoCAD

AutoCAD 2021 Level 1: Essentials

24 Hours | $999

Schedules

06/23/2020 – 06/25/2020
07/21/2020 – 07/23/2020
08/25/2020 – 08/27/2020
10/20/2020 – 10/22/2020
11/17/2020 – 11/19/2020
12/08/2020 – 12/10/2020

This course covers the essential core topics for working with the AutoCAD software. The strategy is to start with a few basic tools that enable you to create and edit a simple drawing, and then continue to develop those tools. More advanced tools are introduced throughout the course.

AutoCAD 2021 Level 2: Beyond the Basics

16 Hours | $999

Schedules

06/18/2020 – 06/19/2020
07/16/2020 – 07/17/2020
08/13/2020 – 08/14/2020
09/17/2020 – 09/18/2020
10/08/2020 – 10/09/2020
11/12/2020 – 11/13/2020
12/10/2020 – 12/11/2020

The AutoCAD® 2021: Beyond the Basics continues on from the topics covered in the AutoCAD® 2021: Essentials. It covers more sophisticated techniques that extend your mastery of the software. For example, here you go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

AutoCAD 2021 Level 3: Advanced

24 Hours | $1,495

Schedules

07/06/2020 – 07/08/2020
08/03/2020 – 08/05/2020
09/08/2020 – 09/10/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/14/2020 – 12/16/2020

The AutoCAD 2020 Level 3: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software. This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

The AutoCAD 2020 Level 3: Advanced course is designed for those using AutoCAD 2020 with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

Autodesk AutoCAD 2020 3D Drawing and Modeling

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/28/2020 – 09/30/2020
10/26/2020 – 10/28/2020
12/07/2020 – 12/09/2020

The AutoCAD 2020: 3D Drawing and Modeling course introduces users who are proficient with the 2D commands in the AutoCAD software to the concepts and methods of 3D modeling. The course provides a thorough grounding in the fundamentals of 3D and explores the main features of the advanced 3D Modeling workspace in the AutoCAD software.

Autodesk AutoCAD 2020 Combo

64 Hours | $3,193

Schedules

06/15/2020 – 06/24/2020
07/13/2020 – 07/22/2020
08/10/2020 – 08/19/2020
09/14/2020 – 09/23/2020
10/19/2020 – 10/28/2020
11/16/2020 – 11/25/2020
12/14/2020 – 12/23/2020

AutoCAD 2020 Combo course is for the professionals who want unparalleled creative freedom, productivity, and precision for producing superb 3D modeling in their career.

The AutoCAD 2020 combo course comprised of 3 courses:

1. AutoCAD 2020 Level 1: Essentials
2. Autodesk AutoCAD 2020 Level 2: Intermediate
3. Autodesk AutoCAD 2020 Level 3: Advanced

Autodesk AutoCAD 2020 Level 1: Essentials

24 Hours | $999

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

This course covers the essential core topics for working with the AutoCAD software. The strategy is to start with a few basic tools that enable you to create and edit a simple drawing, and then continue to develop those tools. More advanced tools are introduced throughout the course.

Autodesk AutoCAD 2020 Level 2: Intermediate

16 Hours | $699

Schedules

06/18/2020 – 06/19/2020
07/16/2020 – 07/17/2020
08/13/2020 – 08/14/2020
09/17/2020 – 09/18/2020
10/22/2020 – 10/23/2020
11/19/2020 – 11/20/2020
12/17/2020 – 12/18/2020

The AutoCAD 2020 Level 2: Intermediate course continues on from the topics covered in the AutoCAD 2020: Level 1. It covers more sophisticated techniques that extend your mastery of the software. For example, here you go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

Autodesk AutoCAD 2020 Level 3: Advanced

24 Hours | $1,495

Schedules

06/22/2020 – 06/24/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/26/2020 – 10/28/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

The AutoCAD 2020 Level 3: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software. This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

Autodesk AutoCAD Electrical

Autodesk AutoCAD Electrical 2019 Fundamentals with NFPA Standards

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
08/17/2020 – 08/19/2020
10/13/2020 – 10/15/2020
12/14/2020 – 12/16/2020

AutoCAD Electrical 2019: Fundamentals with NFPA Standards course covers the indispensable core topics for working with the AutoCAD® Electrical software. In this Course, you will learn how to use many of the powerful electrical drawing creation tools in the AutoCAD Electrical software. You will create schematic drawings (ladder logic and point to point), panel drawings, and PLC-I/O circuits using automated commands for symbol insertion, component tagging, wire numbering, and drawing modification. In addition, you are introduced to methods of customizing AutoCAD Electrical symbols, circuits, and databases. Other topics covered include titleblock linking, reporting tools, templates, and project files.

Note: This learning course is designed for those using Autodesk AutoCAD Electrical 2019 with a Windows operating system. This learning course is not designed for the Autodesk AutoCAD Electrical for Mac software.

Autodesk AutoCAD Electrical 2020 Fundamentals with NFPA Standards

24 Hours | $1,495

Schedules

06/16/2020 – 06/18/2020
07/07/2020 – 07/09/2020
08/04/2020 – 08/06/2020
09/08/2020 – 09/10/2020
10/27/2020 – 10/29/2020
11/10/2020 – 11/12/2020
12/15/2020 – 12/17/2020

The AutoCAD Electrical 2020: Fundamentals with NFPA Standards course covers the indispensable core topics for working with the AutoCAD Electrical software. In this course, you will learn how to use many of the powerful electrical drawing creation tools in the AutoCAD Electrical software. You will create schematic drawings (ladder logic and point to point), panel drawings, and PLC-I/O circuits using automated commands for symbol insertion, component tagging, wire numbering, and drawing modification. In addition, you are introduced to methods of customizing AutoCAD Electrical symbols, circuits, and databases.

Autodesk Civil 3D

Autodesk Civil 3D 2019 Fundamentals

32 Hours | $1,995

Schedules

08/03/2020 – 08/06/2020
10/05/2020 – 10/08/2020
12/07/2020 – 12/10/2020

The Autodesk Civil 3D 2019 Fundamentals course is designed for Civil Engineers and Surveyors who want to take advantage of the AutoCAD Civil 3D software's interactive, dynamic design functionality. The AutoCAD Civil 3D software permits the rapid development of alternatives through its model-based design tools. You will learn techniques enabling you to organize project data, work with points, create and analyze surfaces, model road corridors, create parcel layouts, perform grading and volume calculation tasks, and layout pipe networks.

Note: This learning course is designed for those using Autodesk Civil 3D 2019 with a Windows operating system. This learning course is not designed for the Autodesk Civil 3D for Mac software.

Autodesk Civil 3D 2021: Fundamentals

32 Hours | $1,995

Schedules

06/15/2020 – 06/18/2020
08/03/2020 – 08/06/2020
09/21/2020 – 09/24/2020
11/09/2020 – 11/12/2020
12/14/2020 – 12/17/2020

This course is designed for Civil Engineers and Surveyors who want to take advantage of the Autodesk® Civil 3D® software's interactive, dynamic design functionality. The Autodesk Civil 3D software permits the rapid development of alternatives through its model-based design tools. You will learn techniques enabling you to organize project data, work with points, create and analyze surfaces, model road corridors, create parcel layouts, perform grading and volume calculation tasks, and lay out pipe networks.

Autodesk Inventor

Autodesk Inventor 2020 Advanced Assembly Modeling

24 Hours | $1,495

Schedules

07/15/2020 – 07/17/2020
09/23/2020 – 09/25/2020
11/18/2020 – 11/20/2020
12/16/2020 – 12/18/2020

The Autodesk Inventor 2020: Advanced Assembly Modeling course builds on the skills acquired in the Autodesk Inventor 2020: Introduction to Solid Modeling and Autodesk Inventor 2020: Advanced Part Modeling guides to take you to a higher level of productivity when creating and working with assemblies.

You begin by focusing on the Top-Down Design workflow. You learn how tools are used to achieve this workflow using Derive, Multi-Body Design, and Layouts. Other topics include model simplification tools, Positional and Level of Detail Representations, iMates and iAssemblies, Frame Generator, Design Accelerator, and file management and duplication techniques.

Autodesk Inventor 2020 Advanced Part Modeling

16 Hours | $995

Schedules

07/13/2020 – 07/14/2020
09/21/2020 – 09/22/2020
11/16/2020 – 11/17/2020
12/14/2020 – 12/15/2020

Autodesk Inventor 2020: Advanced Part Modeling course is to build on the skills acquired in the Autodesk Inventor: Introduction to Solid Modeling learning course by taking users to a higher level of productivity when designing part models using the Autodesk Inventor software.

In this course, the user considers various approaches to part design. Specific advanced part modeling techniques covered include: multi-body design, advanced lofts, advanced sweeps, coils, generative shape design, surface modeling, and Freeform modeling. Material aimed at increasing efficiency includes: iFeatures for frequently used design elements, iParts for similar designs, and how to work with imported data. The course also covers some miscellaneous drawing tools, such as: custom sketches symbols, working with title blocks and borders, and documenting iParts.

Autodesk Inventor 2020 Combo

96 Hours | $5,980

Schedules

07/06/2020 – 07/21/2020
09/14/2020 – 09/29/2020
11/09/2020 – 11/24/2020
12/07/2020 – 12/22/2020

Combo course comprising of the following courses :

- Autodesk Inventor 2020 Introduction to Solid Modeling
- Autodesk Inventor 2020 Advanced Part Modeling
- Autodesk Inventor 2020 Advanced Assembly Modeling
- Autodesk Inventor 2020 Sheet Metal Design

Autodesk Inventor 2020 Introduction to Solid Modeling

40 Hours | $2,495

Schedules

07/06/2020 – 07/10/2020
09/14/2020 – 09/18/2020
11/02/2020 – 11/06/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

The Autodesk Inventor 2020: Introduction to Solid Modeling course provides you with an understanding of the parametric design philosophy through a hands-on, practice-intensive curriculum. You will learn the key skills and knowledge required to design models using Autodesk Inventor, starting with conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2020 Sheet Metal Design

16 Hours | $995

Schedules

07/20/2020 – 07/21/2020
09/28/2020 – 09/29/2020
11/23/2020 – 11/24/2020
12/21/2020 – 12/22/2020

The Autodesk Inventor 2020: Sheet Metal Design course introduces the concepts and techniques of sheet metal modeling with the Autodesk Inventor software.

The structure of the course follows the typical stages of using the Autodesk Inventor software. That is, to create and edit sheet metal parts, generate flat patterns, and document the designs in drawings.

Autodesk Inventor 2021: Introduction to Solid Modeling

40 Hours | $1,995

Schedules

06/22/2020 – 06/26/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/21/2020 – 09/25/2020
10/05/2020 – 10/09/2020
12/14/2020 – 12/18/2020

The Autodesk® Inventor® 2021: Introduction to Solid Modeling course provides you with an understanding of the parametric design philosophy through a hands-on, practice-intensive curriculum. You will learn the key skills and knowledge required to design models using Autodesk Inventor, starting with conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Naviswork

Autodesk Navisworks 2020: Using Autodesk Navisworks in a BIM Workflow

16 Hours | $995

Schedules

06/25/2020 – 06/26/2020
07/23/2020 – 07/24/2020
08/27/2020 – 08/28/2020
10/15/2020 – 10/16/2020
12/10/2020 – 12/11/2020

In this course, you will learn how to consolidate civil, architectural, structural, and MEP models into one BIM model. Starting with an Autodesk® Civil 3D® drawing file, you will append various Autodesk® Revit® and Autodesk® Inventor® models and check for conflicts. Note: Clash Detection is only available in Navisworks Manage – it is not available in Navisworks Simulate or Navisworks Freedom.

Autodesk Revit

Autodesk Revit 2020 MEP Fundamentals

32 Hours | $1,995

Schedules

06/15/2020 – 06/18/2020
07/27/2020 – 07/30/2020
08/24/2020 – 08/27/2020
09/28/2020 – 10/01/2020
10/26/2020 – 10/29/2020
12/07/2020 – 12/10/2020

This course is intended to introduce users to the software's user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The course will also familiarize users with the tools required to create, document, and print the parametric model.

Autodesk Revit 2020: BIM Management – Template and Family Creation

16 Hours | $995

Schedules

06/18/2020 – 06/19/2020
07/09/2020 – 07/10/2020
08/06/2020 – 08/07/2020
10/22/2020 – 10/23/2020
12/03/2020 – 12/04/2020

The objective of the Autodesk Revit 2020 BIM Management: Template and Family Creation course is to enable users who have worked with the software to expand their knowledge in setting up office standards with templates that include annotation styles, preset views, sheets, and schedules, as well as creating custom system, in-place, and component families.

Autodesk Revit 2020: Fundamentals for Structure

32 Hours | $1,995

Schedules

06/22/2020 – 06/25/2020
07/20/2020 – 07/23/2020
08/17/2020 – 08/20/2020
09/21/2020 – 09/24/2020
10/19/2020 – 10/22/2020
11/16/2020 – 11/19/2020
12/07/2020 – 12/10/2020

This course is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model. The examples and practices are designed to take you through the basics of a full structural project, from linking in an architectural model, to construction documents.

Autodesk Revit 2021: Fundamentals for MEP

32 Hours | $1,995

Schedules

06/23/2020 – 06/26/2020
07/21/2020 – 07/24/2020
08/25/2020 – 08/28/2020
09/15/2020 – 09/18/2020
10/13/2020 – 10/16/2020
11/10/2020 – 11/13/2020
12/08/2020 – 12/11/2020

This course is intended to introduce users to the software's user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The course will also familiarize users with the tools required to create, document, and print the parametric model.

Autodesk Revit Architecture

Autodesk Revit 2020 Architecture Fundamentals

32 Hours | $1,995

Schedules

06/15/2020 – 06/18/2020
07/27/2020 – 07/30/2020
08/24/2020 – 08/27/2020
09/28/2020 – 10/01/2020
10/26/2020 – 10/29/2020
11/30/2020 – 12/03/2020

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

The objective of the Autodesk Revit 2020: Fundamentals for Architecture course is to enable you to create a full 3D architectural project model including walls, doors, windows, components, floors, ceilings, roofs, stairs, the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools.The final part of the course focuses on creating construction documents.

Autodesk Revit 2021: Fundamentals for Architecture

32 Hours | $1,995

Schedules

06/01/2020 – 06/04/2020
08/03/2020 – 08/06/2020
10/06/2020 – 10/09/2020
12/07/2020 – 12/10/2020

The Autodesk® Revit® software is a powerful Building Information Modeling (BIM) program that works the way architects think. The course streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

Autodesk Vault

Autodesk Vault Basic 2020: Essentials

24 Hours | $1,495

Schedules

07/07/2020 – 07/09/2020
10/13/2020 – 10/15/2020
12/21/2020 – 12/23/2020

The Autodesk Vault Basic 2020 Essentials course introduces Autodesk Vault Basic 2020 to end users and CAD administrators. Autodesk Vault Basic is the foundation module of the data management solution from Autodesk, enabling users to consolidate and organize all product information securely for easy reference, sharing, and re-use purposes.

This course is intended for users and CAD administrators who need to access their design files from Autodesk Vault Basic. It focuses on capabilities for managing design files and related documentation. Hands-on exercises are included to reinforce how to manage the design workflow process using Autodesk Vault Basic.

AWS Architect

Advanced Architecting on AWS

24 Hours | $2,025

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/14/2020 – 09/16/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

Advanced Architecting on AWS covers how to build complex solutions that incorporate data services, governance, and security on AWS. It introduces specialized AWS services, including AWS Direct Connect and AWS Storage Gateway to support hybrid architectures. The course also covers best practices for designing and building scalable, elastic, secure, and highly available applications on AWS.

Architecting on AWS

24 Hours | $2,025

Schedules

06/08/2020 – 06/10/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

This course focuses on the fundamentals of building IT infrastructure on the AWS platform. You will learn how to optimize the AWS Cloud by understanding AWS services and how they fit into cloud-based solutions. Best practices and design patterns are covered to help you architect optimal IT solutions on the AWS Cloud.

Architecting on AWS – Accelerator

40 Hours | $3,375

Schedules

07/27/2020 – 07/31/2020
09/21/2020 – 09/25/2020
11/16/2020 – 11/20/2020

This course covers all aspects of how to architect for the cloud over four-and-a-half-days. It covers topics from Architecting on AWS and Advanced Architecting on AWS to offer an immersive course in cloud architecture. You will learn how to design cloud architectures, starting small and working to large-scale enterprise level designs-and everything in between. Starting with the Well-Architected Framework, you will learn important architecting information for AWS services including: compute, storage, database, networking, security, monitoring, automation, optimization, benefits of de-coupling applications and serverless, building for resilience, and understanding costs.

AWS Business Essentials

8 Hours | $675

Schedules

07/06/2020 – 07/06/2020
08/03/2020 – 08/03/2020
08/31/2020 – 08/31/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
11/30/2020 – 11/30/2020

AWS Business Essentials helps IT business decision makers understand the benefits of cloud computing and how a cloud strategy can help you meet your business objectives. In this course we discuss the advantages of cloud computing for your business and the fundamentals of AWS, including financial benefits. This course also introduces you to successful cloud adoption frameworks so to help you consider the AWS platform within your cloud computing strategy.

AWS Technical Essentials

8 Hours | $675

Schedules

07/07/2020 – 07/07/2020
08/04/2020 – 08/04/2020
09/01/2020 – 09/01/2020
09/29/2020 – 09/29/2020
10/19/2020 – 10/19/2020
11/03/2020 – 11/03/2020
11/16/2020 – 11/16/2020
12/01/2020 – 12/01/2020
12/14/2020 – 12/14/2020

AWS Technical Essentials course introduces you to AWS products, services, and common solutions.

It provides IT technical end users with basic fundamentals to become more proficient in identifying AWS services so that you can make informed decisions about IT solutions based on your business requirements and get started working on AWS.

Developing on AWS

24 Hours | $2,025

Schedules

07/08/2020 – 07/10/2020
08/05/2020 – 08/07/2020
09/02/2020 – 09/04/2020
09/30/2020 – 10/02/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Developing on AWS helps developers understand how to use the AWS SDK to develop secure and scalable cloud applications. The course provides in-depth knowledge about how to interact with AWS using code and covers key concepts, best practices, and troubleshooting tips.

This course leads to AWS Certified Developer – Associate Certification.

Systems Operations on AWS

24 Hours | $2,025

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

Systems Operations on AWS training is designed to teach those in a Systems Administrator or Developer Operations (DevOps) role how to create automatable and repeatable deployments of networks and systems on the AWS platform. The course covers the specific AWS features and tools related to configuration and deployment, as well as common techniques used throughout the industry for configuring and deploying systems.

This course leads to AWS Certified SysOps Administrator – Associate Certification.

AWS Big Data

Big Data on AWS

24 Hours | $2,095

Schedules

07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

Big Data on AWS training introduces you to cloud-based big data solutions and Amazon Elastic MapReduce (EMR), the AWS big data platform. In this course, we show you how to use Amazon EMR to process data using the broad ecosystem of Hadoop tools like Pig and Hive. We also teach you how to create big data environments, work with Amazon DynamoDB and Amazon Redshift, understand the benefits of Amazon Kinesis, and leverage best practices to design big data environments for security and cost-effectiveness.

This course leads to AWS Certified Data Analytics – Specialty Certification.

Data Warehousing on AWS

24 Hours | $2,025

Schedules

07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/21/2020 – 12/23/2020

Data Warehousing on AWS training introduces you to concepts, strategies, and best practices for designing a cloud-based data warehousing solution using Amazon Redshift, the petabyte-scale data warehouse in AWS. This course demonstrates how to collect, store, and prepare data for the data warehouse by using other AWS services such as Amazon DynamoDB, Amazon EMR, Amazon Kinesis Firehose, and Amazon S3. Additionally, this course demonstrates how to use business intelligence tools to perform analysis on your data.

AWS Databases

Planning and Designing Databases on AWS

24 Hours | $2,025

Schedules

07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

In this course, you will learn about the process of planning and designing both relational and nonrelational AWS databases. It will teach you how to use workload requirements to define database design considerations and also explore the features and capabilities of the eight AWS database services. By the end of the course, you will be able to determine which AWS database service is right for your workloads and design the database to meet your requirements.

This course leads to AWS Certified Database – Specialty Certification.

AWS Developer

Advanced Architecting on AWS

24 Hours | $2,025

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/14/2020 – 09/16/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

Advanced Architecting on AWS covers how to build complex solutions that incorporate data services, governance, and security on AWS. It introduces specialized AWS services, including AWS Direct Connect and AWS Storage Gateway to support hybrid architectures. The course also covers best practices for designing and building scalable, elastic, secure, and highly available applications on AWS.

Advanced Developing on AWS

24 Hours | $2,025

Schedules

08/10/2020 – 08/12/2020
10/05/2020 – 10/07/2020
12/07/2020 – 12/09/2020

The Advanced Developing on AWS course uses the real-world scenario of taking a legacy, on-premises monolithic application and refactoring it into a serverless microservices architecture. In this course, we covers advanced development topics such as architecting for a cloud-native environment; deconstructing on-premises, legacy applications and repackaging them into cloud-based, cloud-native architectures; and applying the tenets of the Twelve-Factor Application methodology.

Architecting on AWS

24 Hours | $2,025

Schedules

06/08/2020 – 06/10/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

This course focuses on the fundamentals of building IT infrastructure on the AWS platform. You will learn how to optimize the AWS Cloud by understanding AWS services and how they fit into cloud-based solutions. Best practices and design patterns are covered to help you architect optimal IT solutions on the AWS Cloud.

AWS Business Essentials

8 Hours | $675

Schedules

07/06/2020 – 07/06/2020
08/03/2020 – 08/03/2020
08/31/2020 – 08/31/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
11/30/2020 – 11/30/2020

AWS Business Essentials helps IT business decision makers understand the benefits of cloud computing and how a cloud strategy can help you meet your business objectives. In this course we discuss the advantages of cloud computing for your business and the fundamentals of AWS, including financial benefits. This course also introduces you to successful cloud adoption frameworks so to help you consider the AWS platform within your cloud computing strategy.

AWS Technical Essentials

8 Hours | $675

Schedules

07/07/2020 – 07/07/2020
08/04/2020 – 08/04/2020
09/01/2020 – 09/01/2020
09/29/2020 – 09/29/2020
10/19/2020 – 10/19/2020
11/03/2020 – 11/03/2020
11/16/2020 – 11/16/2020
12/01/2020 – 12/01/2020
12/14/2020 – 12/14/2020

AWS Technical Essentials course introduces you to AWS products, services, and common solutions.

It provides IT technical end users with basic fundamentals to become more proficient in identifying AWS services so that you can make informed decisions about IT solutions based on your business requirements and get started working on AWS.

Developing on AWS

24 Hours | $2,025

Schedules

07/08/2020 – 07/10/2020
08/05/2020 – 08/07/2020
09/02/2020 – 09/04/2020
09/30/2020 – 10/02/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Developing on AWS helps developers understand how to use the AWS SDK to develop secure and scalable cloud applications. The course provides in-depth knowledge about how to interact with AWS using code and covers key concepts, best practices, and troubleshooting tips.

This course leads to AWS Certified Developer – Associate Certification.

Running Container-Enabled Microservices on AWS

8 Hours | $675

Schedules

07/27/2020 – 07/27/2020
08/31/2020 – 08/31/2020
09/28/2020 – 09/28/2020
10/26/2020 – 10/26/2020
11/30/2020 – 11/30/2020
12/28/2020 – 12/28/2020

Running Container-Enabled Microservices on AWS is designed to teach you how to manage and scale container-enabled applications by using Amazon Elastic Container Service (ECS). This course highlights the challenges of running containerized applications at scale and provides guidance on creating and using Amazon ECS to develop and deploy containerized microservices-based applications. You will also learn how to run container workers for asynchronous application processes.

Systems Operations on AWS

24 Hours | $2,025

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

Systems Operations on AWS training is designed to teach those in a Systems Administrator or Developer Operations (DevOps) role how to create automatable and repeatable deployments of networks and systems on the AWS platform. The course covers the specific AWS features and tools related to configuration and deployment, as well as common techniques used throughout the industry for configuring and deploying systems.

AWS DevOps

DevOps Engineering on AWS

24 Hours | $2,025

Schedules

07/20/2020 – 07/22/2020
08/24/2020 – 08/26/2020
09/21/2020 – 09/23/2020
10/26/2020 – 10/28/2020
11/23/2020 – 11/25/2020
12/28/2020 – 12/30/2020

DevOps Engineering on AWS teaches you how to use the combination of tools, practices, and cultural philosophy of DevOps to improve an organization's ability to develop, deliver, and maintain applications and services at high velocity on AWS. This course covers Continuous Integration (CI), Continuous Delivery (CD), microservices, infrastructure as code, monitoring and logging, and communication and collaboration.

This course leads to AWS Certified DevOps Engineer – Professional Certification.

AWS Essentials

Advanced Architecting on AWS

24 Hours | $2,025

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/14/2020 – 09/16/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

Advanced Architecting on AWS covers how to build complex solutions that incorporate data services, governance, and security on AWS. It introduces specialized AWS services, including AWS Direct Connect and AWS Storage Gateway to support hybrid architectures. The course also covers best practices for designing and building scalable, elastic, secure, and highly available applications on AWS.

Architecting on AWS

24 Hours | $2,025

Schedules

06/08/2020 – 06/10/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

This course focuses on the fundamentals of building IT infrastructure on the AWS platform. You will learn how to optimize the AWS Cloud by understanding AWS services and how they fit into cloud-based solutions. Best practices and design patterns are covered to help you architect optimal IT solutions on the AWS Cloud.

AWS Business Essentials

8 Hours | $675

Schedules

07/06/2020 – 07/06/2020
08/03/2020 – 08/03/2020
08/31/2020 – 08/31/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
11/30/2020 – 11/30/2020

AWS Business Essentials helps IT business decision makers understand the benefits of cloud computing and how a cloud strategy can help you meet your business objectives. In this course we discuss the advantages of cloud computing for your business and the fundamentals of AWS, including financial benefits. This course also introduces you to successful cloud adoption frameworks so to help you consider the AWS platform within your cloud computing strategy.

AWS Cloud Practitioner Essentials

8 Hours | $675

Schedules

06/15/2020 – 06/15/2020
07/13/2020 – 07/13/2020
08/17/2020 – 08/17/2020
09/14/2020 – 09/14/2020
10/19/2020 – 10/19/2020
11/16/2020 – 11/16/2020
12/14/2020 – 12/14/2020

This fundamental-level course is intended for individuals who seek an overall understanding of the AWS Cloud, independent of specific technical roles. You will learn about AWS cloud concepts, AWS services, security, architecture, pricing, and support to build your AWS Cloud knowledge. Throughout the day there are hands-on lab exercises to reinforce some of the core concepts of the class. It also helps you prepare for the AWS Certified Cloud Practitioner exam.

AWS Technical Essentials

8 Hours | $675

Schedules

07/07/2020 – 07/07/2020
08/04/2020 – 08/04/2020
09/01/2020 – 09/01/2020
09/29/2020 – 09/29/2020
10/19/2020 – 10/19/2020
11/03/2020 – 11/03/2020
11/16/2020 – 11/16/2020
12/01/2020 – 12/01/2020
12/14/2020 – 12/14/2020

AWS Technical Essentials course introduces you to AWS products, services, and common solutions.

It provides IT technical end users with basic fundamentals to become more proficient in identifying AWS services so that you can make informed decisions about IT solutions based on your business requirements and get started working on AWS.

Developing on AWS

24 Hours | $2,025

Schedules

07/08/2020 – 07/10/2020
08/05/2020 – 08/07/2020
09/02/2020 – 09/04/2020
09/30/2020 – 10/02/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Developing on AWS helps developers understand how to use the AWS SDK to develop secure and scalable cloud applications. The course provides in-depth knowledge about how to interact with AWS using code and covers key concepts, best practices, and troubleshooting tips.

This course leads to AWS Certified Developer – Associate Certification.

Media Essentials for IT Business Decision Makers

16 Hours | $1,350

Schedules

07/06/2020 – 07/07/2020
08/03/2020 – 08/04/2020
09/08/2020 – 09/09/2020
10/05/2020 – 10/06/2020
11/02/2020 – 11/03/2020
12/07/2020 – 12/08/2020

This course covers the media and cloud fundamentals that will empower you to develop a cloud migration strategy for media workflows in support of business goals. The course covers important concepts related to video processing and delivery, the variables that can impact migration decisions, and real-world examples of hybrid and cloud use cases for AWS Media Services. It also introduces security, artificial intelligence, and analytics concepts to help you consider how AWS Media Services fit into your overall cloud strategy.

Migrating to AWS

16 Hours | $1,350

Schedules

07/08/2020 – 07/09/2020
08/05/2020 – 08/06/2020
09/09/2020 – 09/10/2020
10/07/2020 – 10/08/2020
11/04/2020 – 11/05/2020
12/02/2020 – 12/03/2020

Migrating to AWS focuses on planning and migrating existing workloads to the AWS Cloud. The course covers various cloud migration strategies with a detailed discussion on each phase of the migration process, including portfolio discovery, application migration planning and design, migration execution, and post-migration validation and application optimization. This course is designed for Solutions Architects and Engineers who perform cloud migrations, have an understanding of core AWS services and design patterns covered in Architecting on AWS. This course is also available to IT project managers involved in the planning of those migrations who have completed AWS Technical Essentials.

Secrets to Successful Cloud Transformations

8 Hours | $675

Schedules

07/28/2020 – 07/28/2020
08/25/2020 – 08/25/2020
09/29/2020 – 09/29/2020
10/27/2020 – 10/27/2020
11/24/2020 – 11/24/2020
12/29/2020 – 12/29/2020

In this course, you will learn how to select the right strategy, people, migration plan, and financial management methodology to move your workloads to the AWS Cloud. You will learn how to build a holistic cloud adoption plan and how to hire people to execute that plan. You will learn best practices for choosing workloads to migrate from your on-premises environment to AWS. You will also learn best practices for managing your AWS expenses and dealing with internal chargebacks.

This course focuses on the business aspects of cloud transformation, rather than the technical aspects.

Systems Operations on AWS

24 Hours | $2,025

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

Systems Operations on AWS training is designed to teach those in a Systems Administrator or Developer Operations (DevOps) role how to create automatable and repeatable deployments of networks and systems on the AWS platform. The course covers the specific AWS features and tools related to configuration and deployment, as well as common techniques used throughout the industry for configuring and deploying systems.

This course leads to AWS Certified SysOps Administrator – Associate Certification.

AWS Machine Learning

Deep Learning on AWS

8 Hours | $675

Schedules

07/10/2020 – 07/10/2020
08/07/2020 – 08/07/2020
09/04/2020 – 09/04/2020
10/02/2020 – 10/02/2020
11/06/2020 – 11/06/2020
12/04/2020 – 12/04/2020

In this course, you'll learn about AWS's deep learning solutions, including scenarios where deep learning makes sense and how deep learning works. You'll learn how to run deep learning models on the cloud using Amazon SageMaker and the MXNet framework. You'll also learn to deploy your deep learning models using services like AWS Lambda while designing intelligent systems on AWS.

Practical Data Science with Amazon SageMaker

8 Hours | $675

Schedules

07/09/2020 – 07/09/2020
08/06/2020 – 08/06/2020
09/10/2020 – 09/10/2020
10/08/2020 – 10/08/2020
11/05/2020 – 11/05/2020
12/03/2020 – 12/03/2020

This course walks through the stages of a typical data science process for Machine Learning from analyzing and visualizing a dataset to preparing the data, and feature engineering. Individuals will also learn practical aspects of model building, training, tuning, and deployment with Amazon SageMaker. Real life use case includes customer retention analysis to inform customer loyalty programs.

The Machine Learning Pipeline on AWS

32 Hours | $2,700

Schedules

07/06/2020 – 07/09/2020
08/10/2020 – 08/13/2020
09/14/2020 – 09/17/2020
10/05/2020 – 10/08/2020
11/02/2020 – 11/05/2020
12/07/2020 – 12/10/2020

This course explores how to use the machine learning (ML) pipeline to solve a real business problem in a project-based learning environment. Students will learn about each phase of the pipeline from instructor presentations and demonstrations and then apply that knowledge to complete a project solving one of three business problems: fraud detection, recommendation engines, or flight delays. By the end of the course, students will have successfully built, trained, evaluated, tuned, and deployed an ML model using Amazon SageMaker that solves their selected business problem.

AWS Security

AWS Security Essentials

8 Hours | $675

Schedules

07/08/2020 – 07/08/2020
08/05/2020 – 08/05/2020
09/02/2020 – 09/02/2020
10/07/2020 – 10/07/2020
11/04/2020 – 11/04/2020
12/02/2020 – 12/02/2020

This course covers fundamental AWS cloud security concepts, including AWS access control, data encryption methods, and how network access to your AWS infrastructure can be secured. We will address your security responsibilities in the AWS cloud and provide a brief introduction to the different security-oriented AWS services available.

Security Engineering on AWS

24 Hours | $2,025

Schedules

07/06/2020 – 07/08/2020
08/03/2020 – 08/05/2020
09/01/2020 – 09/03/2020
10/05/2020 – 10/07/2020
11/02/2020 – 11/04/2020
12/07/2020 – 12/09/2020

Learn how to use AWS security services to stay secure in the AWS Cloud. Enhance the security of your data and systems in the cloud with AWS-recommended security practices. In this course, you'll explore the security features of AWS key services, including compute, storage, networking, and database services. You'll also learn how to use AWS services and tools for automation, continuous monitoring and logging, and responding to security incidents.

AWS SysOps

Advanced Architecting on AWS

24 Hours | $2,025

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/14/2020 – 09/16/2020
10/05/2020 – 10/07/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

Advanced Architecting on AWS covers how to build complex solutions that incorporate data services, governance, and security on AWS. It introduces specialized AWS services, including AWS Direct Connect and AWS Storage Gateway to support hybrid architectures. The course also covers best practices for designing and building scalable, elastic, secure, and highly available applications on AWS.

Architecting on AWS

24 Hours | $2,025

Schedules

06/08/2020 – 06/10/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

This course focuses on the fundamentals of building IT infrastructure on the AWS platform. You will learn how to optimize the AWS Cloud by understanding AWS services and how they fit into cloud-based solutions. Best practices and design patterns are covered to help you architect optimal IT solutions on the AWS Cloud.

AWS Business Essentials

8 Hours | $675

Schedules

07/06/2020 – 07/06/2020
08/03/2020 – 08/03/2020
08/31/2020 – 08/31/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
11/30/2020 – 11/30/2020

AWS Business Essentials helps IT business decision makers understand the benefits of cloud computing and how a cloud strategy can help you meet your business objectives. In this course we discuss the advantages of cloud computing for your business and the fundamentals of AWS, including financial benefits. This course also introduces you to successful cloud adoption frameworks so to help you consider the AWS platform within your cloud computing strategy.

AWS Technical Essentials

8 Hours | $675

Schedules

07/07/2020 – 07/07/2020
08/04/2020 – 08/04/2020
09/01/2020 – 09/01/2020
09/29/2020 – 09/29/2020
10/19/2020 – 10/19/2020
11/03/2020 – 11/03/2020
11/16/2020 – 11/16/2020
12/01/2020 – 12/01/2020
12/14/2020 – 12/14/2020

AWS Technical Essentials course introduces you to AWS products, services, and common solutions.

It provides IT technical end users with basic fundamentals to become more proficient in identifying AWS services so that you can make informed decisions about IT solutions based on your business requirements and get started working on AWS.

Developing on AWS

24 Hours | $2,025

Schedules

07/08/2020 – 07/10/2020
08/05/2020 – 08/07/2020
09/02/2020 – 09/04/2020
09/30/2020 – 10/02/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Developing on AWS helps developers understand how to use the AWS SDK to develop secure and scalable cloud applications. The course provides in-depth knowledge about how to interact with AWS using code and covers key concepts, best practices, and troubleshooting tips.

This course leads to AWS Certified Developer – Associate Certification.

Systems Operations on AWS

24 Hours | $2,025

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

Systems Operations on AWS training is designed to teach those in a Systems Administrator or Developer Operations (DevOps) role how to create automatable and repeatable deployments of networks and systems on the AWS platform. The course covers the specific AWS features and tools related to configuration and deployment, as well as common techniques used throughout the industry for configuring and deploying systems.

This course leads to AWS Certified SysOps Administrator – Associate Certification

CAP: Certified Authorization Professional

CAP Certification Prep

24 Hours | $1,650

Schedules

08/03/2020 – 08/05/2020
10/14/2020 – 10/16/2020
12/16/2020 – 12/18/2020

This course is designed for the information security practitioner who champions system security commensurate with an organization's mission and risk tolerance while meeting legal and regulatory requirements. The Certified Authorization Professional (CAP) certification course conceptually mirrors the National Institute of Standards and Technology (NIST) system authorization process in compliance with the Office of Management and Budget (OMB) Circular A-130, Appendix III.

Gain the skills needed to categorize, implement, authorize, assess, continuously monitor (real-time risk management), and select security controls for information systems that meets federal mandates on requirements and process guidelines.

Background information related to how the federal RMF was developed, the expectations set by Congress and OMB, as well as the manner in which the RMF integrates with other information and business processes.

Note: This is to declare that it is a DoD approved course.

Certified Associate in Project Management (CAPM)

Certified Associate in Project Management (CAPM)

24 Hours | $1,995

Schedules

06/08/2020 – 06/10/2020
07/13/2020 – 07/15/2020
08/03/2020 – 08/05/2020
09/02/2020 – 09/08/2020
10/05/2020 – 10/07/2020
11/02/2020 – 11/04/2020
12/07/2020 – 12/09/2020

Regardless of your career stage, the Certified Associate in Project Management (CAPM) is an asset that will distinguish you in the job market and enhance your credibility and effectiveness working on – or with – project teams

CAPM recognizes your knowledge of the profession's preeminent global standard, you'll stand out to employers and be poised to move ahead.

This course is aligned with *PMBOK Guide* – Sixth Edition.

CISA

CISA Certification Prep

40 Hours | $2,895

Schedules

06/15/2020 – 06/19/2020
08/17/2020 – 08/21/2020
10/19/2020 – 10/23/2020
12/07/2020 – 12/11/2020

In this course, you will perform evaluations of organizational policies, procedures, and processes to ensure that an organization's information systems align with overall business goals and objectives. You will evaluate the security and controls of business structure and governance methods; the policies, procedures, and guidelines used; and the overall security of the business environment. Also, this course will help you prepare for the ISACA CISA certification exam.

CISA Certification acts as a career differentiator for security professionals or IT managers who wish to enhance their marketability and credibility. This is an ideal path for those looking at a long term career in Information Systems Auditing. This course is highly recommended for IS/IT auditors, IT managers, Audit Managers, Security Managers, System Analysts, Consultants, and even CIOs and CTOs.

ISACA Certification Prep courses are taught by our Subject Matter Experts (SMEs) and based on ISACA Curriculum. The aspirants who are looking to get certified can just go to the ISACA website, apply for membership, and purchase the voucher.

Note: This is to declare that it is a DoD approved course.

Cisco Collaboration Track

Administering Cisco Unified Contact Center Enterprise Part 2 (AUCCE2) 2.0 (Collaboration)

40 Hours | $4,195

Schedules

07/13/2020 – 07/17/2020

Administering Cisco Unified Contact Center Enterprise Part 2 (AUCCE Part 2) is a instructor-led course presented to system engineers and customers who will be involved with day 2 support of a UCCE solution deployed in a CVP comprehensive environment. This course gives the learner an understanding of the requirements, resources and tools required to perform complex adds, moves and changes in the inbound / outbound UCCE environment. This course is intended for those performing advanced administration of the solution, or who may be responsible for Level 2-3 support of the solution. The overall goal of this course is advanced administration of the solution by a deeper exposure into the technical operational requirements and the tools used to configure and ensure functionality.

Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) v1.0

40 Hours | $3,995

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/31/2020 – 09/04/2020
10/05/2020 – 10/09/2020
11/09/2020 – 11/13/2020
12/14/2020 – 12/18/2020

The Implementing Cisco Collaboration Core Technologies (CLCOR) v1.0 course helps you prepare for the Cisco® CCNP® Collaboration and CCIE® Collaboration certifications, and advanced-level roles focused on implementation and operation of Cisco collaboration solutions.

You will gain the knowledge and skills needed to implement and deploy core collaboration and networking technologies, including infrastructure and design, protocols, codecs, and endpoints, Cisco Internetwork Operating System (IOS®) XE gateway and media resources, call control, Quality of Service (QoS), and additional Cisco collaboration applications.

This course also helps you prepare you to take the exam, Implementing Cisco Collaboration Core Technologies (350-801 CLCOR), which is part of the new CCNP Collaboration, CCIE Collaboration, and the Cisco Certified Specialist – Collaboration Core certifications.

Implementing Cisco Collaboration Applications (CLICA) v1.0

40 Hours | $4,195

Schedules

06/22/2020 – 06/26/2020
08/17/2020 – 08/21/2020
10/05/2020 – 10/09/2020
11/30/2020 – 12/04/2020

The Implementing Cisco Collaboration Applications (CLICA) v1.0 course provides you with the knowledge and skills to streamline communication protocol, strengthen compliance measures, and enhance your communication systems and devices with knowledge about Single Sign-On (SSO), Cisco® Unified IM & Presence, Cisco Unity® Connection and Cisco Unity Express, and Application clients. Through a combination of lessons and hands-on training, you acquire the skills to maximize the agility of robust management systems.

This couse will prepare you for 300-810 Implementing Cisco Collaboration Applications (CLICA).

The 300-810 CLICA exam certifies your knowledge and skills related to collaboration applications, including single sign-on, Cisco Unified IM and Presence, Cisco Unity Connection, Cisco Unity Express, and application clients. After you pass 300-810 CLICA, you earn the Cisco Certified Specialist – Collaboration Applications Implementation certification, and you satisfy the concentration exam requirement for this professional-level certification: CCNP® Collaboration

Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) v1.0

40 Hours | $4,195

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
08/24/2020 – 08/28/2020
10/05/2020 – 10/09/2020
11/30/2020 – 12/04/2020

The Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) v1.0 course provides you with knowledge about Cisco® Expressway Series solutions enabling business-to-business (B2B) calls, Cisco Mobile, remote access, authentication options, and additional Cisco Expressway Series features. Though a combination of lessons and hands-on labs, you will learn how to leverage collaborative technology to access secure, collaborative work supports including video, voice, content, and remote workloads.

This course also prepares you for the 300-820 Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) exam.

The 300-820 CLCEI exam certifies your knowledge and skills related to collaboration cloud and edge solutions, expressway configurations, and Cisco WebEx Teams™ hybrid and emerging technologies. After you pass 300-820 CLCEI, you earn the Cisco Certified Specialist – Collaboration Cloud & Edge Implementation certification, and you satisfy the concentration exam requirement for this professional-level certification: CCNP® Collaboration

Implementing Cisco Quality of Service (QOS) v2.5

40 Hours | $3,695

Schedules

07/20/2020 – 07/24/2020

Implementing Cisco Quality of Service (QOS) v2.5 provides learners with in-depth knowledge of QoS requirements, conceptual models such as best effort, IntServ, and DiffServ, and the implementation of QoS on Cisco platforms. The curriculum covers the theory of QoS, design issues, and configuration of various QoS mechanisms to facilitate the creation of effective administrative policies providing QoS.

The course also gives learners design and usage rule for advanced QoS features. This gives the learners the opportunity to design and implement efficient, optimal, and trouble-free multiservice networks.

Understanding Cisco Collaboration Foundations (CLFNDU) v1.0

40 Hours | $4,595

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
07/20/2020 – 07/24/2020
08/03/2020 – 08/07/2020
08/31/2020 – 09/04/2020
09/28/2020 – 10/02/2020
10/26/2020 – 10/30/2020
11/30/2020 – 12/04/2020

The Understanding Cisco Collaboration Foundations (CLFNDU) 1.0 course gives you the skills and

knowledge needed to administer and support a simple, single-site Cisco® Unified Communications Manager (CM) solution with Session Initiation Protocol (SIP) gateway. The course covers initial parameters, management of devices including phones and video endpoints, management of users, and management of media resources, as well as Cisco Unified Communications solutions maintenance and troubleshooting tools. In addition, you will learn the basics of SIP dial plans including connectivity to Public Switched Telephone Network (PSTN) services, and how to use class-of-service capabilities.

This course provides the fundamental knowledge needed to take CCNP® Collaboration certification courses. It also serves as entry-level training for newcomers to Cisco on-premise collaboration technologies.

Cisco Cybersecurity Operations Track

Implementing Cisco Cybersecurity Operations (SECOPS) v1.0 (Associate)

40 Hours | $4,295

Schedules

07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
09/07/2020 – 09/11/2020
10/05/2020 – 10/09/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

Learn how a Security Operations Center (SOC) functions and gain the introductory-level skills and knowledge required for success. Students obtain the core skills needed to grasp the associate-level material in the 210-255 exam “Implementing Cisco Cybersecurity Operations (SECOPS),” which, when combined with passing the 210-250 SECFND exam, lead to the Cisco Certified CyberOps Associate certification.

Understanding Cisco Cybersecurity Fundamentals (SECFND) v1.0 (Associate)

40 Hours | $4,295

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/24/2020 – 08/28/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

Today’s organizations are challenged with rapidly detecting cybersecurity breaches and effectively responding to security incidents. Teams of people in Security Operations Centers (SOC’s) keep a vigilant eye on security systems, protecting their organizations by detecting and responding to cybersecurity threats. Cisco Certified CyberOps Associate prepares candidates to begin a career working with associate-level cybersecurity analysts within security operations centers.

Cisco Data Center Track

Configuring Cisco MDS 9000 Series Switches (DCMDS) v3.1

32 Hours | $4,295

Schedules

07/06/2020 – 07/09/2020
09/08/2020 – 09/11/2020
11/02/2020 – 11/05/2020
12/28/2020 – 01/04/2021

The Configuring Cisco MDS 9000 Series Switches (DCMDS) v3.1 course shows you how to implement, manage, and troubleshoot Cisco® MDS 9000 Series Switches, to build highly available, scalable storage networks. In this course, you will learn how to deploy and use capabilities such as Virtual Storage

Area Networks (VSANs), Role-Based Access Control (RBAC), N-Port Virtualization (NPV) fabric security, zoning, automation with NX-API, Slow Drain Analysis, SAN analytics, Fibre Channel over TCP/IP (FCIP) tunnels, and more. You will learn how to configure and implement platform features and learn troubleshooting techniques pertaining to Fibre Channel (FC) domains, firmware upgrades, zones, and zone mergers. This course prepares you for Cisco CCNP Data Center and Cisco Certified Specialist – Data Center SAN Implementation certifications.

This course helps you prepare to take the exam, Implementing Cisco Storage Area Networking (300-625 DCSAN), which leads to CCNP Data Center and the Certified Specialist – Data Center SAN Implementation certifications.

Configuring Cisco NX-OS Switches and Fabrics in the Data Center (DCCNX) v1.0

24 Hours | $2,995

Schedules

06/10/2020 – 06/12/2020

The Configuring Cisco Nexus Switches (DCCNX) v1.0 course shows you how to install, configure, and manage Cisco Nexus Series Switch platforms using Cisco NX-OS to support highly available, secure, scalable virtualized data centers. Through expert instruction and hands-on practice, you will learn how to deploy Cisco NX-OS software features including networking, virtualization, security, storage services, system management and monitoring. You will also gain an introduction to automating Cisco Nexus devices using Cisco NX-OS Software programmability features.

For technical overview the Cisco Nexus Switches, you may consider taking Introducing Cisco NX-OS Switches and Fabrics in the Data Center (DCINX) v1.0 along with this course.

Configuring Cisco Unified Computing System (DCCUCS) v1.0

24 Hours | $3,695

Schedules

06/10/2020 – 06/12/2020
07/15/2020 – 07/17/2020
08/12/2020 – 08/14/2020
09/16/2020 – 09/18/2020
10/14/2020 – 10/16/2020
11/11/2020 – 11/13/2020
12/09/2020 – 12/11/2020

The Configuring Cisco Unified Computing System (DCCUCS) v1.0 shows you how to deploy, secure, operate, and maintain Cisco Unified Computing System™ (Cisco UCS®) B-series blade servers, Cisco UCS C-Series, and S-Series rack servers for use in data centers. You will learn how to implement management and orchestration software for Cisco UCS. You will gain hands-on practice: configuring key features of Cisco UCS, Cisco UCS Director, and Cisco UCS Manager; implementing UCS management software including Cisco UCS Manager and Cisco Intersight™; and more.

Designing Cisco Data Center Infrastructure (DCID) v7.0 (Professional)

40 Hours | $3,995

Schedules

06/22/2020 – 06/26/2020
08/10/2020 – 08/14/2020
09/28/2020 – 10/02/2020
11/16/2020 – 11/20/2020

The Designing Cisco Data Center Infrastructure (DCID) v7.0 course helps you master design and deployment options focused on Cisco data center solutions and technologies across network, compute, virtualization, storage area networks, automation, and security. You will learn design practices for the

Cisco Unified Computing System (Cisco UCS) solution based on Cisco UCS B-Series and C-Series servers, Cisco UCS Manager, and Cisco Unified Fabric. You will also gain design experience with network management technologies including Cisco UCS Manager, Cisco Data Center Network Manager (DCNM), and Cisco UCS Director. You can expect theoretical content as well as design-oriented case studies in the form of activities.

This course helps you prepare to take the exam, **Designing Cisco Data Center Infrastructure (300-610 DCID)**, which leads to the new **CCNP Data Center and Cisco Certified Specialist – Data Center Design certifications**.

Implementing and Operating Cisco Data Center Core Technologies (DCCOR) v1.0

40 Hours | $4,595

Schedules

07/13/2020 – 07/17/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

The **Implementing and Operating Cisco Data Center Core Technologies** (DCCOR) v1.0 course helps you prepare for the Cisco CCNP Data Center and CCIE Data Center certifications and for advanced-level data center roles. In this course, you will master the skills and technologies you need to implement data center compute, LAN and SAN infrastructure. You will also learn the essentials of automation and security in data centers. You will get hands-on experience with deploying, securing, operating, and maintaining Cisco data center infrastructure including: Cisco MDS Switches and Cisco Nexus Switches; Cisco Unified Computing System (Cisco UCS) B-Series Blade Servers, and Cisco UCS C-Series Rack Servers.

This course, including the self-paced material, helps prepare you to take the exam, **Implementing Cisco Data Center Core Technologies** (350-601 DCCOR), which leads to to the new **CCNP Data Center, CCIE Data Center**, and the **Cisco Certified Specialist – Data Center Core** certifications.

Implementing Cisco Application Centric Infrastructure (DCACI) v1.0

40 Hours | $4,295

Schedules

06/22/2020 – 06/26/2020

The Implementing Cisco Application Centric Infrastructure (DCACI) v1.0 course show you how to deploy and manage the Cisco® Nexus® 9000 Series Switches in Cisco Application Centric Infrastructure (Cisco ACI®) mode. The course gives you the knowledge and skills to configure and manage Cisco Nexus 9000 Series Switches in ACI mode, how to connect the Cisco ACI fabric to external networks and services, and fundamentals of Virtual Machine Manager (VMM) integration. You will gain hands-on practice implementing key capabilities such as fabric discovery, policies, connectivity, VMM integration, and more.

This course helps you prepare to take the exam, Implementing Cisco Application Centric Infrastructure (300-620 DCACI), which leads to CCNP® Data Center and Cisco Certified Specialist – Data Center ACI Implementation certifications.

Introducing Cisco NX-OS Switches and Fabrics in the Data Center (DCINX) v1.0

16 Hours | $2,195

Schedules

06/08/2020 – 06/09/2020

The Introducing Cisco NX-OS Switches and Fabrics in the Data Center (DCINX) v1.0 course gives you a

technical overview the Cisco Nexus® Switches key capabilities including platforms, architecture, software, management, and features that contribute to performance, high availability, flexibility, operational simplicity, and investment protection. The course is for technical decision makers and IT professionals who architect, implement, and manage Cisco Nexus switches in data center environments. You will have hand-on practice exploring key features including Virtual Device Contexts (VDC), First Hop Redundancy protocols (FHRPs), and user management.

The Configuring Cisco Nexus Switches (DCCNX) v1.0 course may also be taken after taking this course to learn how to configure the Cisco Nexus Switches using Cisco® NX-OS.

Introducing Cisco Unified Computing System (DCIUCS) v1.0

16 Hours | $2,195

Schedules

06/08/2020 – 06/09/2020
07/13/2020 – 07/14/2020
08/10/2020 – 08/11/2020
09/14/2020 – 09/15/2020
10/08/2020 – 10/09/2020
11/09/2020 – 11/10/2020
12/07/2020 – 12/08/2020

The Introducing Cisco Unified Computing System (DCIUCS) v1.0 is an introductory course that shows you how to deploy, secure, operate and maintain the Cisco Unified Computing system (Cisco UCS) B-Series blade server, Cisco UCS CSeries and S-Series rack servers, and Cisco HyperFlex product family, for use in data centers. You will gain hands-on practice on basic Cisco UCS server configuration and performing backup and restore activities.

Troubleshooting Cisco Data Center Infrastructure (DCIT) v7.0 (Professional)

40 Hours | $4,395

Schedules

07/06/2020 – 07/10/2020
08/24/2020 – 08/28/2020
10/19/2020 – 10/23/2020
10/26/2020 – 10/30/2020
12/07/2020 – 12/11/2020
12/14/2020 – 12/18/2020

The Troubleshooting Cisco Data Center Infrastructure (DCIT) v7.0 course shows you how to troubleshoot LAN, SAN, Cisco Data Center Unified Fabric, Cisco Unified Computing System (UCS), and Cisco Application-Centric Infrastructure (ACI). You will learn methodologies and tools to identify issues that may occur in data center network architecture. You will get extensive hands-on practice troubleshooting installation, configuration and interconnectivity issues on Cisco MDS switches, Cisco Nexus switches, Cisco Fabric Extenders (FEXs), Cisco UCS, Cisco ACI, and more. This course helps prepare you to take the exam, Troubleshooting Cisco Data Center Infrastructure (300-615 DCIT), which leads to CCNP Data Center and the Cisco Certified Specialist – Data Center Operations certifications. The 300-615 DCIT exam certifies your knowledge of troubleshooting a data center infrastructure including network, compute platforms, storage network, automation, management and operations. After you pass 300-615 DCIT:

- You earn the Cisco Certified Specialist – Data Center Operations certification.
- You will have satisfied the concentration exam requirement for new CCNP Data Center certification. To complete your CCNP Data Center certification, pass the Implementing and Operating Cisco Data Center Core Technologies (300-601 DCCOR) exam or its equivalent.

Understanding Cisco Data Center Foundations (DCFNDU) v1.0

40 Hours | $4,595

Schedules

07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

The Understanding Cisco Data Center Foundations (DCFNDU) v1.0 course helps you prepare for entry-level data center roles. In this course, you will learn the foundational knowledge and skills you need to configure Cisco® data center technologies including: networking, virtualization, storage area networking, and unified computing. You will get an introduction to Cisco Application Centric Infrastructure (Cisco ACI), automation and cloud computing. You will get hands-on experience with configuring features on Cisco Nexus Operating System (Cisco NX-OS) and Cisco Unified Computing System (Cisco UCS).

Cisco Enterprise Track

Designing Cisco Enterprise Networks (ENSLD) v1.0

40 Hours | $4,295

Schedules

06/08/2020 – 06/12/2020
08/10/2020 – 08/14/2020
09/28/2020 – 10/02/2020
11/16/2020 – 11/20/2020

The Designing Cisco Enterprise Networks (ENSLD) v1.0 gives you the knowledge and skills you need to design an enterprise network. This course serves as a deep dive into enterprise network design and expands on the topics covered in the Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0 course.

This course also helps you prepare to take the exam, Designing Cisco Enterprise Networks v1.0 (ENSLD 300-420), which is part of the CCNP Enterprise and Cisco Certified Specialist – Enterprise Design certifications.

Implementing and Administering Cisco Solutions (CCNA) v1.0

40 Hours | $2,399

Schedules

06/01/2020 – 06/05/2020
06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

The Implementing and Administering Cisco Solutions (CCNA) v1.0 course gives you a broad range of fundamental knowledge for all IT careers. Through a combination of lecture and hands-on labs, you will learn how to install, operate, configure, and verify a

basic IPv4 and IPv6 network. The course covers configuring network components such as switches, routers, and Wireless LAN Controllers; managing network devices; and identifying basic security threats. The course also gives you a foundation in network programmability, automation, and software-defined networking.

This course helps you prepare to take the 200-301 Cisco Certified Network Associate (CCNA) exam. By passing this one exam, you earn CCNA certification. The 200-301 CCNA exam goes live on February 24, 2020.

Note: This course consists of 5 days of instructor-led training with hands-on lab practice, plus the equivalent of 3 days of self-study material.

Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0

40 Hours | $4,295

Schedules

06/29/2020 – 07/03/2020
08/31/2020 – 09/04/2020
09/28/2020 – 10/02/2020
10/26/2020 – 10/30/2020
11/30/2020 – 12/04/2020

The Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0 course gives you the knowledge and skills needed to configure, troubleshoot, and manage enterprise wired and wireless networks. You'll also learn to implement security principles within an enterprise network and how to overlay network design by using solutions such as SD-Access and SD-WAN.

This course helps you prepare to take the 350-401 Implementing Cisco® Enterprise Network Core Technologies (ENCOR) exam, which is part of new CCNP Enterprise certification and the Cisco Certified Specialist – Enterprise Core.

Implementing Cisco Enterprise Advanced Routing and Services (ENARSI) v1.0

40 Hours | $3,595

Schedules

06/22/2020 – 06/26/2020
08/10/2020 – 08/14/2020
09/28/2020 – 10/02/2020
11/16/2020 – 11/20/2020

The Implementing Cisco Enterprise Advanced Routing and Services (ENARSI) v1.0 gives you the knowledge you need to install, configure, operate, and troubleshoot an enterprise network. This course covers advanced routing and infrastructure technologies, expanding on the topics covered in the Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0 course.

This course helps prepare you to take the exam, Implementing Cisco® Enterprise Advanced Routing and Services (300-410 ENARSI), which leads to the new CCNP® Enterprise and Cisco Certified Specialist – Enterprise Advanced Infrastructure Implementation certifications.

Implementing Cisco Enterprise Wireless Networks (ENWLSI) v1.0

40 Hours | $4,095

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/10/2020 – 08/14/2020
09/28/2020 – 10/02/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

The Implementing Cisco Enterprise Wireless Networks (ENWLSI) v1.0 course gives you the knowledge and skills needed to secure wireless network infrastructure and troubleshoot any related issues. You'll learn how to implement and secure a wireless network infrastructure and use Cisco

Identity Service Engine (ISE), Cisco Prime Infrastructure (PI), and Cisco Connect Mobile Experience to monitor and troubleshoot network issues.

The course provides hands-on labs to reinforce concepts including deploying Cisco Prime Infrastructure Release 3.5, Cisco Catalyst 9800 Wireless Controller Release IOS XE Gibraltar 16.10, Cisco Digital Network Architecture (DNA) Center Release 1.2.8, Cisco CMX Release 10.5, Cisco MSE Release 8.0 features and Cisco Identity Services Engine (ISE) Release 2.4.

This course also helps you prepare to take the Implementing Cisco Enterprise Wireless Networks (300-430 ENWLSI) exam, which is part of the new CCNP Enterprise certification and the Cisco Certified Specialist – Enterprise Wireless Implementation certification.

Cisco Security Track

Implementing and Operating Cisco Security Core Technologies (SCOR) v1.0

40 Hours | $4,295

Schedules

06/15/2020 – 06/19/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

In this course, you will master the skills and technologies you need to implement core Cisco security solutions to provide advanced threat protection against cybersecurity attacks. You will learn security for networks, cloud and content, endpoint protection, secure network access, visibility and enforcements.

This course, including the self-paced material, helps prepare you to take the exam, Implementing and Operating Cisco Security Core Technologies (350-701 SCOR), which leads to the new CCNP Security and the Cisco Certified Specialist – Security Core certifications.

Implementing and Operating Cisco Security Core Technologies (350-701 SCOR) exam tests a candidate's knowledge of implementing and operating core security technologies.

After you pass 350-701 SCOR:

- You earn the Cisco Certified Specialist – Security Core certification
- You satisfy the core requirement for CCNP Security. To complete your CCNP Security certification, pass one of the security concentration exams.

Securing Email with Cisco Email Security Appliance (SESA) v3.0

24 Hours | $2,850

Schedules

06/15/2020 – 06/17/2020
08/03/2020 – 08/05/2020
09/21/2020 – 09/23/2020
11/23/2020 – 11/25/2020

The Securing Email with Cisco Email Security Appliance (SESA) v3.0 course shows you how to deploy and use Cisco Email Security Appliance to establish protection for your email systems against phishing, business email compromise, and ransomware, and to help streamline email security policy management.

This course helps you prepare to take the exam, Securing Email with Cisco Email Security Appliance (300-720 SESA), which leads to CCNP Security and the Certified Specialist – Email Content Security certifications.

Cisco Specialist Track

Deploying Cisco Unified Contact Center Enterprise (DUCCE) 2.0 (Collaboration)

40 Hours | $4,195

Schedules

08/03/2020 – 08/07/2020

Deploying Cisco Unified Contact Center Enterprise (DUCCE) is a instructor-led course allows learners to deploy the Unified CCE v10.0 solution including installation, deploying HA and using troubleshooting tools to identify issues with inbound and outbound Contact Center functionality. This course is intended for those installing the Unified CCE solution, or those providing Level 3 solution support.

Cisco Wireless Track

Designing Cisco Enterprise Wireless Networks (ENWLSD) v1.0

40 Hours | $4,095

Schedules

06/22/2020 – 06/26/2020
08/17/2020 – 08/21/2020
10/05/2020 – 10/09/2020
11/30/2020 – 12/04/2020

This course gives you the knowledge you need to design Cisco wireless networks. The course covers design specifics from scenario design concepts through the installation phase and into post-deployment validation.

This course helps prepare you to take the exam, Designing Cisco Enterprise Wireless Networks (300-425 ENWLSD), which leads to to the new CCNP Enterprise and Cisco Certified Specialist – Enterprise Wireless Design certifications.

Understanding Cisco Wireless Foundations (WLFNDU) v1.0

40 Hours | $3,595

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/12/2020 – 10/16/2020
11/09/2020 – 11/13/2020
12/14/2020 – 12/18/2020

The Understanding Cisco Wireless Foundations (WLFNDU) v1.0 course gives you the knowledge and skills you need to position, plan, implement, operate, and manage a Cisco wireless LAN (WLAN) network. This course teaches you how to design, install, configure, monitor, and conduct basic troubleshooting tasks on a Cisco WLAN network of any size.

CISM

CISM Certification Prep

24 Hours | $1,995

Schedules

06/22/2020 – 06/24/2020
08/24/2020 – 08/26/2020
10/26/2020 – 10/28/2020
12/14/2020 – 12/16/2020

CISM certification program was developed by the Information Systems Audit and Control Association (ISACA) for experienced Information security management professionals with work experience in developing and managing information security programs and who understand the programs relationship with the overall business goals. The CISM exam is offered three times a year (June, September, and December), consisting of 200 multiple-choice questions that cover the four CISM domains. The American National Standards Institute (ANSI) has accredited the CISM certification program under ISO/IEC 17024:2003, General Requirements for Bodies Operating Certification Systems of Persons.

ISACA Certification Prep courses are taught by our Subject Matter Experts (SMEs) and based on ISACA Curriculum. The aspirants who are looking to get certified can just go to the ISACA website, apply for membership, and purchase the voucher.

Note: This is to declare that it is a DoD approved course.

Citrix (NetScaler) ADC

CNS-220: Citrix (NetScaler) ADC 12.x Essentials and Traffic Management

40 Hours | $5,000

Schedules

07/06/2020 – 07/10/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

Build your Citrix ADC knowledge and skills by enrolling in this five-day course. It covers Citrix ADC essentials – platforms, architecture, licensing and functionality – and also focuses on traffic management, including content switching, traffic optimization and global server load balancing (GSLB). You will learn about key ADC capabilities such as high availability, security and performance, and explore SSL offload, load balancing and monitoring. The traffic management curriculum will cover AppExpert policy engines, the Rewrite and Responder features, content switching, and Security Insight. The course is designed for IT professionals with little or no Citrix ADC experience.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CNS-222: Citrix (NetScaler) ADC 12.x Essentials and Citrix Gateway

40 Hours | $5,000

Schedules

07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

Expand your Citrix networking knowledge and skills by enrolling in this five-day course.

It covers Citrix ADC essentials, including secure load balancing, high availability and operations management, and also focuses on Citrix Gateway. You will learn to deliver secure remote access to apps and desktops integrating Citrix Virtual Apps and Citrix Desktops with Citrix Gateway.

This course is best suited for IT professionals, with little or no previous Citrix networking experience, who will be deploying or managing Citrix ADC, or Citrix Gateway environments.

CNS-420: Citrix (NetScaler) Networking Assessment, Design, and Advanced Configuration

40 Hours | $5,000

Schedules

06/15/2020 – 06/19/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020
10/19/2020 – 10/23/2020
11/30/2020 – 12/04/2020

In this expert level course you will be exposed to advanced networking and Citrix ADC concepts and configurations. Through lecture, lab exercises, and real-world case studies, you will learn to look critically at environment requirements, constraints, and business drivers to create a complex Citrix networking solution. Topics to be covered in this course include multi-site and multitenant deployments, advanced authentication and load balancing, and automation and orchestration and advanced troubleshooting.

This training will also prepare you for the Citrix Certified Expert in Networking (CCE-N) exam.

Citrix Application Delivery Management

CNS-320: Citrix (NetScaler) ADC 12.x Advanced Concepts – Security, Management and Optimization

40 Hours | $5,000

Schedules

07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
11/30/2020 – 12/04/2020

Learn how to configure your Citrix networking environment to address application services security requirements with Citrix Web App Firewall; automate and manage network services for scale-out of application architectures with Citrix Application Delivery Management; and optimize Citrix ADC-managed application delivery traffic.

This five-day course for experienced Citrix networking architects, engineers and administrators will teach you to deploy and manage Web App Firewall to protect web applications against different types of attacks. It will also give you a practical understanding of Citrix Application Delivery Management capabilities for centralized management of multiple Citrix ADC platforms, orchestration of changes, transaction reporting, infrastructure visualization and planning.

Citrix Content Collaboration

CSF-201: Citrix (ShareFile) Content Enterprise Essentials

16 Hours | $2,000

Schedules

06/25/2020 – 06/26/2020
07/23/2020 – 07/24/2020
08/13/2020 – 08/14/2020
09/28/2020 – 09/29/2020
11/02/2020 – 11/03/2020
12/03/2020 – 12/04/2020

In this two-day course, you will learn about enterprise file sharing and synchronization with Citrix Content Collaboration. You will gain the skills and understanding needed to configure and manage your Citrix Content Collaboration environment, including implementation of StorageZones and Citrix Virtual Apps and Desktop clients. Additionally, explore your control plane and data storage options, end-user management, and client deployments on Windows physical and virtual desktops.

This course will give you an understanding of Content Collaboration administrative responsibilities and teach you how to navigate the administrative console for facilitated deployment and file sharing success. This course is designed for IT professionals with little Citrix Content Collaboration experience.

Citrix Endpoint Management

CEM-205: Manage Citrix Endpoint Management

24 Hours | $3,000

Schedules

07/06/2020 – 07/08/2020
08/03/2020 – 08/05/2020
09/02/2020 – 09/04/2020
10/07/2020 – 10/09/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Students will explore how to manage Citrix Endpoint Management in this three day course. Venture into the cloud as students learn to manage devices, apps, and users. Students will learn how the architecture, management, and communication flow function with Citrix Endpoint Management Service and how they can fit their organization's needs. You will learn how to administer their Citrix Endpoint Management environment and how to support your end users, as well as working with applications and securing a variety of endpoints.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

Citrix SD-WAN

CNS-230: Deploy and Manage Citrix SD-WAN – Essentials

24 Hours | $3,000

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
08/26/2020 – 08/28/2020
09/28/2020 – 09/30/2020
11/04/2020 – 11/06/2020
12/02/2020 – 12/04/2020

Learn the various SD-WAN implementations and deployment modes available, and how to choose the one that is right for your organization. Take a tour of the underlying architecture of SD- WAN and learn how to differentiate between the various components. Understand how the different elements of SD-WAN come together to provide a better network experience.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

Citrix Virtual Apps and Desktops

CMB-318: Citrix Virtual Apps and Desktops 7, App Layering and WEM Administration (Fast Track)

40 Hours | $6,000

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

This 5-day course is designed for experienced IT professionals to build the foundational administration aspects of installing, configuring and managing a Citrix Virtual Apps and Desktops 7 environment.

Learn about configuring policies, printing and basic security features as well as more advanced topics including Windows Environment Management (WEM) and App Layering. Gain an understanding of the solution architecture and communications, and the factors that contribute to a successful deployment. Also, learn how to monitor and troubleshoot the environment with a Citrix Director and Citrix Analytics.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CWS-206: Citrix Workspace Microapps Essentials

24 Hours | $3,000

Schedules

06/08/2020 – 06/10/2020
07/20/2020 – 07/22/2020
08/10/2020 – 08/12/2020
09/16/2020 – 09/18/2020
10/14/2020 – 10/16/2020
11/23/2020 – 11/25/2020

This foundational course to Citrix Workspace intelligence ushers students into the new generation of Citrix teaching how intelligent features help organize, guide, and automate the future of work.

Gain an understanding of the fundamentals of web services, APIs, and systems integrations through building microapps designed to boost employee productivity and optimize the end user experience.

This three-day course will cover the fundamentals of Citrix Microapps, web services, security considerations and API troubleshooting to help you successfully deploy microapps in your environment.

CWS-215: Citrix Virtual Apps and Desktops 7 Administration On-Premises and in Citrix Cloud

40 Hours | $5,000

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

If you are new to Citrix or if you are planning a move to Citrix Cloud, this course is a necessary step in enabling you with the right training and skills to manage and deploy Citrix Workspace successfully. This foundational administration course covers the aspects of installing, configuring and managing a Citrix Virtual Apps and Desktops 7 environment, how to manage an on-premises Citrix solution and migrate from an on-premises solution to cloud using the Citrix Cloud management plane.

This five-day course will teach you how to deploy, install, configure, setup profile management, configure policies, printing and basic security features for on-premises Virtual Apps and Desktop solution building, and then migrating to Citrix Cloud.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CWS-313: Citrix Virtual Apps and Desktops 7 Advanced Deployment, Troubleshooting, Security and Administration

24 Hours | $3,000

Schedules

06/22/2020 – 06/24/2020
07/22/2020 – 07/24/2020
08/10/2020 – 08/12/2020
09/21/2020 – 09/23/2020
10/21/2020 – 10/23/2020
12/14/2020 – 12/16/2020

Designed for experienced IT professionals this course builds on the foundational implementation and management skills introducing scalability, redundancy and security configurations.

You will learn techniques to investigate many of the common issues that can affect environment health and how to solve issues more effectively in the advanced troubleshooting section. You will leave this course with a good understanding of how to manage more complex solutions such as multi-location environments with configurations around

StoreFront, the Delivery Controllers, Cloud Connectors and HDX.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CWS-315: Citrix Virtual Apps and Desktops 7 Advanced Administration

40 Hours | $5,000

Schedules

06/15/2020 – 06/19/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/19/2020 – 10/23/2020

Designed to learn how to set up scalability, redundancy and security configurations. You will learn advance features to optimize management of your app and desktop images by building and combining App Layers and Workspace Environment Management, which can improve logon times, centralize user settings management, optimize the performance of machines running the Virtual Delivery Agent (VDA).

In the advanced troubleshooting section, you will learn techniques to investigate many of the common issues that can affect environment health. You?ll leave this course with a good understanding of how to manage more complex solutions such as multizone environments spanning multiple locations with configurations around StoreFront, the Delivery Controllers, and HDX.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CWS-415: Citrix Virtual Apps and Desktops 7 Assessment, Design and Advanced Configuration

40 Hours | $5,000

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/17/2020 – 08/21/2020
10/05/2020 – 10/09/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

This advanced 5-day training course teaches the design principles for creating a Citrix Virtual Apps and Desktops virtualization solution. In this training, you will also learn how to assess existing environments, explore different scenarios, and make design decisions based on business requirements.

This course covers the Citrix Consulting approach to design and covers the key design decisions through lectures, lab exercises, and interactive discussions. You will also learn about additional considerations and advanced configurations for multi-location solutions and disaster recovery planning.

This training will help you prepare for the Citrix Certified Expert in Virtualization (CCE-V) exam.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CXD-252: Moving to the Citrix Virtual Apps and Desktops Service on Citrix Cloud with Microsoft Azure

40 Hours | $5,000

Schedules

06/15/2020 – 06/19/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020

10/05/2020 – 10/09/2020
11/30/2020 – 12/04/2020

Navigate the move from an on-premises environment into Citrix Cloud and learn to deploy resource locations onto Microsoft Azure. Learn the architecture, communications, and management of Citrix Cloud and the Citrix Virtual Apps and Desktops Service and then migrate existing infrastructure and settings into Citrix Cloud.

If you are planning a move to Citrix Cloud or starting out anew, this course is a necessary step in enabling you with the right training and skills to understand, manage, and deliver successfully. Plan machine catalog and virtual machine design based in Microsoft's public cloud and deploy those machines using Machine Creation Services. Learn to configure the access layer as a service within Citrix Cloud, as managed machines in your datacenter, or on the Azure platform.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

Citrix Web App Firewall

CNS-320: Citrix (NetScaler) ADC 12.x Advanced Concepts – Security, Management and Optimization

40 Hours | $5,000

Schedules

07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
11/30/2020 – 12/04/2020

Learn how to configure your Citrix networking environment to address application services security requirements with Citrix Web App Firewall; automate and manage network services for scale-out of application architectures with Citrix Application Delivery Management; and optimize Citrix ADC-managed application delivery traffic.

This five-day course for experienced Citrix networking architects, engineers and administrators will teach you to deploy and manage Web App Firewall to protect web applications against different types of attacks. It will also give you a practical understanding of Citrix Application Delivery Management capabilities for centralized management of multiple Citrix ADC platforms, orchestration of changes, transaction reporting, infrastructure visualization and planning.

Note: *Avail the benefit of the **Citrix Recertification program** to renew a valid certification. You can take this eligible course from NetCom Learning and get the same renewed without having to pass the Citrix Certification exam.*

CompTIA A+

CompTIA A+ (Exam 220-1001 & 220-1002) Combo

80 Hours | $3,998

Schedules

06/01/2020 – 06/12/2020
07/06/2020 – 07/17/2020
08/10/2020 – 08/21/2020
09/14/2020 – 09/25/2020
10/19/2020 – 10/30/2020
12/07/2020 – 12/18/2020

CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. It is the industry standard for launching IT careers into today's digital world.

CompTIA A+ Combo comprised of 2 courses:
1. CompTIA A+ Certification Prep (Exam 220-1001)
2. CompTIA A+ Certification Prep (Exam 220-1002)

This combo course prepares for CompTIA A+ Exams 220-1001 & 220-1002 (Core 1 & Core 2) which leads to CompTIA A+ Certification.

CompTIA A+ Certification Boot Camp

50 Hours | $2,995

Schedules

07/20/2020 – 07/24/2020
09/28/2020 – 10/02/2020
11/16/2020 – 11/20/2020

CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world.

CompTIA A+ is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management & technical support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace.

CompTIA A+ Exam Codes 220-1001 & 220-1002 (Core 1 & Core 2). The new CompTIA A+ Core Series covers expanded content on these growing parts of the IT support role including an expansion of baseline security topics and a different approach in defining competency in operational procedures.

What's Included
- Facilitated Training
- Book
- e-learning
- Practice Test
- Exam Voucher

CompTIA A+ Certification Prep (Exam 220-1001)

40 Hours | $1,999

Schedules

07/06/2020 – 07/10/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
12/07/2020 – 12/11/2020

CompTIA A+ Certification Prep course is designed for the new 220-1001 exam. CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management and technical

support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace.

The Official CompTIA A+ Core 1 (Exam 220-1001) course provides the background knowledge and skills you will require to be a successful A+ technician. It will help you prepare to take the CompTIA A+ Core Series certification examination (exam number 220-1001), in order to become a CompTIA A+ Certified Professional.

Note: This is to declare that it is a DoD approved course.

CompTIA A+ Certification Prep (Exam 220-1002)

40 Hours | $1,999

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
12/14/2020 – 12/18/2020

CompTIA A+ Certification Prep course is designed for the new 220-1002 exam. CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management and technical support roles. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace.

The Official CompTIA A+ Core 2 (Exam 220-1002) course provides the background knowledge and skills you will require to be a successful A+ technician. It will help you prepare to take the CompTIA A+ Core Series certification examination (exam number 220-1002), in order to become a CompTIA A+ Certified Professional.

Note: This is to declare that it is a DoD approved course.

CompTIA Network+ Certification Prep (Exam N10-007)

40 Hours | $1,999

Schedules

06/08/2020 – 06/12/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

The CompTIA Network+ certification course is an internationally recognized validation of the technical knowledge required of foundation-level IT network practitioners.

Gain the knowledge and skills required to troubleshoot, configure, and manage common network devices; establish basic network connectivity; understand and maintain network documentation; identify network limitations and weaknesses; and implement network security, standards, and protocols. The candidate will have a basic understanding of enterprise technologies, including cloud and virtualization technologies.

Note: This is to declare that it is a DoD approved course.

CompTIA Advanced Security Practitioner (CASP+)

CompTIA Advanced Security Practitioner (CASP+) Certification Prep (Exam CAS-003)

40 Hours | $3,295

Schedules

07/20/2020 – 07/24/2020
08/31/2020 – 09/04/2020
10/26/2020 – 10/30/2020
12/14/2020 – 12/18/2020

The CompTIA Advanced Security Practitioner (CASP+) is the course you will need to take if your job responsibilities include securing complex enterprise environments. In this course, you will expand on your knowledge of information security to apply more advanced principles that will keep your organization safe from the many ways it can be threatened. Today's IT climate demands individuals with demonstrable skills, and the information and activities in this course can help you develop the skill set you need to confidently perform your duties as an advanced security professional.

This course can also benefit you if you intend to pass the CompTIA Advanced Security Practitioner (CAS-003) certification examination. CASP+ certification is an international, vendor-neutral exam that proves competency in enterprise security. What you learn and practice in this course can be a significant part of your preparation.

The exam covers the technical knowledge and skills required to conceptualize, design, and engineer secure solutions across complex enterprise environments. It involves applying critical thinking and judgment across a broad spectrum of security disciplines to propose and implement solutions that map to enterprise drivers.
Note: This is to declare that it is a DoD approved course.

CompTIA Cloud Essentials

CompTIA Cloud Essentials+ Certification Prep (Exam CLO-002)

24 Hours | $1,495

Schedules

06/15/2020 – 06/17/2020
08/17/2020 – 08/19/2020
10/14/2020 – 10/16/2020
12/09/2020 – 12/11/2020

CompTIA Cloud Essentials+ certification course measures the knowledge needed to help streamline cloud implementation, create a common language for staff and improve productivity across varying levels of business professionals. Cloud Essentials+ ensures that you and all other necessary staff members-not just the IT specialists-understand the fundamental approach to cloud computing and the work it takes to move and govern the cloud.

CompTIA Cloud+

CompTIA Cloud+ Certification Prep (Exam CV0-002)

40 Hours | $2,495

Schedules

07/13/2020 – 07/17/2020
08/24/2020 – 08/28/2020
10/19/2020 – 10/23/2020
12/07/2020 – 12/11/2020

CompTIA Cloud+ validates the skills you need to maintain and optimize cloud infrastructure services. Cloud+ covers the increased diversity of knowledge, skills and abilities required of system administrators to validate what is necessary to perform effectively in data center jobs.

CompTIA Cloud+ views cloud-based infrastructure services as an increasingly important piece of an organization's IT systems. It is the only vendor-neutral, performance-based certification course covering more than a specific vendor or a single function like security or networking to help you better realize the return on investment of cloud infrastructure services.

CompTIA Cloud+ Exam CV0-002 reflects an emphasis on incorporating and managing cloud technologies as part of broader systems operations. It assumes a candidate will weave together solutions that meet specific business needs and work in a variety of different industries.

The new exam includes the new technologies to support the changing cloud market as many more organizations depend on cloud-based technologies to run mission critical systems, and hybrid and multi-cloud have become the norm.

Note: This is to declare that it is a DoD approved course.

CompTIA CTT+

CompTIA Train the Trainer (CTT+) Certification Prep

40 Hours | $2,995

Schedules

06/08/2020 – 06/12/2020
08/10/2020 – 08/14/2020
10/05/2020 – 10/09/2020
12/07/2020 – 12/11/2020

CompTIA Certified Technical Trainer (CTT+) certification is a cross-industry credential that provides recognition that an instructor has attained a standard of excellence in the training industry. NetCom Learning's CompTIA CTT+ is a highly interactive and participant-driven course designed to cultivate the technical training and concept delivery skills in trainers, technicians, Subject Matter Experts, presenters, sales and support staff in any organization. The participants will connect abilities, theories and situations to create their most effective instructional styles. This course is accepted by Microsoft and ProSoft towards their MCT.

NetCom's CompTIA CTT+ course is the only 5-day class that prepares you for all three CompTIA CTT+ exams. The course not only focuses on the traditional classroom style instruction, but also on delivering training virtually. NetCom has packaged this unique and comprehensive program while considering the co-existence of both classroom and virtual training style, and the growing adoption/popularity of virtual training.

About the Exams:

- CompTIA CTT+ Essentials (TK0-201)
- CompTIA CTT+ Classroom Trainer (TK0-202)
- CompTIA CTT+ Virtual Classroom Trainer (TK0-203)

CompTIA CTT+ is a qualifying certification towards your MCT status validating your instructional skills. Please note that by simply taking the CTT+ course or passing the exams won't grant you a MCT status. You

will need to meet other Microsoft requirements in addition to achieving your CTT+ certification.

NetCom's CTT+ Student Care:

- Maximum of 8 students per class: Hands-On Personalized Training Care
- Exam Preparation Included
- We not only record your videos, but also review your video files prior to submission, and convert the files for you based on CompTIA accepted formats.
- We strongly recommend preparing for all 3 exams even though only 2 exams are required for a CompTIA CTT+ certification designation. Both Classroom and Virtual based are equally important given the industry trends.

CompTIA Cybersecurity Analyst (CySA+)

CompTIA Cybersecurity Analyst (CySA+) Certification Prep (Exam CS0-001)

40 Hours | $2,495

Schedules

06/29/2020 – 07/03/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/30/2020 – 12/04/2020

CompTIA Cybersecurity Analyst (CySA+) is an international, vendor-neutral IT professional certification that applies behavioral analytics to improve the overall state of IT security. It validates the knowledge and skills required to configure and use threat detection tools, perform data analysis and interpret the results to identify vulnerabilities, threats and risks to an organization, with the end goal of securing and protecting applications and systems within an organization.

Note: This is to declare that it is a DoD approved course.

CompTIA IT Fundamentals (ITF+)

CompTIA IT Fundamentals (ITF+) Certification Prep (FC0-U61)

40 Hours | $2,495

Schedules

06/22/2020 – 06/26/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
12/07/2020 – 12/11/2020

The IT Fundamentals+ course is designed to help you acquire the knowledge and skills to set up and use a computer at home securely and keep it in good working order, as well as provide informal support for PCs and simple computer networks to your colleagues in a small business.

CompTIA Linux+

CompTIA Linux+ Certification Prep (Exam XK0-004)

40 Hours | $2,495

Schedules

06/15/2020 – 06/19/2020
07/27/2020 – 07/31/2020
09/14/2020 – 09/18/2020
11/30/2020 – 12/04/2020

CompTIA Linux+ measures the necessary skills of an IT professional with hands-on experience configuring, monitoring, and supporting servers running the Linux operating system. Successful candidates will have the knowledge required to configure, manage, operate, and troubleshoot a Linux environment by using security best practices, scripting, and automation.

CompTIA Network+

CompTIA Network+ Certification Prep (Exam N10-007)

40 Hours | $1,999

Schedules

06/08/2020 – 06/12/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

The CompTIA Network+ certification course is an internationally recognized validation of the technical knowledge required of foundation-level IT network practitioners.

Gain the knowledge and skills required to troubleshoot, configure, and manage common network devices; establish basic network connectivity; understand and maintain network documentation; identify network limitations and weaknesses; and implement network security, standards, and protocols. The candidate will have a basic understanding of enterprise technologies, including cloud and virtualization technologies.

Note: This is to declare that it is a DoD approved course.

CompTIA PenTest+

CompTIA PenTest+ Certification Prep (Exam PT0-001)

40 Hours | $2,495

Schedules

06/08/2020 – 06/12/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/30/2020 – 12/04/2020

CompTIA PenTest+ is a certification for intermediate level cybersecurity professionals who are tasked with penetration testing to identify, exploit, report, and manage vulnerabilities on a network.

PenTest+ assesses the most up-to-date penetration testing, and vulnerability assessment and management skills necessary to determine the resiliency of the network against attacks. Successful candidates will have the intermediate skills and best practices required to customize assessment frameworks to effectively collaborate on and report findings, and communicate recommended strategies to improve the overall state of IT security.

CompTIA PenTest+ joins CompTIA Cybersecurity Analyst (CySA+) at the intermediate-skills level of the cybersecurity career pathway. Depending on your course of study, PenTest+ and CySA+ can be taken in any order but typically follows the skills learned in Security+. While CySA+ focuses on defense through incident detection and response, PenTest+ focuses on offense through penetration testing and vulnerability assessment.

Although the two exams teach opposing skills, they are dependent on one another. The most qualified cybersecurity professionals have both offensive and defensive skills. Earn the PenTest+ certification to grow your career within the CompTIA recommended cybersecurity career pathway.

CompTIA Project+

CompTIA Project+ Certification Prep (Exam PK0-004)

40 Hours | $2,495

Schedules

06/22/2020 – 06/26/2020
08/17/2020 – 08/21/2020
10/05/2020 – 10/09/2020
11/16/2020 – 11/20/2020

In CompTIA Project+ course, students will apply recognized practices of project management and understand a project's life cycle and roles and skills necessary to effectively initiate, plan, execute, monitor and control, and close a project.

CompTIA Security+

CompTIA Security+ Certification Prep (Exam SY0-501)

40 Hours | $1,999

Schedules

06/08/2020 – 06/12/2020
07/27/2020 – 07/31/2020
08/31/2020 – 09/04/2020
10/05/2020 – 10/09/2020
11/16/2020 – 11/20/2020

CompTIA Security+ (Exam SY0-501) is the primary course you will need to take if your job responsibilities include securing network services, devices, and traffic in your organization. You can also take this course to prepare for the CompTIA Security+ certification examination. In this course, you will build on your knowledge of and professional experience with security fundamentals, networks, and organizational security as you acquire the specific skills required to implement basic security services on any type of computer network.

This course can benefit you in two ways. If you intend to pass the CompTIA Security+ (Exam SY0-501) certification examination, this course can be a significant part of your preparation. But certification is not the only key to professional success in the field of computer security. Today's job market demands individuals with demonstrable skills, and the information and activities in this course can help you build your computer security skill set so that you can confidently perform your duties in any security-related role.

Note: This is to declare that it is a DoD approved course.

CompTIA Security+ Certification Prep Boot Camp

40 Hours | $2,815

Schedules

06/22/2020 – 06/25/2020
08/17/2020 – 08/20/2020
10/19/2020 – 10/22/2020
12/07/2020 – 12/10/2020

CompTIA Security+ (Exam SY0-501) is the primary course you will need to take if your job responsibilities include securing network services, devices, and traffic in your organization. You can also take this course to prepare for the CompTIA Security+ certification exam SY0-501. In this course, you will build on your knowledge of and professional experience with security fundamentals, networks, and organizational security as you acquire the specific skills required to implement basic security services on any type of computer network. This course can benefit you in two ways. If you intend to pass the CompTIA Security+ certification exam SY0-501, this course can be a significant part of your preparation. Today's job market demands individuals with demonstrable skills, and the information and activities in this course can help you build your computer security skill set so that you can confidently perform your duties in any security-related role. **Note: This is to declare that it is a DoD approved course.**

CompTIA Server+

CompTIA Server+ Certification Prep (Exam SK0-004)

40 Hours | $2,495

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020
10/05/2020 – 10/09/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

This course builds on existing professional experience with personal computer hardware support to present the next tier of skills & concepts students will use on the job when administering any type of network server.

Crystal Reports

Crystal Reports 2016 Combo

32 Hours | $2,590

Schedules

06/15/2020 – 06/18/2020

This package is a combo of Crystal Report 2016 Level: 1 & 2

Crystal Reports 2016: Level 1

16 Hours | $1,295

Schedules

06/15/2020 – 06/16/2020

Organizations use reporting tools to access data sources and generate customized reports. Crystal Reports 2016 enhances report building and report processing techniques with a variety of features that add value to a presentation. In this course, you will create a basic report by connecting to a database and modifying the report's presentation.

Information is critical to making sound business decisions. Data presented without any formatting or structure holds little or no meaning for interpretation. Crystal Reports 2016 helps you build advanced reports with ease, presenting complex information in an understandable way.

Crystal Reports 2016: Level 2

16 Hours | $1,295

Schedules

06/17/2020 – 06/18/2020

Until now, you have used Crystal Reports to build and modify reports. You want to use the advanced functionality of Crystal Reports to generate reports in the format you desire. In this course, you will create complex reports and data sources using the

tools in Crystal Reports 2016. You will not only create more sophisticated reports including subreports and cross-tabs, but you will also increase the speed and efficiency of your reports by using SQL queries.

Even though you are familiar with Crystal Reports, you may take some time to study its various tools that enable you to generate reports with the desired data using advanced methods such as SQL querying. This way, you won't be slowed down by large databases or databases with which you are unfamiliar. By creating subreports, cross-tabs, and running totals, you will turn raw data into meaningful customized reports that will help your business run more smoothly. If you work with large databases, you may find yourself faced with performance issues. In this course, you will also learn to use tools that can increase the speed with which data is retrieved.

DASA DevOps

DASA Combo

40 Hours | $3,590

Schedules

07/20/2020 – 07/24/2020
09/07/2020 – 09/11/2020
11/09/2020 – 11/13/2020

DASA Combo comprising of Fundamentals & DevOps Product Owner.

DASA DevOps Fundamentals

24 Hours | $2,195

Schedules

06/08/2020 – 06/10/2020
07/20/2020 – 07/22/2020
09/07/2020 – 09/09/2020
11/09/2020 – 11/11/2020

DevOps training is the starting point for an organization going on the DevOps journey. Improved workflows and faster deployment starts with a core understanding of DevOps fundamental concepts by anyone involved in an agile and/or DevOps team.

The 3-day DevOps Fundamentals course provides an extensive introduction to the core Agile DevOps principles covering the essential knowledge and skill competences that have been defined by the DevOps Agile Skills Association (DASA).

This course is designed to provide the core education necessary to build your DevOps vocabulary and to understand its principles and practices. With the help of key DevOps concepts and terminology, real-life case studies, examples and interactive group discussions and extensive exercises in each module you will acquire a fundamental understanding of DevOps.

NetCom is an Accredited Training Affiliate in partnership with ITpreneurs.

DASA DevOps Product Owner

16 Hours | $1,395

Schedules

07/23/2020 – 07/24/2020
09/10/2020 – 09/11/2020
11/12/2020 – 11/13/2020

The DevOps Product Owner has a systematic responsibility for the entire lifecycle of the product and has to ensure maximum value of the product is achieved. The DevOps Product Owner has to deal with a mixed set of requirements, ranging from new product features, as well as incidents on the current version. DevOps Product Owners engage with a large group of stakeholders, both within the team as well as beyond it.

This DASA Qualification extends traditional Agile Product Owner programs and deals with the extended set of requirements that the Product Owner faces when teams start to take on both Dev and Ops responsibilities. The program covers the traditional Agile and Scrum concepts and capabilities but in the context of DevOps. As a result, this program is ideal for experienced Agile Product Owners who are keen to understand how their role is evolving as a result of DevOps, but exciting as well for new and aspiring Product Owners.

Data Analysis

10994: Data Analysis Fundamentals Using Excel

16 Hours | $1,175

Schedules

07/06/2020 – 07/07/2020
09/07/2020 – 09/08/2020
11/09/2020 – 11/10/2020
01/04/2021 – 01/05/2021

This 2-day instructor-led course provides users with an introduction to the fundamentals of data analysis using Excel.

This course is based on the objectives of the course version 10994B.

Note: e-learning module (Microsoft On Demand, MOD) is also available for this course.

DevOps

DASA DevOps Fundamentals

24 Hours | $2,195

Schedules

06/08/2020 – 06/10/2020
07/20/2020 – 07/22/2020
09/07/2020 – 09/09/2020
11/09/2020 – 11/11/2020

DevOps training is the starting point for an organization going on the DevOps journey. Improved workflows and faster deployment starts with a core understanding of DevOps fundamental concepts by anyone involved in an agile and/or DevOps team.

The 3-day DevOps Fundamentals course provides an extensive introduction to the core Agile DevOps principles covering the essential knowledge and skill competences that have been defined by the DevOps Agile Skills Association (DASA).

This course is designed to provide the core education necessary to build your DevOps vocabulary and to understand its principles and practices. With the help of key DevOps concepts and terminology, real-life case studies, examples and interactive group discussions and extensive exercises in each module you will acquire a fundamental understanding of DevOps.

Google AdWords & Google Analytics

Google Analytics & AdWords Combo

40 Hours | $2,490

Schedules

06/15/2020 – 06/19/2020

This combo is comprises of the following courses (1) Introduction to Google Analytics (2) Introduction to Google Adwords.

Introduction to Google AdWords

24 Hours | $1,495

Schedules

06/17/2020 – 06/19/2020

Google AdWords is a web-based advertising tool that allows individuals and organizations to advertise on the Internet. Google AdWords is the most popular web advertising tool and operates on the largest connected set of networks, Google's networks.

Google AdWords is simple to start using, but is difficult to master. AdWords campaigns have many components that must work together well to create an effective ad campaign. Managing an AdWords campaign involves constant monitoring, analysis, and refinement to improve campaign performance.

In this course, you will create a Google AdWords account and an AdWords campaign. You will create both text and image ads, and target campaigns to specific audience segments by using advanced AdWords features. You will refine and optimize all aspects of your AdWords campaigns from ads, to keywords, to bidding, to budgets. You will also use advanced tools to manage AdWords accounts and data.

Introduction to Google Analytics

16 Hours | $995

Schedules

06/15/2020 – 06/16/2020

Google Analytics is a robust analytics suite that is integrated with Google's data and other application service offerings such as AdWords and AdSense.

Google Analytics is free to use and easy to set up. It allows your organization to track user actions on your web properties and use Google Analytics' rich reporting and analysis tools to analyze data, measure discrete interactions on your site, and qualify the success of your web initiatives. With Google Analytics, you can define success metrics for your website and measure that performance through data analysis. Google Analytics also lets you monitor your site in real-time, and provide alerts when events occur that are out of the norm.

Although it is easy to start using Google Analytics, its robust and complex suite of tools will take time to master. In this course, you will create a Google Analytics account, create multiple web properties to monitor, and tag website pages with Google Analytics tracking code. You will then create multiple views for collecting and analyzing data, and create filters, goals, and funnels for your views. You will then use Google Analytics real-time reports and dashboards to perform quick analysis of your monitored websites. Finally, you will perform more in-depth analysis of website data by using Google Analytics reports.

ITIL 4

ITIL 4 Foundation with Certification Exam

24 Hours | $1,399

Schedules

06/15/2020 – 06/17/2020
07/06/2020 – 07/08/2020
08/03/2020 – 08/05/2020
09/09/2020 – 09/11/2020
10/05/2020 – 10/07/2020
11/02/2020 – 11/04/2020
12/01/2020 – 12/03/2020

ITIL 4 is built on the established core of best practice in the ITIL guidance. ITIL® 4 provides a practical and flexible approach to move to the new world of digital transformation and embrace an end-to-end operating model for the delivery and operation of products and services. ITIL 4 also provides a holistic end-to-end picture that integrates frameworks such as Lean IT, Agile, and DevOps.

The fundamental objective of this course is to help the participants understand the key concepts of service management and the ITIL 4 service management framework and prepare for the ITIL 4 Foundation exam.

Learning Modalities

- Instructor-led Classroom Training
- Online Training
- Corporate Training
- Onsite Training
- One-on-One Training

Course Preparation

- You will receive a course study book including case studies and sample exam questions
- You should acquire and read the ITIL 4 Foundation core publication, which you should read as part of personal study
- Review your ITIL Foundation course materials

What's Included
- Facilitated Training
- Books
- Exam Voucher

Exam Name
- ITIL 4 Foundation Certificate Exam

Certification
- ITIL Foundation Certificate

Exam Information
The ITIL Foundation exam can be taken in any of the following three ways:
- On the last day of the course, in-class exam
- In the comfort of your home and at any time, after the course completion via PeopleCert (online)
- At your convenience, at an eligible testing center

Exam Format
- Multiple choice examination questions
- Number of Questions: 40
- Pass Score: 26/40 or 65%
- Exam Duration: 60 minutes
- Open/Closed Book: Closed Book

Credits
- Upon successfully achieving the ITIL Foundation certificate, the participants earn two credits toward their ITIL Expert certification

ITIL 4 Managing Professional (MP) Transition with Certification Exam

40 Hours | $1,899

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

The ITIL 4 Managing Professional Transition course is a bridge course that enables the ITIL v3 professionals to easily transition across to ITIL 4 certification scheme. This course is designed to enable ITIL Experts or professionals with 17 credits to gain the designation of ITIL 4 Managing Professional through one course and one exam. The purpose of the ITIL 4 Managing Professional Transition course is to provide students with an understanding of the:

- Core concepts and definitions of ITIL 4 Foundation, including the key differences between the previous iteration of ITIL and ITIL 4 and how they can be practically applied.

- Key elements from each one of the four ITIL Managing Professional (MP) modules: Create, Deliver and Support, Drive Stakeholder Value, High Velocity IT and Direct, Plan and Improve.

Learning Modalitie
- Instructor-led Classroom Training
- Online Training
- Corporate Training
- Onsite Training
- One-on-One Training

Course Preparation
- You will receive a course study book including case studies and sample exam questions
- You should acquire and read the ITIL Managing Professional Transition core publication, which you should read as part of personal study
- Review your ITIL Managing Professional Transition course materials

What's Included
- Facilitated Training
- Books
- Exam Voucher

Exam Name - ITIL Managing Professional Transition Certificate Exam

Certification - ITIL Managing Professional Transition Certificate

Exam Information
The ITIL Foundation exam can be taken in any of the following three ways:
- On the last day of the course, in-class exam
- In the comfort of your home and at any time, after the course completion via PeopleCert (online)
- At your convenience, at an eligible testing center

Exam Format
- Multiple choice examination questions
- Number of Questions: 40
- Pass Score: 26/40 or 65%
- Exam Duration: 60 minutes
- Open/Closed Book: Closed Book

Credits
- Upon successfully achieving the ITIL Foundation certificate, the participants earn two credits toward their ITIL Expert certification

ITIL 4 Specialist: Create, Deliver and Support (CDS) with Certification Exam

24 Hours | $1,995

Schedules

06/08/2020 – 06/10/2020
07/06/2020 – 07/08/2020
08/03/2020 – 08/05/2020
09/08/2020 – 09/10/2020
10/14/2020 – 10/16/2020
11/16/2020 – 11/18/2020
12/07/2020 – 12/09/2020

The ITIL 4 Specialist: Create, Deliver and Support module is part of the Managing Professional stream for ITIL 4 and participants need to pass the related certification exam for working towards the Managing Professional (MP) designation.

The ITIL 4 Specialist: Create, Deliver and Support module focuses on the integration of different value streams and activities to create, deliver and support IT-enabled products and services whilst also covering supporting practices, methods, and tools.

ITIL 4 Specialist: Drive Stakeholder Value (DSV) with Certification Exam

24 Hours | $1,995

Schedules

06/08/2020 – 06/10/2020

ITIL 4 provides practical and flexible guidance to support organizations on their journey to digital transformation. It provides an end-to-end IT/digital operating model for the delivery and operation of tech-enabled products and services and enables IT teams to continue to play a crucial role in wider business strategy.

ITIL provides a framework for quality IT service management (ITSM) through proven best practice. ITIL manages the creation of a service, its operation and its improvement. Organizations who adopt ITIL invariably adapt it to suit their specific requirements.

ITIL4 Specialist Drive Stakeholder Value is aimed at practitioners responsible for managing and integrating stakeholders, those that focus on customer journey and experience, and those that are responsible for fostering relationships with partners and suppliers.

This course covers key topics such as SLA design, multi-supplier management, communication, relationship management, CX and UX design, customer journey mapping, and more. It will provide candidates with the tools to increase stakeholder satisfaction which is integral to business success in the current competitive landscape.

ITIL 4 Strategist: Direct, Plan and Improve (DPI) with Certification Exam

24 Hours | $1,995

Schedules

07/07/2020 – 07/09/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020

10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/21/2020 – 12/23/2020

The ITIL 4 Strategist: Direct, Plan, and Improve course provides the practical skills necessary to create a "learning and improving" IT organization, with a strong and effective strategic direction.

This course is designed to provide practitioners with a practical and strategic method for planning and delivering continual improvement with necessary agility. It is aimed at managers of all levels involved in shaping direction and strategy or developing a continually improving team. It will cover both practical and strategic elements. Therefore, it is the universal module, that will be a key component of both, ITIL 4 Managing Professional and ITIL 4 Strategic Leader streams.

ITIL Intermediate

ITIL-SO: Intermediate LifeCycle: ITIL Service Operation with Certification Exam

24 Hours | $2,695

Schedules

06/08/2020 – 06/10/2020

In this course, you will be immersed in the overall concepts, processes, policies, and methods associated with the service operation phase of the service lifecycle. You will focus on service operation purpose, principles, processes, activities, functions, enabling technology, and implementation considerations. This course utilizes lecture, exercises, and scenario-based exam questions to increase your understanding of the core disciplines of ITIL best practices and position you to successfully complete the associated exam.

The main process focus areas of this course include:

- Event management

- Incident management

- Problem management

- Request fulfillment

- Access management

The organizational functions focused on in this course include:

- Service desk

- Technical management

- IT operations management

- Application management

What's Included

- Facilitated Training

- Books

- Exam Voucher

Course Preparation

- You will receive a course study book including case studies and sample exam questions

- You should acquire and read the ITIL Service Design core publication, which you should read as part of personal study

- Review your ITIL Foundation course materials

Exam Name

ITIL Intermediate Qualification: Service Operation (SO) Certificate Exam

Certification

ITIL Intermediate Qualification: Service Operation (SO) Certificate

Exam Information

The ITIL Service Operation (SO) exam can be taken in any of the following three ways:

- On the last day of the course, in-class exam

- In the comfort of your home and at any time, after the course completion via PeopleCert (online)

- At your convenience, at an eligible testing center

Note: The ITIL Foundation certification is required to take the exam at the end of class. Proof of certification must be provided no later than the first day of class.

Exam Format

- Multiple choice examination questions

- Number of Questions: 8

- Pass Score: 28/40 or 70%

- Exam Duration: 90 minutes

- Open/Closed Book: Closed Book

Credits

- Upon successfully achieving the ITIL Service Operation certificate, the participants earn three credits toward their ITIL Expert certification

Java and Middleware

Java Programming Combo

80 Hours | $4,990

Schedules

07/20/2020 – 07/31/2020
08/31/2020 – 09/18/2020
10/05/2020 – 10/23/2020
11/30/2020 – 12/11/2020

This Java Combo course is based on Java SE 8 and one of the best choice for the professionals who want to be certified in Java.

By enrolling in this course, you'll expand your knowledge of Java SE 8 and develop skills with the Java language. This Java SE 8 training introduces you to object-oriented programming fundamentals, core language features, and advanced concepts using the Java language. Through hands-on exercises, you'll build a strong baseline of knowledge to prepare for the Oracle Certified Associate and Professional exams, and propel your career in development.

Juniper Networks

Advanced Junos Security (AJSEC)

40 Hours | $4,795

Schedules

06/15/2020 – 06/19/2020

In this course, you will learn how to configure and monitor the advanced Junos OS security features with advanced coverage of virtualization, AppSecure, advanced Network Address Translation (NAT) deployments, Layer 2 security, and Sky ATP. This course uses Juniper Networks SRX Series Services Gateways for the hands-on component and is based on Junos OS Release 15.1X49-D70.3 and Junos Space Security Director 16.1.

Juniper Routing & Switching Track

Advanced Junos Service Provider Routing – AJSPR (Professional)

40 Hours | $4,750

Schedules

06/01/2020 – 06/05/2020

This five-day course is designed to provide students with detailed coverage of OSPF, IS-IS, BGP, and routing policy. Through demonstrations and hands-on labs, students will gain experience in configuring, monitoring, and troubleshooting the Junos operating system and in monitoring device and protocol operations.

This course uses Juniper Networks vMX Series Routers for the hands-on component, but the lab environment does not preclude the course from being applicable to other Juniper hardware platforms running the Junos OS. This course is based on the Junos OS Release 17.1.

Introduction to the Junos Operating System (IJOS)

24 Hours | $2,395

Schedules

06/01/2020 – 06/03/2020

This three-day course provides students with the foundational knowledge required to work with the Juniper Networks Junos operating system and to configure Junos devices. The course provides a brief overview of the Junos device families and discusses the key architectural components of the software. Key topics include user interface options with a heavy focus on the command-line interface (CLI), configuration tasks typically associated with the initial setup of devices, interface configuration basics with configuration examples, secondary system configuration, and the basics of operational monitoring and maintenance of Junos devices.

The course then delves into foundational routing knowledge and configuration examples including general routing concepts, routing policy, and firewall filters.

This course is based on Junos OS Release 19.2R1.8.

Junos Class Of Service – JCOS (Professional)

16 Hours | $1,900

Schedules

06/29/2020 – 06/30/2020

This two-day course provides aspirants with advanced class-of-service (CoS) knowledge and configuration examples. The course begins with an overview of CoS before going into classification, policing, scheduling, and rewriting. The course then covers class-based forwarding and finishes with a case study. This course is based on the Junos operating system Release 12.3R3.4.

Junos Intermediate Routing (JIR)

16 Hours | $1,595

Schedules

06/08/2020 – 06/09/2020
07/20/2020 – 07/21/2020

This two-day course provides students with intermediate routing knowledge and configuration examples. The course includes an overview of protocol-independent routing features, load balancing and filter-based forwarding, OSPF, BGP, IP tunneling, and high availability (HA) features. Through demonstrations and hands-on labs, students will gain experience in configuring and

monitoring the Junos OS and monitoring device operations.

This course is based on Junos OS Release 18.2R1.9.

Junos Layer 2 VPNs (JL2V)

16 Hours | $1,900

Schedules

06/01/2020 – 06/02/2020
07/13/2020 – 07/14/2020
08/24/2020 – 08/25/2020

This two-day course is designed to provide students with MPLS-based Layer 2 virtual private network (VPN) knowledge and configuration examples. The course includes an overview of MPLS Layer 2 VPN concepts, such as BGP Layer 2 VPNs, LDP Layer 2 circuits, FEC 129 BGP autodiscovery, virtual private LAN service (VPLS), Ethernet VPN (EVPN), and Inter-AS Layer 2 VPNs. This course also covers Junos operating system-specific implementations of Layer 2 VPN instances, VPLS, and EVPNs. This course is based on the Junos OS Release 15.1R2.9. Through demonstrations and hands-on labs, students will gain experience in configuring and monitoring the Junos OS and in device operations.

Junos Layer 3 VPNs (JL3V)

24 Hours | $2,850

Schedules

06/03/2020 – 06/05/2020
07/15/2020 – 07/17/2020
08/26/2020 – 08/28/2020

This three-day course is designed to provide students with MPLS-based Layer 3 virtual private network (VPN) knowledge and configuration examples. The course includes an overview of MPLS Layer 3 VPN concepts, scaling Layer 3 VPNs, Internet access, Interprovider Layer 3 VPNs, and Multicast for Layer 3 VPNs. This course also covers Junos operating system-specific implementations of Layer 3 VPNs. These concepts are put into practice with a series of in depth hands-on labs, which will allow participants to gain experience in configuring and monitoring Layer 3 VPNs on Junos OS devices. These hands-on labs utilize Juniper Networks vMX Series devices using the Junos OS Release 16.1R3.10, but are also applicable to other MX Series devices.

Microsoft .NET Framework / Visual Studio

10267: Introduction to Web Development with Microsoft Visual Studio 2010

40 Hours | $2,975

Schedules

06/22/2020 – 06/26/2020
09/14/2020 – 09/18/2020
12/07/2020 – 12/11/2020

This five-day instructor-led course provides knowledge and skills on developing Web applications by using Microsoft Visual Studio 2010. This course is intended for Web developers who are beginners and have knowledge of Hypertext Markup Language (HTML) or Dynamic HTML (DHTML), along with some knowledge of a scripting language such as Visual Basic Scripting Edition or Microsoft JScript.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20486: Developing ASP.NET Core MVC Web Applications (Visual Studio 2017)

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020

In this 5-day course, the professional web developers will learn to develop advanced ASP.NET Core MVC applications using .NET Core tools and technologies. The focus will be on coding activities that enhance the performance and scalability of the Web site application.

This course will also prepare the students for exam 70-486.

This course is based on the objectives of the course version 20486D.

Microsoft 365 (M365)

MD-100T00: Windows 10 (Modern Desktop)

40 Hours | $1,999

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/02/2020 – 11/06/2020
12/07/2020 – 12/11/2020

MD-100T00: Windows 10 course comprise of topics such as Installing, Deploying, Configuring, Protecting, Supporting and Maintaining Windows 10.

In this course, students will learn how to support and configure Windows 10 desktops in an organizational environment. Students will develop skills that include learning how to install, customize, and update Windows 10 operating systems. Students will learn how to managing storage, files, and devices as well as how to configure network connectivity for Windows 10. Students will also learn how to secure the Windows 10 OS and protect the data on the device. Finally, students will learn how to manage and troubleshoot Windows 10.

This course is based on the objectives of MD-100T00-A

MD-101T00: Managing Modern Desktops (Modern Desktop)

40 Hours | $1,999

Schedules

06/15/2020 – 06/19/2020
07/20/2020 – 07/24/2020
08/24/2020 – 08/28/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

MD-101T00: Managing Modern Desktops course comprise topics such as Deploying, Managing, Protecting Modern Desktops and Devices.

In this course, students will learn how to plan and implement an operating system deployment strategy using modern deployment methods, as well as how to implement an update strategy. Students will be introduced to key components of modern management and co-management strategies. This course also covers what it takes to incorporate Microsoft Intune into your organization. Students will also learn about methods for deployment and management of apps and browser-based applications.

Students will be introduced to the key concepts of security in modern management including authentication, identities, access, and compliance policies. Students will be introduced to technologies such Azure Active Directory, Azure Information Protection and Windows Defender Advanced Threat Protection, as well as how to leverage them to protect devices and data.

This course is based on the objectives of MD-101T00-A.

MS-100T00: Microsoft 365 Identity and Services (Enterprise Administrator)

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/30/2020 – 12/04/2020

This course covers three central elements of Microsoft 365 enterprise administration – Microsoft 365 tenant and service management, Office 365 management, and Microsoft 365 identity management. In Microsoft 365 tenant and service management, you will examine all the key components that must be planned for when designing your Microsoft 365 tenant. Once this planning phase is complete, you will learn how to configure your Microsoft 365 tenant, including your organizational profile, tenant subscription options, component services, user accounts and licenses, and security groups. Finally, you will learn how to manage your tenant, which includes the configuration of tenant roles and managing your tenant health and services. With your Microsoft 365 tenant now firmly in place, you will examine the key components of Office 365 management.

This begins with an overview of Office 365 product functionality, including Exchange Online, SharePoint Online, Microsoft Teams, additional product resources, and device management. You will then transition to configuring Office 365, with a primary focus on configuring Office client connectivity to Office 365. Finally, you will examine how to manage Office 365 ProPlus deployments, from user-driven client installations to centralized Office 365 ProPlus deployments. You will wrap up this section by learning how to configure Office Telemetry and Microsoft Analytics.

The course concludes with an in-depth examination of Microsoft 365 identity synchronization, with a focus on Azure Active Directory Connect. You will learn how to plan for and implement Azure AD Connect, how to manage synchronized identities, and how to implement password management in Microsoft 365 using multi-factor authentication and self-service password management. This section wraps up with a comprehensive look at implementing application and external access. You will learn how to add and manage applications in Azure Active Directory, including how to configure multi-tenant applications. You will then examine how to configure Azure AD Application Proxy, including how to install and register a connector and how to publish an on-premises app for remote access.

Finally, you will examine how to design and manage solutions for external access. This includes licensing guidance for Azure AD B2B collaboration, creating a collaborative user, and troubleshooting a B2B collaboration.

This course is based on the objectives of MS-100T00-A.

MS-101T00: Microsoft 365 Mobility and Security (Enterprise Administrator)

40 Hours | $2,995

Schedules

07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
12/07/2020 – 12/11/2020

This course covers three central elements of Microsoft 365 enterprise administration – Microsoft 365 security management, Microsoft 365 compliance management, and Microsoft 365 device management. In Microsoft 365 security management, you will examine all the common types of threat vectors and data breaches facing organizations today, and you will learn how Microsoft 365's security solutions address these security threats. You will be introduced to the Microsoft Secure Score, as well as to Azure Active Directory Identity Protection. You will then learn how to manage the Microsoft 365 security services, including Exchange Online Protection, Advanced Threat Protection, Safe Attachments, and Safe Links. Finally, you will be introduced to the various reports that monitor your security health. You will then transition from security services to threat intelligence; specifically, using the Security

Dashboard and Advanced Threat Analytics to stay ahead of potential security breaches.

With your Microsoft 365 security components now firmly in place, you will examine the key components of Microsoft 365 compliance management. This begins with an overview of all key aspects of data governance, including data archiving and retention, Information Rights Management, Secure Multipurpose Internet Mail Extension (S/MIME), Office 365 message encryption, and data loss prevention (DLP). You will then delve deeper into archiving and retention, paying particular attention to in-place records management in SharePoint, archiving and retention in Exchange, and Retention policies in the Security and Compliance Center. Now that you understand the key aspects of data governance, you will examine how to implement them, including the building of ethical walls in Exchange Online, creating DLP policies from built-in templates, creating custom DLP policies, creating DLP policies to protect documents, and creating policy tips. You will then focus on managing data governance in Microsoft 365, including managing retention in email, troubleshooting retention policies and policy tips that fail, as well as troubleshooting sensitive data. You will then learn how to implement Azure Information Protection and Windows Information Protection.

You will conclude this section by learning how to manage search and investigation, including searching for content in the Security and Compliance Center, auditing log investigations, and managing advanced eDiscovery. The course concludes with an in-depth examination of Microsoft 365 device management. You will begin by planning for various aspects of device management, including preparing your Windows 10 devices for co-management. You will learn how to transition from Configuration Manager to Intune, and you will be introduced to the Microsoft Store for Business and Mobile Application Management. At this point, you will transition from planning to implementing device management; specifically, your Windows 10 deployment strategy. This includes learning how to implement Windows Autopilot, Windows Analytics, and Mobile Device Management (MDM). When examining MDM, you will learn how to deploy it, how to enroll devices to MDM, and how to manage device compliance.

This course is based on the objectives of MS-101T00-A.

MS-200: Planning and Configuring a Messaging Platform Associate (Messaging Administrator)

40 Hours | $2,995

Schedules

06/15/2020 – 06/19/2020

This course provides students with the key knowledge to help prepare for Exam MS-200: Planning and Configuring a Messaging Platform. Passing this exam is required to earn Microsoft 365 Certified Messaging Administrator Associate certification.

Three-MOC courses aligned to Exam MS-200: Planning and Configuring a Messaging Platform are as follows:

MS-200T01: Understanding the Modern Messaging Infrastructure

MS-200T02: Managing Client Access and Mail Flow

MS-200T03: Managing Messaging High Availability and Disaster Recovery

MS-201: Implementing a Hybrid and Secure Messaging Platform Associate (Messaging Administrator)

32 Hours | $2,395

Schedules

06/22/2020 – 06/25/2020

This course provides students with the key knowledge to help prepare for Exam MS-201: Implementing a Hybrid and Secure Messaging Platform. Passing this exam is required to earn Microsoft 365 Certified Messaging Administrator Associate certification.

Two-MOC courses aligned to Exam MS-201: Implementing a Hybrid and Secure Messaging Platform are as follows:

MS-201T01: Defining a Messaging Hybrid Strategy

MS-201T02: Managing Messaging Security, Hygiene and Compliance

MS-300: Deploying Microsoft 365 Teamwork Associate (Teamwork Administrator)

40 Hours | $1,999

Schedules

06/15/2020 – 06/19/2020

This course provides students with the key knowledge to help prepare for Exam MS-300: Deploying Microsoft 365 Teamwork. Passing this exam is required to earn Microsoft 365 Certified Teamwork Administrator Associate certification.

Four-MOC courses aligned to Exam MS-300: Deploying Microsoft 365 Teamwork are as follows:

MS-300T01: Managing Office 365 Content Services

MS-300T02: Managing SharePoint Online

MS-300T03: Enabling Microsoft Teams for Collaboration

MS-300T04: Enabling Office 365 Workloads for Collaboration

MS-301: Deploying SharePoint Server Hybrid Associate (Teamwork Administrator)

40 Hours | $1,999

Schedules

07/13/2020 – 07/17/2020

This course provides students with the key knowledge to help prepare for Exam MS-301: Deploying SharePoint Server Hybrid. Passing this exam is required to earn Microsoft 365 Certified Teamwork Administrator Associate certification.

Four-MOC courses aligned to Exam MS-301: Deploying SharePoint Server Hybrid are as follows:

MS-301T01: Implementing SharePoint 2019 Infrastructure

MS-301T02: Implementing SharePoint 2019 Service Applications

MS-301T03: Implementing SharePoint Hybrid Scenarios

MS-301T04: Migrating to SharePoint Online

MS-500T00: Microsoft 365 (M365) Security Administration

32 Hours | $2,395

Schedules

07/06/2020 – 07/09/2020

08/03/2020 – 08/06/2020

09/08/2020 – 09/11/2020
10/05/2020 – 10/08/2020
11/02/2020 – 11/05/2020
12/01/2020 – 12/04/2020

In MS-500T00: Microsoft 365 (M365) Security Administration course you will learn how to secure user access to your organization's resources. The course covers user password protection, multi-factor authentication, how to enable Azure Identity Protection, how to setup and use Azure AD Connect, and introduces you to conditional access in Microsoft 365. You will learn about threat protection technologies that help protect your Microsoft 365 environment. Specifically, you will learn about threat vectors and Microsoft's security solutions to mitigate threats. You will learn about Secure Score, Exchange Online protection, Azure Advanced Threat Protection, Windows Defender Advanced Threat Protection, and threat management.

In the course you will learn about information protection technologies that help secure your Microsoft 365 environment. The course discusses information rights managed content, message encryption, as well as labels, policies and rules that support data loss prevention and information protection. Lastly, you will learn about archiving and retention in Microsoft 365 as well as data governance and how to conduct content searches and investigations. This course covers data retention policies and tags, in-place records management for SharePoint, email retention, and how to conduct content searches that support eDiscovery investigations.

This course is based on the objectives of the course version MS-500T00-A.

MS-600T00: Building Applications and Solutions with Microsoft 365 Core Services Associate (Developer)

40 Hours | $2,995

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
10/26/2020 – 10/30/2020
11/23/2020 – 11/27/2020

This course covers five central elements of Microsoft 365 platform:

- Implementing Microsoft Identity

- Working with Microsoft Graph,

- Extending and Customizing SharePoint

- Extending Teams

- Extending Office

In this course, students will learn how to implement Microsoft Identity and work with Microsoft Graph. Students will also gain the knowledge on UI elements (including Adaptive Cards and UI Fabric), Integration Points (including Microsoft Teams, Office Add-ins, SharePoint Framework, Actionable Messages), and determining workload platform targets.

In implementing Microsoft Identity, students will learn to implement Microsoft identity including registering an application, implanting authentication, configuring permissions to consume an API, and creating a service to access Microsoft Graph. In working with Microsoft Graph, students will learn how to access user data, explore query parameters, manage a group lifecycle, access files, and optimize network traffic using Microsoft Graph. In extending and customizing SharePoint, students will learn about SharePoint Framework web parts, extensions,

and how to package and deploy a SPFx solution. In extending Teams, students will look at the components of a Teams App, work with webhooks, tabs, and conversational bots. In extending Office, students work with Office Add-ins, task pane add-ins, JavaScript APIs, Office UI Fabric, and actionable messages with adaptive cards.

This course is based on the course objectives of MS-600T00-A.

MS-700T00: Managing Microsoft Teams (Teams Administrator)

40 Hours | $2,975

Schedules

07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

The Managing Microsoft Teams course is designed for persons who are aspiring to the Microsoft 365 Teams Admin role. Microsoft Teams admins configure, deploy, and manage Office 365 workloads for Microsoft Teams that focus on efficient and effective collaboration and communication in an enterprise environment. This course covers six central elements – Microsoft Teams overview, implementing governance, security and compliance for Microsoft Teams, preparing the environment for a Microsoft Teams.

This course is based on the course objectives of MS-700T00-A.

MS-900T01: Microsoft 365 (M365) Fundamentals

8 Hours | $299

Schedules

06/01/2020 – 06/01/2020
07/06/2020 – 07/06/2020
08/03/2020 – 08/03/2020
09/07/2020 – 09/07/2020
10/02/2020 – 10/02/2020
11/02/2020 – 11/02/2020
12/07/2020 – 12/07/2020

This course provides foundational knowledge on the considerations and benefits of adopting cloud services and the Software as a Service (SaaS) cloud model, with a specific focus on Microsoft 365 cloud service offerings. You will begin by learning about cloud fundamentals, including an overview of cloud computing and specifically Microsoft cloud services.

In this course, you will be introduced to Microsoft Azure, and you will examine the differences between Microsoft 365 and Office 365. You will then perform an in-depth review of Microsoft 365, including a comparison of Microsoft on-premises services versus Microsoft 365 cloud services, a review of enterprise mobility in Microsoft 365, and an analysis of how Microsoft 365 services provide collaboration. The course then analyzes how security, compliance, privacy, and trust are handled in Microsoft 365, and it concludes with a review of Microsoft 365 subscriptions, licenses, billing, and support.

This course is based on the course objectives of MS-900T01-A.

Microsoft Access

Access (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/08/2020 – 06/10/2020
07/06/2020 – 07/08/2020
08/05/2020 – 08/07/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/18/2020 – 11/20/2020
12/14/2020 – 12/16/2020

This course is suited for those using Microsoft Access (2019/2016/2013). This course will be taught using Microsoft Access. Data is everywhere. Whether you are at the grocery store, office, laboratory, classroom, or ballpark, you are awash in data: prices, schedules, performance measures, lab results, recipes, contact information, quality metrics, market indices, grades, and statistics.

Your training and experience using Microsoft Access (2019/2016/2013) has given you basic database management skills, such as creating tables, designing forms and reports, and building queries. In this course, you will expand your knowledge of relational database design, write advanced queries, structure existing data, validate data entered into a database, and customize reports. Extending your knowledge of Microsoft Access will result in a robust, functional database for your users.

Access Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/08/2020 – 06/08/2020
07/06/2020 – 07/06/2020
08/05/2020 – 08/05/2020
09/14/2020 – 09/14/2020
10/19/2020 – 10/19/2020
11/18/2020 – 11/18/2020
12/14/2020 – 12/14/2020

This course is suited for those using Microsoft Access Level 1 (2019/2016/2013). This course will be taught using Microsoft Outlook. Data is everywhere. Whether you are at the grocery store, office, laboratory, classroom, or ballpark, you are awash in data: prices, schedules, performance measures, lab results, recipes, contact information, quality metrics, market indices, grades, and statistics.

Most job roles today involve some form of data management. In the case of data workers, it may be their primary job task. For some, such as research scientists and accountants, data management may be a strong component of the job. And for others, such as sales clerks or those in the skilled trades, data management may consist of an incidental job responsibility, for example, time reporting or recording a sale. Virtually everyone is affected in some way by the need to manage data.

A relational database application such as Microsoft Office Access (2019/2016/2013) can help you and your organization collect and manage large amounts of data. Access is a versatile tool. You can use it as a personal data management tool (for your use alone), or you can use it as a construction set to develop applications for an entire department or organization. In this course, you will use Access to manage your data, including creating a new database; constructing tables; designing forms and reports; and creating queries to join, filter, and sort data.

Access Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/09/2020 – 06/09/2020
07/07/2020 – 07/07/2020
08/06/2020 – 08/06/2020
09/15/2020 – 09/15/2020

10/20/2020 – 10/20/2020
11/19/2020 – 11/19/2020
12/15/2020 – 12/15/2020

This course is suited for those using Microsoft Access Level 2 (2019/2016/2013). This course will be taught using Microsoft Access.Your training and experience using Microsoft Access (2019/2016/2013) has given you basic database management skills, such as creating tables, designing forms and reports, and building queries. In this course, you will expand your knowledge of relational database design, write advanced queries, structure existing data, validate data entered into a database, and customize reports. Extending your knowledge of Microsoft Access (2019/2016/2013) will result in a robust, functional database for your users.

Access Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/10/2020 – 06/10/2020
07/08/2020 – 07/08/2020
08/07/2020 – 08/07/2020
09/16/2020 – 09/16/2020
10/21/2020 – 10/21/2020
11/20/2020 – 11/20/2020
12/16/2020 – 12/16/2020

This course is suited for those using Microsoft Access Level 3 (2019/2016/2013). This course will be taught using Microsoft Access. You have covered many of the basic functions of Microsoft Office Access (2016/2013/2010), and now you are ready to learn advanced Access features such as database management, advanced form design, packaging a database, encrypting a database, preparing a database for multi-user access, and more. Knowledge of these features separate database professionals from the casual database users or occasional designers. Today training, added to that which you've gained from the Microsoft Office Access (2019/2016/2013): Level 1 & 2 courses, rounds out your Access education and provides you with marketable job skills.

Microsoft Azure

20777: Implementing Microsoft Azure Cosmos DB Solutions

24 Hours | $1,795

Schedules

08/31/2020 – 09/02/2020
11/16/2020 – 11/18/2020
12/16/2020 – 12/18/2020

20777: Implementing Microsoft Azure Cosmos DB Solutions course is aimed at database professionals who are looking to implement a Cosmos DB solution.

This course is based on the objectives of the course version 20777A.

40517: Microsoft Cloud Workshop: Migrate EDW to Azure SQL Data Warehouse

8 Hours | $995

Schedules

08/24/2020 – 08/24/2020
10/13/2020 – 10/13/2020
12/14/2020 – 12/14/2020

Migrate a retail chain to from an existing data warehouse from an on-premises SQL Server into Azure SQL Data Warehouse. Prepare a detailed migration plan including data preparation, importing data into Azure SQL Data Warehouse, and architecting a data orchestration strategy to move data from the existing on-premises source systems to Azure SQL Data Warehouse.

This course is based on the objectives of the course version 40517G.

40562: Microsoft Cloud Workshop: Migrating SQL Databases to Azure

8 Hours | $995

Schedules

08/10/2020 – 08/10/2020
10/13/2020 – 10/13/2020
12/14/2020 – 12/14/2020

In this workshop, you will work as a group to setup and configure a serverless architecture within Azure using a combination of Azure Functions, Logic Apps, Event Grid, Cosmos DB, and Azure Storage. The focus is on removing server management from the equation, breaking down the solution into smaller components that are individually scalable, and allowing the customer to only pay for what they use.

This course is based on the objectives of the course version 40562G.

AI-100: Designing and Implementing an Azure AI Solution Associate Certification Prep Session

4 Hours | $299

Schedules

08/13/2020 – 08/13/2020
10/22/2020 – 10/22/2020
12/17/2020 – 12/17/2020

This four-hour consultation session helps prepare students for the Microsoft Designing and Implementing an Azure AI Solution Associate Certification Prep Session AI-100 exam. What we cover in this session is a discussion on exam pattern, do’s and dont’s and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.
What’s included:

- Designing and Implementing an Azure AI Solution Associate measure-up

- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AI-100T01: Designing and Implementing an Azure AI Solution Associate (AI Engineer)

24 Hours | $1,775

Schedules

06/15/2020 – 06/17/2020
06/22/2020 – 06/24/2020
08/10/2020 – 08/12/2020
10/19/2020 – 10/21/2020
12/14/2020 – 12/16/2020

Build a customer support chat Bot that use Artificial Intelligence (AI) from the Microsoft Azure platform including language understanding and pre-built AI functionality in the Azure Cognitive Services.

This course teaches the concepts of Azure AI engineering by presenting, and developing, a scenario that creates a customer support Bot that utilizes various tools and services in the Azure AI landscape like language understanding, QnA Maker, and various Azure Cognitive Services to implement language detection, text analytics, and computer vision.

This course is based on the objectives of the course version AI-100T01-A.

AZ-010T00: Microsoft Azure Administration for AWS SysOps

16 Hours | $1,195

Schedules

08/10/2020 – 08/11/2020
10/13/2020 – 10/14/2020
12/14/2020 – 12/15/2020

This two-day course is designed for AWS Sysops administrators interested in learning how Azure is different from AWS, and how Azure is administered. The main topics are Azure Administration, Azure Networking, Azure Compute, Azure Storage, and Azure Governance. This course combines lecture with hands-on practical exercises and discussion/review. The students will build an end-to-end architecture that demonstrates the main features discussed in the course.

This course is based on the objectives of the course version AZ-010T00-A.

AZ-104: Microsoft Azure Administrator Associate Certification Prep Session

4 Hours | $299

Schedules

07/29/2020 – 07/29/2020

This four-hour consultation session helps prepare students for the Microsoft Azure Administrator Associate Certification AZ-104 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Administrator Associate measure-up

- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-104T00: Microsoft Azure Administrator

32 Hours | $2,395

Schedules

06/01/2020 – 06/04/2020
06/08/2020 – 06/11/2020
06/15/2020 – 06/18/2020
06/15/2020 – 06/16/2020
06/22/2020 – 06/25/2020
07/06/2020 – 07/09/2020
08/10/2020 – 08/13/2020
09/08/2020 – 09/11/2020
10/05/2020 – 10/08/2020
11/09/2020 – 11/12/2020
12/07/2020 – 12/10/2020

Microsoft Azure Administrator course teaches IT Professionals how to manage their Azure subscriptions, secure identities, administer the infrastructure, configure virtual networking, connect Azure and on-premises sites, manage network traffic, implement storage solutions, create and scale virtual machines, implement web apps and containers, back up and share data, and monitor your solution.

This course is based on the objectives of the course version AZ-104T00-A.

AZ-120T00: Planning and Administering Microsoft Azure for SAP Workloads

32 Hours | $2,395

Schedules

06/09/2020 – 06/12/2020
06/22/2020 – 06/25/2020
08/10/2020 – 08/13/2020
10/19/2020 – 10/22/2020
12/07/2020 – 12/10/2020

This course teaches IT Professionals experienced in SAP solutions how to leverage Azure resources that include deployment and configuration of virtual machines, virtual networks, storage accounts, and Azure AD that includes implementing and managing hybrid identities.

Students of this course will learn through concepts, scenarios, procedures, and hands-on labs how to best plan and implement migration and operation of an SAP solution on Azure. Your will receive guidance on subscriptions, create and scale virtual machines, implement storage solutions, configure virtual networking, back up and share data, connect Azure and on-premises sites, manage network traffic, implement Azure Active Directory, secure identities, and monitor your solution.

This course is based on the course objectives of AZ-120T00-A

AZ-204: Microsoft Azure Developer Associate Certification Prep Session

4 Hours | $299

Schedules

07/01/2020 – 07/01/2020

This four-hour consultation session helps prepare students for the Microsoft Azure Developer Associate Certification AZ-204 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will

enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Developer Associate measure-up
- Instructor-led certification prep session **Note:** NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-204T00: Developing Solutions for Microsoft Azure Associate (Developer)

40 Hours | $2,995

Schedules

06/01/2020 – 06/05/2020
06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020
10/19/2020 – 10/23/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

This course teaches developers how to create end-to-end solutions in Microsoft Azure. Students will learn how to implement Azure compute solutions, create Azure Functions, implement and manage web apps, develop solutions utilizing Azure storage, implement authentication and authorization, and secure their solutions by using KeyVault and Managed Identities. Students will also learn how to connect to and consume Azure services and third-party services, and include event- and message-based models in their solutions. The course also covers monitoring, troubleshooting, and optimizing Azure solutions.

This course provides students with the key knowledge to help prepare for Exam AZ-204: Developing Solutions for Microsoft Azure. Passing this exam is required to earn the Microsoft Certified Azure Developer Associate certification.

This course is based on the objectives of the course version AZ-204T00A.

AZ-220T00: Microsoft Azure IoT Developer

32 Hours | $2,395

Schedules

06/02/2020 – 06/07/2020

This course provides students with the skills and knowledge required to successfully create and maintain the cloud and edge portions of an Azure IoT solution. The course includes full coverage of the core Azure IoT services such as IoT Hub, Device Provisioning Services, Azure Stream Analytics, Time Series Insights, and more. In addition to the focus on Azure PaaS services, the course includes sections on IoT Edge, device management, monitoring and troubleshooting, security concerns, and Azure IoT Central.

This course is based on the objectives of the course version AZ-220T00-A.

AZ-300: Microsoft Azure Architect Technologies Expert

40 Hours | $2,975

Schedules

06/01/2020 – 06/05/2020
06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020

08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

This course provides students with the key knowledge to help prepare for Exam AZ-300. Passing this exam is required to earn Microsoft Certified Azure Solutions Architect Expert certification.

The five-MOC courses aligned to exam AZ-300 are as follows:

AZ-300T01: Deploying and Configuring Infrastructure

AZ-300T02: Implementing Workloads and Security

AZ-300T03: Understanding Cloud Architect Technology Solutions

AZ-300T04: Creating and Deploying Apps

AZ-300T06: Developing for the Cloud

AZ-300: Microsoft Azure Architect Technologies Expert Certification Prep Session

4 Hours | $299

Schedules

06/26/2020 – 06/26/2020
07/30/2020 – 07/30/2020

This four-hour consultation session helps prepare students for the Microsoft Azure Architect Technologies Expert Certification AZ-300 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Architect Technologies Expert measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-301: Microsoft Azure Architect Design Expert

32 Hours | $2,375

Schedules

06/08/2020 – 06/11/2020
06/15/2020 – 06/18/2020
06/22/2020 – 06/25/2020
08/03/2020 – 08/06/2020
09/21/2020 – 09/24/2020
10/13/2020 – 10/16/2020
11/30/2020 – 12/03/2020
12/14/2020 – 12/17/2020

This course provides students with the key knowledge to help prepare for Exam AZ-301. Passing this exam is required to earn Microsoft Certified Azure Solutions Architect Expert certification.

The four-MOC courses aligned to Exam AZ-301 are as follows:

AZ-301T01: Designing for Identity and Security

AZ-301T02: Designing a Data Platform Solution

AZ-301T03: Design for Deployment, Migration, and Integration

AZ-301T04: Designing an Infrastructure Strategy

AZ-301: Microsoft Azure Architect Design Expert Certification Prep Session

4 Hours | $299

Schedules

06/26/2020 – 06/26/2020
07/30/2020 – 07/30/2020

This four-hour consultation session helps prepare students for the Microsoft Azure Architect Design Expert Certification AZ-301 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Architect Design Expert measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-400: Microsoft Azure DevOps Engineer Expert Certification Prep Session

4 Hours | $299

Schedules

07/01/2020 – 07/01/2020
07/31/2020 – 07/31/2020

This four-hour consultation session helps prepare students for the Microsoft Azure DevOps Engineer Expert Certification AZ-400 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure DevOps Engineer Expert measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-400T00: Designing and Implementing Microsoft DevOps Solutions

40 Hours | $2,995

Schedules

06/01/2020 – 06/05/2020
06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
08/31/2020 – 09/04/2020
10/26/2020 – 10/30/2020
12/07/2020 – 12/11/2020

This course provides the knowledge and skills to design and implement DevOps processes and practices. Students will learn how to plan for DevOps, use source control, scale Git for an enterprise, consolidate artifacts, design a dependency management strategy, manage secrets, implement continuous integration, implement a container build strategy, design a release strategy, set up a release management workflow, implement a deployment pattern, and optimize feedback mechanisms.

This course is based on the objectives of the course version AZ-400T00-A.

AZ-500T00: Microsoft Azure Security Technologies Associate (Security Engineer)

32 Hours | $2,395

Schedules

06/08/2020 – 06/11/2020
06/15/2020 – 06/18/2020
06/22/2020 – 06/25/2020
08/10/2020 – 08/13/2020
10/05/2020 – 10/08/2020
12/07/2020 – 12/10/2020

This course provides students with the key knowledge to help prepare for Exam AZ-500: Microsoft Azure Security Technologies. Passing this exam is required to earn Microsoft Certified Azure Security Engineer Associate certification.

In this course students will gain the knowledge and skills needed to implement security controls, maintain the security posture, and identify and remediate vulnerabilities by using a variety of security tools. The course covers scripting and automation, virtualization, and cloud N-tier architecture.

This course is based on the objectives of the course version AZ-500T00-A.

AZ-500T00: Microsoft Azure Security Technologies Associate Certification Prep Session

4 Hours | $299

Schedules

08/14/2020 – 08/14/2020
10/09/2020 – 10/09/2020
12/11/2020 – 12/11/2020

This four-hour consultation session helps prepare students for the Microsoft Azure Security Technologies Associate Certification Prep Session AZ-500 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Security Technologies Associate measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-900: Microsoft Azure Fundamentals Certification Prep Session

2 Hours | $199

Schedules

07/29/2020 – 07/29/2020

This two-hour consultation session helps prepare students for the Microsoft Azure Fundamentals Certification AZ-900 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will

enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Microsoft Azure Fundamentals measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

AZ-900T00: Microsoft Azure Fundamentals (2 Day)

16 Hours | $500

Schedules

06/02/2020 – 06/03/2020
06/04/2020 – 06/05/2020
06/08/2020 – 06/09/2020
06/10/2020 – 06/11/2020
06/15/2020 – 06/16/2020
06/18/2020 – 06/19/2020
06/22/2020 – 06/23/2020
06/29/2020 – 06/30/2020
07/16/2020 – 07/17/2020
08/17/2020 – 08/18/2020
09/17/2020 – 09/18/2020
10/05/2020 – 10/06/2020
11/09/2020 – 11/10/2020
12/07/2020 – 12/08/2020

This two-day course will provide foundational level knowledge on cloud concepts; core Azure services; security, privacy, compliance, and trust; and Azure pricing and support.

Note: This course provides an Azure pass and time for students to participate in hands-on labs. If you do not need hands-on experience, consider the AZ-900T01: Microsoft Azure Fundamentals (1 day) course.

The content for both AZ-900T00 & AZ-900T01 courses align to the AZ-900 exam objective domain.

This course is based on the objectives of the course version AZ-900T00-A.

AZ-900T01: Microsoft Azure Fundamentals (1 Day)

8 Hours | $595

Schedules

06/01/2020 – 06/01/2020
06/05/2020 – 06/05/2020
06/29/2020 – 06/29/2020
07/13/2020 – 07/13/2020
08/10/2020 – 08/10/2020
09/08/2020 – 09/08/2020
10/13/2020 – 10/13/2020
11/09/2020 – 11/09/2020
12/14/2020 – 12/14/2020

This course will provide foundational level knowledge of cloud services and how those services are provided with Microsoft Azure. The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses.

The course will cover general cloud computing concepts as well as general cloud computing models and services such as Public, Private and Hybrid cloud and Infrastructure-as-a-Service (IaaS), Platform-as-a-Service(PaaS) and Software-as-a-Service (SaaS).

It will also cover some core Azure services and solutions, as well as key Azure pillar services concerning security, privacy, compliance and trust. It will finally cover pricing and support services available with Azure.

Note: If you need hands-on experience, consider the AZ-900T00: Microsoft Azure Fundamentals (2 day) course.

The content for both AZ-900T01 & AZ-900T00 courses align to the AZ-900 exam objective domain.

This course is based on the objectives of the course version AZ-900T01-A.

DP-050T00: Migrate SQL Workloads to Azure

16 Hours | $1,195

Schedules

08/03/2020 – 08/04/2020
10/05/2020 – 10/06/2020
12/21/2020 – 12/22/2020

In this course, the students will explore the objectives of data platform modernization and how it is suitable for given business requirements. They will also explore each stage of the data platform modernization process and define what tasks are involved at each stage, such as the assessment and planning phase. Students will also learn the available migration tools and how they are suitable for each stage of the data migration process.

The student will learn how to migrate to the three target platforms for SQL based workloads; Azure Virtual Machines, Azure SQL Databases and Azure SQL Database Managed Instances. The student will learn the benefits and limitations of each target platform and how they can be used to fulfill both business and technical requirements for modern SQL workloads. The student will explore the changes that may need to be made to existing SQL based applications, so that they can make best use of modern data platforms in Azure.

This course is based on the objectives of the course version DP-050T00-A.

DP-060T00: Migrate NoSQL workloads to Azure Cosmos DB

8 Hours | $595

Schedules

08/17/2020 – 08/17/2020
10/12/2020 – 10/12/2020
12/14/2020 – 12/14/2020

This course will teach the students what is Cosmos DB and how you can migrate MongoDB and Cassandra workloads to Cosmos DB.

This course is based on the course objectives of DP-060T00-A.

DP-070T00: Migrate Open Source Data Workloads to Azure

8 Hours | $995

Schedules

06/15/2020 – 06/15/2020
08/10/2020 – 08/10/2020
10/13/2020 – 10/13/2020
12/07/2020 – 12/07/2020

This course will enable the students to understand Azure SQL Database, and educate the students on what is required to migrate MySQL and PostgreSQL workloads to Azure SQL Database.

This course is based on the objectives of the course version DP-070T00-A.

DP-100T01: Designing and Implementing a Data Science Solution on Azure (Data Scientist)

24 Hours | $1,795

Schedules

06/08/2020 – 06/10/2020
06/22/2020 – 06/24/2020
08/31/2020 – 09/02/2020
11/02/2020 – 11/04/2020
12/02/2020 – 12/04/2020

Gain the necessary knowledge about how to use Azure services to develop, train, and deploy, machine learning solutions. The course starts with an overview of Azure services that support data science. From there, it focuses on using Azure's premier data science service, Azure Machine Learning service, to automate the data science pipeline. This course is focused on Azure and does not teach the student how to do data science. It is assumed students already know that.

This course is based on the objectives of the course version DP-100T01-A.

DP-100T01: Designing and Implementing a Data Science Solution on Azure Associate Certification Prep Session

4 Hours | $299

Schedules

06/25/2020 – 06/25/2020
09/03/2020 – 09/03/2020
11/05/2020 – 11/05/2020

This four-hour consultation session helps prepare students for the Microsoft Designing and Implementing a Data Science Solution on Azure Associate Certification Prep Session DP-100 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Designing and Implementing a Data Science Solution on Azure Associate measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

DP-200: Implementing an Azure Data Solution Associate Certification Prep Session

4 Hours | $299

Schedules

06/26/2020 – 06/26/2020
07/17/2020 – 07/17/2020
08/14/2020 – 08/14/2020
09/18/2020 – 09/18/2020
10/16/2020 – 10/16/2020
12/04/2020 – 12/04/2020

This four-hour consultation session helps prepare students for the Microsoft Implementing an Azure Data Solution Associate Certification Prep Session DP-200 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Implementing an Azure Data Solution Associate measure-up

- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

DP-200T01: Implementing an Azure Data Solution Associate (Data Engineer)

24 Hours | $1,775

Schedules

06/08/2020 – 06/10/2020
06/15/2020 – 06/17/2020
06/22/2020 – 06/24/2020
08/03/2020 – 08/05/2020
08/31/2020 – 09/02/2020
10/05/2020 – 10/07/2020
11/23/2020 – 11/25/2020
12/21/2020 – 12/23/2020

In this course, the students will implement various data platform technologies into solutions that are in line with business and technical requirements including on-premises, cloud, and hybrid data scenarios incorporating both relational and No-SQL data. They will also learn how to process data using a range of technologies and languages for both streaming and batch data.

The students will also explore how to implement data security including authentication, authorization, data policies and standards. They will also define and implement data solution monitoring for both the data storage and data processing activities. Finally, they will manage and troubleshoot Azure data solutions which includes the optimization and disaster recovery of big data, batch processing and streaming data solutions.

This course is based on the objectives of the course version DP-200T01-A.

DP-201: Designing an Azure Data Solution Associate Certification Prep Session

4 Hours | $299

Schedules

06/26/2020 – 06/26/2020
07/17/2020 – 07/17/2020
08/14/2020 – 08/14/2020
09/18/2020 – 09/18/2020
10/16/2020 – 10/16/2020
12/04/2020 – 12/04/2020

This four-hour consultation session helps prepare students for the Microsoft Designing an Azure Data Solution Associate Certification Prep Session DP-201 exam. What we cover in this session is a discussion on exam pattern, do's and dont's and some of the best practices that will enable you to attempt the exam better. These sessions are conducted by our experienced world-class instructors who will deliver these classes regularly and have the required product expertise.

What's included:

- Designing an Azure Data Solution Associate measure-up
- Instructor-led certification prep session

Note: NetCom Learning does not guarantee any pass percentage and these are guidance/consultation sessions only.

DP-201T01: Designing an Azure Data Solution Associate (Data Engineer)

16 Hours | $1,175

Schedules

06/11/2020 – 06/12/2020
06/18/2020 – 06/19/2020
06/25/2020 – 06/26/2020
07/06/2020 – 07/07/2020

08/06/2020 – 08/07/2020
09/03/2020 – 09/04/2020
10/08/2020 – 10/09/2020
11/30/2020 – 12/01/2020
12/28/2020 – 12/29/2020

In this course, the students will design various data platform technologies into solutions that are in line with business and technical requirements. This can include on-premises, cloud, and hybrid data scenarios which incorporate relational, No-SQL or Data Warehouse data. They will also learn how to design process architectures using a range of technologies for both streaming and batch data.

The students will also explore how to design data security including data access, data policies and standards. They will also design Azure data solutions which includes the optimization, availability and disaster recovery of big data, batch processing and streaming data solutions.

This course is based on the objectives of the course version DP-201T01-A.

WS-050T00: Migrating Application Workloads to Azure

16 Hours | $1,195

Schedules

06/29/2020 – 06/30/2020
08/03/2020 – 08/04/2020
10/05/2020 – 10/06/2020
12/07/2020 – 12/08/2020

This workshop teaches IT Professionals how to migrate existing on-premises workloads and assets to the cloud, specifically to the Microsoft Azure platform. Students learn how to assess and evaluate an existing on-premises environment in preparation for a cloud migration. Students also learn how to monitor and optimize their Azure-based workloads to maximize return on investment (ROI), and use Azure services to protect and manage your virtual machines, applications, and data.

This course is based on the objectives of the course version WS-050T00-A.

Microsoft Dynamics 365

55242: Microsoft Dynamics 365 Customization and Configuration

24 Hours | $1,795

Schedules

06/15/2020 – 06/17/2020
07/01/2020 – 07/03/2020
08/05/2020 – 08/07/2020
09/14/2020 – 09/16/2020
10/07/2020 – 10/09/2020
11/04/2020 – 11/06/2020
12/09/2020 – 12/11/2020

This course provides students with a detailed hands-on experience of setting up, customizing, configuring and maintaining the CRM components of Microsoft Dynamics 365.

Attendees of this course will gain an in-depth understanding of the Dynamics 365 security model, learn how to customize the Dynamics 365 framework, create and maintain powerful workflows and business process flows and use solutions to package and deploy customizations across multiple Dynamics 365 environments.

The course applies to both Business and Enterprise Editions of Dynamics 365 as well as Online and On-premise deployments. The July 2017 V9 release of Dynamics 365 is considered and course objectives map directly to the MB2-716 certification exam.

55250: Introduction to Microsoft Dynamics 365 (Fundamentals)

8 Hours | $595

Schedules

06/08/2020 – 06/08/2020
07/29/2020 – 07/29/2020
09/07/2020 – 09/07/2020
10/07/2020 – 10/07/2020
11/06/2020 – 11/06/2020
12/07/2020 – 12/07/2020

This course provides an introduction to Microsoft Dynamics 365 by building a foundation for all subsequent courses and learning. The main features and apps are introduced including Sales, Service and Marketing. Students will learn important end user skills including how to proficiently work in Microsoft Dynamics 365 to find information quickly and easily using the out of the box tools such as Advanced Find, the Report Wizard, Charts and Dashboards through the Web, Unified Client Interface (UCI) and the Dynamics 365 for Outlook App.

This course is based on the objectives of the course version 55250A.

MB-200T00: Microsoft Power Platform + Dynamics 365 Core

40 Hours | $2,975

Schedules

07/06/2020 – 07/10/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/12/2020 – 10/16/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

The Microsoft Power Platform helps organizations optimize their operations by automating routine tasks and standardizing best practices. This training provides a high-level overview of the capabilities of Microsoft Dynamics 365 and the Power Platform and provides a foundation for other Microsoft Dynamics 365 and Power Platform training offerings. High-level topics include application configuration, automation opportunities, integration, testing, and deployment.

This course is based on the objectives of the course version MB-200T00-A.

MB-210T01: Microsoft Dynamics 365 for Customer Engagement for Sales Associate

8 Hours | $595

Schedules

06/08/2020 – 06/08/2020
07/13/2020 – 07/13/2020
08/17/2020 – 08/17/2020
09/21/2020 – 09/21/2020
10/19/2020 – 10/19/2020
11/23/2020 – 11/23/2020
12/14/2020 – 12/14/2020

Microsoft Dynamics 365 for Sales is an end-to-end application to manage the handling of customers and potential customers; tracking data against sales goals, automating your best practices, learning from your data and more.

This course prepares for Exam MB-210: Dynamics 365 for Sales and will help you to earn Microsoft Certified Dynamics 365 for Sales Functional Consultant Associate certification.

This course is based on the objectives of the course version MB-210T01-A.

MB-220T00: Microsoft Dynamics 365 Marketing

32 Hours | $2,395

Schedules

06/08/2020 – 06/11/2020
07/13/2020 – 07/16/2020
08/17/2020 – 08/20/2020
09/21/2020 – 09/24/2020
10/19/2020 – 10/22/2020
11/30/2020 – 12/03/2020
12/14/2020 – 12/17/2020

This course will review the marketing application configuration needed to drive business growth. It will also dive into lead management, marketing forms and pages, segmentation, and email marketing messages. All these pieces are tied together through interactive customer journey design, including event and survey configuration.

This course is based on the objectives of the course version MB-220T00-A.

MB-230T01: Dynamics 365 for Customer Engagement for Customer Service

8 Hours | $595

Schedules

06/09/2020 – 06/09/2020
07/14/2020 – 07/14/2020
08/18/2020 – 08/18/2020
09/22/2020 – 09/22/2020
10/27/2020 – 10/27/2020
11/09/2020 – 11/09/2020
12/14/2020 – 12/14/2020

Microsoft Dynamics 365 for Customer Service offers any organization an opportunity for customer success. Using tools such as automatic case creation and queue management frees up your time to dedicate it where you can have a greater impact, directly with your customers.

This course prepares for Exam MB-230: Dynamics 365 for Customer Service and will help you to earn Microsoft Certified Dynamics 365 for Customer Service Functional Consultant Associate certification.

This course is based on the objectives of the course version MB-230T01-A.

MB-240T00: Microsoft Dynamics 365 Field Service

24 Hours | $1,795

Schedules

06/10/2020 – 06/12/2020
07/15/2020 – 07/17/2020
08/19/2020 – 08/21/2020
09/23/2020 – 09/25/2020
10/26/2020 – 10/28/2020
10/28/2020 – 10/30/2020
11/11/2020 – 11/13/2020
11/23/2020 – 11/25/2020
12/14/2020 – 12/16/2020
12/16/2020 – 12/18/2020

Dynamics 365 Field Service helps organizations better position themselves in the market by providing a variety of tools that assist in identifying and scheduling resources and managing workloads for mobile workers. This course will equip students with the skills necessary to identify and configure the key components that are used to deliver Field Service and mobile solutions. Key topics include identifying the organizational considerations that will drive configuration decisions and common configuration aspects. This course helps students better understand the bigger picture and end goals focused around implementations that aid in designing more efficient solutions that align with customer and organizational goals.

This course is based on the objectives of the course version MB-240T00-A.

MB-300T00: Microsoft Finance and Operations Core

24 Hours | $1,795

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/28/2020 – 10/30/2020
12/02/2020 – 12/04/2020

This course discusses: – Core common features of Dynamics 365 for Finance and Operations – Core configuration in Dynamics 365 for Finance and Operations – Data migration and preparing for go-live with Dynamics 365 for Finance and Operations Organizations use Dynamics 365 for Finance and Operations to reduce operational costs and rapidly respond to changing business needs. This solution lets organizations achieve these goals. This course discusses core components and configuration of Microsoft Dynamics 365 for Finance and Operations, and data migration and preparing for go-live.

This course is based on the course objectives of MB-300T00-A.

MB-310T00: Microsoft Dynamics 365 Finance

32 Hours | $2,395

Schedules

06/22/2020 – 06/25/2020
07/27/2020 – 07/30/2020
09/01/2020 – 09/04/2020
10/19/2020 – 10/22/2020
11/16/2020 – 11/19/2020
12/14/2020 – 12/17/2020

This course covers the financial aspects of Dynamics 365: configure and use essential financial components, accounts payable, accounts receivable, collections, budgeting, fixed assets, and additional functionality

This course is based on the course objectives of MB-310T00-A.

MB-320T00: Microsoft Dynamics 365 Supply Chain Management, Manufacturing

32 Hours | $2,395

Schedules

06/22/2020 – 06/25/2020
09/08/2020 – 09/11/2020
11/09/2020 – 11/12/2020

This course discusses manufacturing in the Dynamics 365 suite of apps: discrete manufacturing, lean manufacturing, and production

This course is based on the course objectives of MB-320T00-A.

MB-330T00: Microsoft Dynamics 365 Supply Chain Management

32 Hours | $2,395

Schedules

07/13/2020 – 07/16/2020
09/01/2020 – 09/04/2020
11/02/2020 – 11/05/2020
12/07/2020 – 12/10/2020

This course discusses supply chain management in the Dynamics 365 suite of apps.

This course is based on the course objectives of MB-330T00-A.

MB-400T00: Microsoft Power Apps + Dynamics 365 Developer

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
07/22/2020 – 07/24/2020
08/19/2020 – 08/21/2020
09/23/2020 – 09/25/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/14/2020 – 12/16/2020

The Microsoft Power Platform helps organizations optimize their operations by automating routine tasks and standardizing business best practices. A PowerApps Developer is a professional software developer who extends the Power Platform to solve complex business problems. In this course, PowerApps Developers will build on their existing knowledge of the Power Platform, Microsoft stack, and standard development tools and practices. PowerApps Developers will learn how to estimate effort and scope; validate requirements and design technical architecture; create data models; determine implementation tools; and document their technical design. Broad topics will include implementing user security and accessibility; managing environments; extending the Common Data Service; creating and using web resources; and working with plug-ins.

This course is based on the objectives of MB-400T00-A.

MB-500T00: Microsoft Dynamics 365 Finance and Operations Apps Developer

40 Hours | $2,995

Schedules

07/13/2020 – 07/17/2020
09/14/2020 – 09/18/2020
11/09/2020 – 11/13/2020
01/11/2021 – 01/15/2021

Developer training. Microsoft Dynamics 365 Finance and Operations Apps Developers implement and extend applications to meet the requirements of the business. Candidates provide fully realized solutions by using standardized application coding patterns, extensible features, and external integrations.

This course is based on the course objectives of MB-500T00-A.

MB-600T00: Microsoft Dynamics 365 + Power Platform Solution Architect

24 Hours | $1,795

Schedules

06/29/2020 – 07/01/2020
07/27/2020 – 07/29/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/26/2020 – 10/28/2020
12/07/2020 – 12/09/2020

The Solution Architect is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer's needs now and in the future. In this course, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. This course is designed to give you an introduction to the Solution Architect role.

This course is based on the course objectives of MB-600T00-A.

MB-700T00: Microsoft Dynamics 365 Finance and Operations Apps Solution Architect Expert

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
09/02/2020 – 09/04/2020
10/05/2020 – 10/07/2020
11/02/2020 – 11/04/2020
12/07/2020 – 12/09/2020

This course is developed for those aspired to be and new to the solution architect role. This course provides technical information focusing on application architecture and technical skills to start their journey into this role. This course will not cover the industrial skills and delivery skills required for this role.

This course is based on the objectives of the course version MB-700T00-A.

MB-901T00: Microsoft Dynamics 365 Fundamentals

16 Hours | $1,195

Schedules

06/29/2020 – 06/30/2020
08/03/2020 – 08/04/2020
09/08/2020 – 09/09/2020
10/05/2020 – 10/06/2020
11/02/2020 – 11/03/2020
12/07/2020 – 12/08/2020

This course provides learners with a broad overview of Dynamics 365 applications. We will introduce you each of the applications, articulate their business value, and discuss and demo core functionality. We will cover Dynamics 365 security, reporting, and familiarize you with data and product integrations available.

PL-900T00: Microsoft Power Platform Fundamentals

16 Hours | $1,195

Schedules

06/18/2020 – 06/19/2020
07/20/2020 – 07/21/2020

08/17/2020 – 08/18/2020
09/21/2020 – 09/22/2020
10/15/2020 – 10/16/2020
11/16/2020 – 11/17/2020
12/07/2020 – 12/08/2020

Learn the business value and product capabilities of Power Platform. Create a simple PowerApp, connect data with CDS, build a Power BI Dashboard, and automate a process with Microsoft Flow.

This course is based on the course objectives of PL-900T00-A.

Microsoft Excel

10994: Data Analysis Fundamentals Using Excel

16 Hours | $1,175

Schedules

07/06/2020 – 07/07/2020
09/07/2020 – 09/08/2020
11/09/2020 – 11/10/2020
01/04/2021 – 01/05/2021

This 2-day instructor-led course provides users with an introduction to the fundamentals of data analysis using Excel.

This course is based on the objectives of the course version 10994B.

Note: e-learning module (Microsoft On Demand, MOD) is also available for this course.

Data Analysis and Visualization with Microsoft Excel

16 Hours | $1,175

Schedules

06/18/2020 – 06/19/2020
07/01/2020 – 07/02/2020
08/13/2020 – 08/14/2020
09/14/2020 – 09/15/2020
10/15/2020 – 10/16/2020
11/12/2020 – 11/13/2020
12/14/2020 – 12/15/2020

Technology and the data that it both collects and makes accessible is now interwoven with businesses and lives. The era of “big data” has exploded due to the rise of cloud computing, which provides an abundance of computational power and storage, allowing organizations of all sorts to capture and store data. Leveraging that data effectively can provide timely insights and competitive advantage.

Analyzing data to find issues, insights and opportunities, is now a critical part of many job roles. Beyond the analysis, data analysts in all job roles must be able to effectively present and communicate their findings in visually compelling ways.

Microsoft® Excel® is designed for this purpose. Excel can connect to a wide range of data sources, perform robust data analysis and create diverse and robust data-backed visualizations to show insights, trends, and create reports. These capabilities enable people who use Excel for data analysis to turn data into thoughtful action.

Excel (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/15/2020 – 06/17/2020
06/29/2020 – 07/01/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
08/24/2020 – 08/26/2020
09/08/2020 – 09/10/2020
09/28/2020 – 09/30/2020
10/12/2020 – 10/14/2020
11/09/2020 – 11/11/2020
11/23/2020 – 11/25/2020
12/07/2020 – 12/09/2020

This course is suited for those using Microsoft Excel (2019/2016/2013). This course will be taught using Microsoft Excel. Organizations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing on a daily basis, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft Excel (2019/2016/2013) can help. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software. This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Excel Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
06/29/2020 – 06/29/2020
07/13/2020 – 07/13/2020
08/10/2020 – 08/10/2020
08/24/2020 – 08/24/2020
09/08/2020 – 09/08/2020
09/28/2020 – 09/28/2020
10/12/2020 – 10/12/2020
11/09/2020 – 11/09/2020
11/23/2020 – 11/23/2020
12/07/2020 – 12/07/2020

Organizations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing on a daily basis, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft® Office Excel can help. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software. This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Conducted by certified instructors at NetCom Learning, the Microsoft Office Excel training classes explain elementary details like how to open, save,

and close files, how to format a spreadsheet, how to build basic charts, and how to enter formulae into a cell. Through comprehensive Excel online training and Instructor-Led Training (ILT), participants will learn to use the most important features of Excel with full proficiency.

Learn Office Excel to analyze, organize, calculate, revise, update, and present your data in the desired format easily and clearly. The Microsoft Office Excel Level 1 (2019/2016/2013) training familiarizes students with the different features for creating spreadsheets, providing the fundamentals upon which they can build their knowledge and skills to become experts in data manipulation.

Excel Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
06/30/2020 – 06/30/2020
07/14/2020 – 07/14/2020
08/11/2020 – 08/11/2020
08/25/2020 – 08/25/2020
09/09/2020 – 09/09/2020
09/29/2020 – 09/29/2020
10/13/2020 – 10/13/2020
11/10/2020 – 11/10/2020
11/24/2020 – 11/24/2020
12/08/2020 – 12/08/2020

Whether you need to crunch numbers for sales, inventory, information technology, human resources, or other organizational purposes and departments, the ability to get the right information to the right people at the right time can create a powerful competitive advantage. After all, the world runs on data more than ever before and that's a trend not likely to change, or even slow down, any time soon. But with so much data available and being created on a nearly constant basis, the ability to make sense of that data becomes more critical and challenging with every passing day. You already know how to get Excel to perform simple calculations and how to modify your workbooks and worksheets to make them easier to read, interpret, and present to others. But, Excel is capable of doing so much more. To gain a truly competitive edge, you need to be able to extract actionable organizational intelligence from your raw data. In other words, when you have questions about your data, you need to know how to get Excel to provide the answers for you. And that's exactly what this course aims to help you do.

This course builds upon the foundational knowledge presented in the Excel: Level 1 course and will help start you down the road to creating advanced workbooks and worksheets that can help deepen your understanding of organizational intelligence. The ability to analyze massive amounts of data, extract actionable information from it, and present that information to decision makers is at the foundation of a successful organization that is able to compete at a high level.

NetCom Learning provides in-depth coverage of the more advanced Excel features with comprehensive Microsoft Office Excel Level 2 (2019/2016/2013) training. The Excel online training and Instructor-Led Training (ILT) focuses on developing the skills to extract actionable intelligence from massive amounts of raw data.

Learn Office Excel Level 2 (2019/2016/2013) to deepen your understanding of organizational intelligence by creating advanced worksheets and workbooks. The Microsoft Office Excel training classes are conducted via a hands-on approach to build learner's proficiency in advanced aspects of Excel.

Excel Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/17/2020 – 06/17/2020
07/01/2020 – 07/01/2020
07/15/2020 – 07/15/2020
08/12/2020 – 08/12/2020
08/26/2020 – 08/26/2020
09/10/2020 – 09/10/2020
09/30/2020 – 09/30/2020
10/14/2020 – 10/14/2020
11/11/2020 – 11/11/2020
11/25/2020 – 11/25/2020
12/09/2020 – 12/09/2020

Clearly, you use Excel a lot in your role. Otherwise, you wouldn't be taking this course. By now, you're already familiar with Excel, its functions and formulas, a lot of its features and functionality, and its powerful data analysis tools. You are likely called upon to analyze and report on data frequently, work in collaboration with others to deliver actionable organizational intelligence, and keep and maintain workbooks for all manner of purposes. At this level of use and collaboration, you have also likely encountered your fair share of issues and challenges. You're too busy, though, to waste time scouring over workbooks to resolve issues or to perform repetitive, monotonous tasks. You need to know how to get Excel to do more for you so you can focus on what's really important: staying ahead of the competition. That's exactly what this course aims to help you do.

This course builds off of the foundational and intermediate knowledge presented in the Microsoft Office Excel: Level 1 and Level 2 courses to help you get the most of your Excel experience. The ability to collaborate with colleagues, automate complex or repetitive tasks, and use conditional logic to construct and apply elaborate formulas and functions will put the full power of Excel right at your fingertips. The more you learn about how to get Excel to do the hard work for you, the more you'll be able to focus on getting the answers you need from the vast amounts of data your organization generates.

MS Excel (2016/2013) Programming with VBA

24 Hours | $895

Schedules

06/22/2020 – 06/24/2020
09/01/2020 – 09/03/2020
10/19/2020 – 10/21/2020
12/01/2020 – 12/03/2020

This VBA Programming for Excel 2016/2013 training course is designed to give experienced Excel users proficiency in creating procedures that run in response to specific events, working with control structures, developing user forms to accept or display data, validating the data entry in user forms, and debugging and handling errors in code.

Microsoft Exchange Server

20345-1: Administering Microsoft Exchange Server 2016/2019

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020

This course teaches IT professionals how to administer and support Exchange Server. The course covers how install and configure Exchange Server. It also covers how to manage mail recipients and public folders, including how to perform bulk operations by using Exchange Management Shell. In addition, the course covers how to manage client connectivity, message transport and hygiene, and highly available Exchange Server deployments. It also covers how to implement disaster recovery solutions. Finally, the course covers how to maintain and monitor an Exchange Server deployment and how to administer Exchange Online in a Office 365 deployment.

This course is based on the objectives of the course version 20345-1B.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20345-2: Designing and Deploying Microsoft Exchange Server 2016/2019

40 Hours | $2,975

Schedules

06/22/2020 – 06/26/2020

This course provides experienced Exchange Server administrators with the knowledge to design and implement an Exchange Server messaging environment. The course covers how to design and configure advanced components in an Exchange Server deployment such as site resiliency, advanced security, compliance, archiving and discovery solutions, coexistence with other Exchange organizations or Exchange Online, and migration from previous versions of Exchange server. The course also provides guidelines, best practices, and considerations that will help optimize Exchange Server deployments.

This course is based on the objectives of the course version 20345-2B.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

MCSE: Productivity (Exchange Server 2016) Combo

80 Hours | $5,950

Schedules

06/15/2020 – 06/26/2020

This MCSE: Productivity (Exchange Server) Certification Package is a combo of 2 Microsoft Exchange Server courses:

1. 20345-1: Administering Microsoft Exchange Server 2016/2019

2. 20345-2: Designing and Deploying Microsoft Exchange Server 2016/2019

Before taking this MCSE Productivity (Exchange Server) Certification track. Student first have to earn 1 of the following MCSA certifications:

1. MCSA Windows Server 2012

2. MCSA Windows Server 2016

Earning an MCSE: Productivity certification qualifies you for a position in network and computer systems administration.

Microsoft Office

Access (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/08/2020 – 06/10/2020
07/06/2020 – 07/08/2020
08/05/2020 – 08/07/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/18/2020 – 11/20/2020
12/14/2020 – 12/16/2020

This course is suited for those using Microsoft Access (2019/2016/2013). This course will be taught using Microsoft Access. Data is everywhere. Whether you are at the grocery store, office, laboratory, classroom, or ballpark, you are awash in data: prices, schedules, performance measures, lab results, recipes, contact information, quality metrics, market indices, grades, and statistics.

Your training and experience using Microsoft Access (2019/2016/2013) has given you basic database management skills, such as creating tables, designing forms and reports, and building queries. In this course, you will expand your knowledge of relational database design, write advanced queries, structure existing data, validate data entered into a database, and customize reports. Extending your knowledge of Microsoft Access will result in a robust, functional database for your users.

Access Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/08/2020 – 06/08/2020
07/06/2020 – 07/06/2020
08/05/2020 – 08/05/2020
09/14/2020 – 09/14/2020
10/19/2020 – 10/19/2020
11/18/2020 – 11/18/2020
12/14/2020 – 12/14/2020

This course is suited for those using Microsoft Access Level 1 (2019/2016/2013). This course will be taught using Microsoft Outlook. Data is everywhere. Whether you are at the grocery store, office, laboratory, classroom, or ballpark, you are awash in data: prices, schedules, performance measures, lab results, recipes, contact information, quality metrics, market indices, grades, and statistics.

Most job roles today involve some form of data management. In the case of data workers, it may be their primary job task. For some, such as research scientists and accountants, data management may be a strong component of the job. And for others, such as sales clerks or those in the skilled trades, data management may consist of an incidental job responsibility, for example, time reporting or recording a sale. Virtually everyone is affected in some way by the need to manage data.

A relational database application such as Microsoft Office Access (2019/2016/2013) can help you and your organization collect and manage large amounts of data. Access is a versatile tool. You can use it as a personal data management tool (for your use alone), or you can use it as a construction set to develop applications for an entire department or organization. In this course, you will use Access to manage your data, including creating a new database; constructing tables; designing forms and reports; and creating queries to join, filter, and sort data.

Access Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/09/2020 – 06/09/2020
07/07/2020 – 07/07/2020
08/06/2020 – 08/06/2020
09/15/2020 – 09/15/2020

10/20/2020 – 10/20/2020
11/19/2020 – 11/19/2020
12/15/2020 – 12/15/2020

This course is suited for those using Microsoft Access Level 2 (2019/2016/2013). This course will be taught using Microsoft Access.Your training and experience using Microsoft Access (2019/2016/2013) has given you basic database management skills, such as creating tables, designing forms and reports, and building queries. In this course, you will expand your knowledge of relational database design, write advanced queries, structure existing data, validate data entered into a database, and customize reports. Extending your knowledge of Microsoft Access (2019/2016/2013) will result in a robust, functional database for your users.

Access Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/10/2020 – 06/10/2020
07/08/2020 – 07/08/2020
08/07/2020 – 08/07/2020
09/16/2020 – 09/16/2020
10/21/2020 – 10/21/2020
11/20/2020 – 11/20/2020
12/16/2020 – 12/16/2020

This course is suited for those using Microsoft Access Level 3 (2019/2016/2013). This course will be taught using Microsoft Access. You have covered many of the basic functions of Microsoft Office Access (2016/2013/2010), and now you are ready to learn advanced Access features such as database management, advanced form design, packaging a database, encrypting a database, preparing a database for multi-user access, and more. Knowledge of these features separate database professionals from the casual database users or occasional designers. Today training, added to that which you've gained from the Microsoft Office Access (2019/2016/2013): Level 1 & 2 courses, rounds out your Access education and provides you with marketable job skills.

Excel (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/15/2020 – 06/17/2020
06/29/2020 – 07/01/2020
07/13/2020 – 07/15/2020
08/10/2020 – 08/12/2020
08/24/2020 – 08/26/2020
09/08/2020 – 09/10/2020
09/28/2020 – 09/30/2020
10/12/2020 – 10/14/2020
11/09/2020 – 11/11/2020
11/23/2020 – 11/25/2020
12/07/2020 – 12/09/2020

This course is suited for those using Microsoft Excel (2019/2016/2013). This course will be taught using Microsoft Excel. Organizations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing on a daily basis, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft Excel (2019/2016/2013) can help. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software. This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Excel Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
06/29/2020 – 06/29/2020
07/13/2020 – 07/13/2020
08/10/2020 – 08/10/2020
08/24/2020 – 08/24/2020
09/08/2020 – 09/08/2020
09/28/2020 – 09/28/2020
10/12/2020 – 10/12/2020
11/09/2020 – 11/09/2020
11/23/2020 – 11/23/2020
12/07/2020 – 12/07/2020

Organizations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing on a daily basis, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft® Office Excel can help. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software. This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Conducted by certified instructors at NetCom Learning, the Microsoft Office Excel training classes explain elementary details like how to open, save, and close files, how to format a spreadsheet, how to build basic charts, and how to enter formulae into a cell. Through comprehensive Excel online training and Instructor-Led Training (ILT), participants will learn to use the most important features of Excel with full proficiency.

Learn Office Excel to analyze, organize, calculate, revise, update, and present your data in the desired format easily and clearly. The Microsoft Office Excel Level 1 (2019/2016/2013) training familiarizes students with the different features for creating spreadsheets, providing the fundamentals upon which they can build their knowledge and skills to become experts in data manipulation.

Excel Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
06/30/2020 – 06/30/2020
07/14/2020 – 07/14/2020
08/11/2020 – 08/11/2020
08/25/2020 – 08/25/2020
09/09/2020 – 09/09/2020
09/29/2020 – 09/29/2020
10/13/2020 – 10/13/2020
11/10/2020 – 11/10/2020
11/24/2020 – 11/24/2020
12/08/2020 – 12/08/2020

Whether you need to crunch numbers for sales, inventory, information technology, human resources, or other organizational purposes and departments, the ability to get the right information to the right people at the right time can create a powerful competitive advantage. After all, the world runs on data more than ever before and that's a trend not likely to change, or even slow down, any time soon. But with so much data available and being created on a nearly constant basis, the ability to make sense of that data becomes more critical and challenging with every passing day. You already know how to get Excel to perform simple calculations and how to modify your workbooks and worksheets to make them easier to read, interpret, and present to others. But, Excel is capable of doing so much more. To gain a truly competitive edge, you need to be able to extract actionable organizational intelligence from your raw data. In other words, when you have questions about your data, you need to know how to get Excel to provide the answers for

you. And that's exactly what this course aims to help you do.

This course builds upon the foundational knowledge presented in the Excel: Level 1 course and will help start you down the road to creating advanced workbooks and worksheets that can help deepen your understanding of organizational intelligence. The ability to analyze massive amounts of data, extract actionable information from it, and present that information to decision makers is at the foundation of a successful organization that is able to compete at a high level.

NetCom Learning provides in-depth coverage of the more advanced Excel features with comprehensive Microsoft Office Excel Level 2 (2019/2016/2013) training. The Excel online training and Instructor-Led Training (ILT) focuses on developing the skills to extract actionable intelligence from massive amounts of raw data.

Learn Office Excel Level 2 (2019/2016/2013) to deepen your understanding of organizational intelligence by creating advanced worksheets and workbooks. The Microsoft Office Excel training classes are conducted via a hands-on approach to build learner's proficiency in advanced aspects of Excel.

Excel Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/17/2020 – 06/17/2020
07/01/2020 – 07/01/2020
07/15/2020 – 07/15/2020
08/12/2020 – 08/12/2020
08/26/2020 – 08/26/2020
09/10/2020 – 09/10/2020
09/30/2020 – 09/30/2020
10/14/2020 – 10/14/2020
11/11/2020 – 11/11/2020
11/25/2020 – 11/25/2020
12/09/2020 – 12/09/2020

Clearly, you use Excel a lot in your role. Otherwise, you wouldn't be taking this course. By now, you're already familiar with Excel, its functions and formulas, a lot of its features and functionality, and its powerful data analysis tools. You are likely called upon to analyze and report on data frequently, work in collaboration with others to deliver actionable organizational intelligence, and keep and maintain workbooks for all manner of purposes. At this level of use and collaboration, you have also likely encountered your fair share of issues and challenges. You're too busy, though, to waste time scouring over workbooks to resolve issues or to perform repetitive, monotonous tasks. You need to know how to get Excel to do more for you so you can focus on what's really important: staying ahead of the competition. That's exactly what this course aims to help you do.

This course builds off of the foundational and intermediate knowledge presented in the Microsoft Office Excel: Level 1 and Level 2 courses to help you get the most of your Excel experience. Microsoft Visio (2019/2016/2013) Combo

16 Hours | $790

Schedules

06/25/2020 – 06/26/2020
07/27/2020 – 07/28/2020
09/03/2020 – 09/04/2020
10/05/2020 – 10/06/2020

11/09/2020 – 11/10/2020
12/14/2020 – 12/15/2020

Microsoft Visio stands out among similar applications because of its unique ability to draw a wide variety of diagrams, flowcharts, workflows, and organization structures-anything that can be represented by shapes connected by lines. Most importantly, these shapes can be rearranged and with corresponding lines remaining intact. Visio has improved over the years as features common among Microsoft Office applications have been added. Today, Visio is well integrated with other members of the Office family as well as Microsoft's cloud-based services. This greatly enriches the sharing and publishing of Visio drawings.

In Microsoft Visio 2019: Level 1, you learned the basic skills needed to create and modify various Visio drawings. In Microsoft Visio 2019: Level 2, you will learn about more advanced features-making you a more efficient and effective Visio user.

Microsoft Visio Level 1 (2019/2016/2013)

8 Hours | $395

Schedules

06/25/2020 – 06/25/2020
07/27/2020 – 07/27/2020
09/03/2020 – 09/03/2020
10/05/2020 – 10/05/2020
11/09/2020 – 11/09/2020
12/14/2020 – 12/14/2020

This course is suited for those using Microsoft Visio Level 1 (2019/2016/2013). This course will be taught using Microsoft Visio. From the earliest eras of human existence, visual images have been used to represent knowledge, data, and information. Beginning with the Paleolithic cave paintings and continuing to today most complex computer networks, these images leverage the ability of the human brain to rapidly perceive patterns and trends from visual representations.

In today workplace, visual diagrams are an essential part of communication, from road maps to sales flows to process charts. Microsoft® Visio® provides you with an intuitive, customizable tool to easily create a professional-looking visual product by using its extensive gallery of shapes. By following the exercises in this course, you will create visually engaging diagrams, maps, and drawings, using graphical elements to make information easier to comprehend.

Microsoft Visio Level 2 (2019/2016/2013)

8 Hours | $395

Schedules

06/26/2020 – 06/26/2020
07/28/2020 – 07/28/2020
09/04/2020 – 09/04/2020
10/06/2020 – 10/06/2020
11/10/2020 – 11/10/2020
12/15/2020 – 12/15/2020

This course is suited for those using Microsoft Visio Level 2 (2019/2016/2013). This course will be taught using Microsoft Visio. Microsoft Visio stands out among similar applications because of its unique ability to draw a wide variety of diagrams, flowcharts, workflows, and organization structures-anything that can be represented by shapes connected by lines. Most importantly, these shapes can be rearranged and with corresponding lines remaining intact. Visio has improved over the years as features common among Microsoft® Office applications have been added. Today, Visio is well integrated with other members of the Office family as well as Microsoft's cloud-based services. This greatly enriches the sharing and publishing of Visio drawings.

In Microsoft Visio (2019/2016/2013) Level 1, you learned the basic skills needed to create and modify various Visio drawings. In Microsoft Visio (2019/2016/2013) Level 2, you will learn about more advanced features-making you a more efficient and effective Visio user.

Outlook (2019/2016/2013) Combo

16 Hours | $590

Schedules

06/29/2020 – 06/30/2020
07/27/2020 – 07/28/2020
08/27/2020 – 08/28/2020
09/28/2020 – 09/29/2020
11/02/2020 – 11/03/2020
12/03/2020 – 12/04/2020

Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook (2019/2016/2013) courses. It will provide you with the basic skills you need to start using Outlook to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/29/2020 – 06/29/2020
07/27/2020 – 07/27/2020
08/27/2020 – 08/27/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
12/03/2020 – 12/03/2020

This course is suited for those using Microsoft Outlook Level 1 (2019/2016/2013). This course will be taught using Microsoft Outlook. Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook (2019/2016/2013) courses. It will provide you with the basic skills you need to start using Outlook to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/30/2020 – 06/30/2020
07/28/2020 – 07/28/2020

08/28/2020 – 08/28/2020
09/29/2020 – 09/29/2020
11/03/2020 – 11/03/2020
12/04/2020 – 12/04/2020

This course is suited for those using Microsoft Outlook Level 2 (2019/2016/2013). This course will be taught using Microsoft Outlook. Every day, millions of emails are exchanged among people within and between organizations. Email has a ubiquitous presence in the lives of many, and it's likely that email technologies will continue to evolve with the changing needs of workplaces. After all, email communication has not been replaced, or its growth slowed, as many predicted with the rise of social media and the widespread adoption of mobile technologies. Many organizations have implemented mail management systems that combine the back-end power of Microsoft Exchange Server and the front-end intuitive user interface of Microsoft Office Outlook.

In this course, you will customize command sets, configure mail accounts, set global options, perform advanced searches, apply filters to intercept mail and control spam, create rules to automate many management tasks, work with calendars and contacts, manage tasks, protect data with archiving and data files, as well as share and delegate access to your workspaces. In short, you'll work with a wide range of features and options, and in so doing, understand why Outlook is a leading personal management system.

This course builds upon the foundational knowledge presented in the Microsoft Office Outlook, Part 1 course and will help you customize a communication system well-suited to your work styles.

PowerPoint (2019/2016/2013) Combo

16 Hours | $590

Schedules

06/15/2020 – 06/16/2020
07/20/2020 – 07/21/2020
08/17/2020 – 08/18/2020
09/14/2020 – 09/15/2020
10/13/2020 – 10/14/2020
11/16/2020 – 11/17/2020
12/07/2020 – 12/08/2020

It's hard to imagine a day going by without people passing along large amounts of information. Messages are everywhere, and the number of messages we receive seems to be increasing each day. Whether via phone, email, mass media, or personal interaction, we are subjected to a constant stream of information.

With so much communication to contend with, it can be difficult to grab people's attention. But, we are often called upon to do just that. So, how do you grab and maintain an audience's focus when you're asked to present important information? By being clear,organized, and engaging. And, that is exactly what Microsoft Office PowerPoint (2019/2016/2013) can help you do.

Gone are the days of flip charts or drawing on a white board to illustrate your point. Today audiences are tech savvy, accustomed to high-impact multimedia content, and stretched for time. By learning how to use the vast array of features and functionality contained within PowerPoint, you will gain the ability to organize your content, enhance it with high-impact visuals, and deliver it with a punch. In this course, you will use PowerPoint to begin creating engaging, dynamic multimedia presentations.

PowerPoint Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
07/20/2020 – 07/20/2020
08/17/2020 – 08/17/2020
09/14/2020 – 09/14/2020
10/13/2020 – 10/13/2020
11/16/2020 – 11/16/2020
12/07/2020 – 12/07/2020

This course is suited for those using Microsoft PowerPoint Level 1 (2019/2016/2013). This course will be taught using Microsoft PowerPoint. It's hard to imagine a day going by without people passing along large amounts of information. Messages are everywhere, and the number of messages we receive seems to be increasing each day. PowerPoint Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
07/21/2020 – 07/21/2020
08/18/2020 – 08/18/2020
09/15/2020 – 09/15/2020
10/14/2020 – 10/14/2020
11/17/2020 – 11/17/2020
12/08/2020 – 12/08/2020

This course is suited for those using Microsoft PowerPoint Level 2 (2019/2016/2013). This course will be taught using Microsoft PowerPoint. Meetings, instruction, training, pitches; these are all a part of our daily lives. We are often called upon to deliver presentations with little notice, at multiple venues, and with varying requirements. And, some of these presentations include sensitive information that needs to be guarded. Given all the variables, it may seem an overwhelming task to deliver your content, on time, to all audiences, and to only those who need to see it. Oh, and by the way, you need to make it interesting, informative, and memorable. So, how do you do it? Without the help of a robust set of tools, it would be nearly impossible. But Microsoft Office PowerPoint (2019/2016/2013) provides you with a variety of such tools that can help you deliver content in nearly any situation, while saving time and effort. By taking advantage of these tools, you will be creating presentations that not only stand out from the crowd, but also don't consume all of your available time.

Word (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/19/2020 – 10/21/2020

11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

These days, most people take electronic word processing for granted. While we may still write out our grocery lists with pen and paper, we expect to use a computer to create the majority of our documents. Its impossible to avoid word-processing software in many areas of the business world. Managers, lawyers, clerks, reporters, and editors rely on this software to do their jobs. Whether you are an executive secretary or a website designer, you'll need to know the ins and outs of electronic word processing.

Microsoft Word (2019/2016/2013) is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

Word Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
07/20/2020 – 07/20/2020
08/17/2020 – 08/17/2020
09/21/2020 – 09/21/2020
10/19/2020 – 10/19/2020
11/16/2020 – 11/16/2020
12/14/2020 – 12/14/2020

These days, most people take electronic word processing for granted. While we may still write out our grocery lists with pen and paper, we expect to use a computer to create the majority of our documents. It's impossible to avoid word-processing software in many areas of the business world. Managers, lawyers, clerks, reporters, and editors rely on this software to do their jobs. Whether you are an executive secretary or a website designer, you'll need to know the ins and outs of electronic word processing.

Microsoft Word 2019 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word 2019 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

NetCom Learning provides a comprehensive Word Level 1 (2019/2016/2013) training class with a hands-on approach that will have you navigating Word in no time. The Microsoft Office Word training is conducted by certified instructors through online and in-class media.

Word Level 1 (2019/2016/2013) training covers the creation and editing of documents, formatting, adding tables and lists, adding design elements, and layout options. Learn Microsoft Word Level 1 (2019/2016/2013) by exploring all the built-in options that make work easy and fun. This Microsoft Office Word 2019 essential training is the first step toward becoming an expert in working with Word.

Word Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
07/21/2020 – 07/21/2020
08/18/2020 – 08/18/2020
09/22/2020 – 09/22/2020
10/20/2020 – 10/20/2020
11/17/2020 – 11/17/2020
12/15/2020 – 12/15/2020

After you master the basics of using Microsoft Word such as creating, editing, and saving documents; navigating through a document; and printing, you're

ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

NetCom Learning provides an interactive Microsoft Office Word training for students and working professionals, enhancing their overall ability to automate intricate tasks like creating a business letter. This Word Level 2 (2019/2016/2013) essential training is especially for those who are involved in drafting high-level documents.

The Microsoft Office Word Level 2 (2019/2016/2013) essential training is conducted by certified trainers via a hands-on approach and guides learners through the multiple options and tools available in the application. The program is designed to build the user's expertise for all their word processing objectives.

This course is suited for those using Microsoft Word Level 3 (2019/2016/2013). This course will be taught using Microsoft Word. After you have learned to draft documents by getting familiar with the full features and customization tools of Microsoft Word, it is time to know more than simple word processing. The Microsoft Level 3 (2019/2016/2013) course from NetCom Learning provides an insight into collaboration features, creating forms, and working with lengthy Word documents.

The Word Level 3 (2019/2016/2013) training class covers tools other than word processing, like manipulation tools, cross-referencing and linking tools, security features, entry forms and data collection, and document production automation tools. Candidates explore how to create lengthy documents in an easy manner, and how to collaborate with others through this Word Level 3 (2019/2016/2013) training.

Imparted by certified instructors, the proactive Microsoft Office Word training prepares aspirants to accomplish tasks by using Word efficiently. The training includes a hands-on approach to ensure learners are able to handle complex tasks easily upon course completion.

Word Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/17/2020 – 06/17/2020
07/22/2020 – 07/22/2020
08/19/2020 – 08/19/2020
09/23/2020 – 09/23/2020
10/21/2020 – 10/21/2020
11/18/2020 – 11/18/2020
12/16/2020 – 12/16/2020

Microsoft Office 365

10984: Deploying and Managing Office 365 Hybrid Deployments

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
08/24/2020 – 08/26/2020
10/12/2020 – 10/14/2020
12/14/2020 – 12/16/2020

This course targets the needs of IT professionals who take part in administering, configuring, and operating Office 365 services in hybrid environments, where part of the infrastructure is hosted on-premises. This course also includes management of identities, authentication, and supporting technologies for Office 365. This course focuses on the skills required to administer and troubleshoot an Office 365 tenant, and key services of Office 365 such as Exchange Online, SharePoint Online, and Skype for Business, as well services such as Azure Multi-Factor Authentication (MFA), Azure Active Directory Identity Protection, and Azure Active Directory Privileged Identity Management. All these services are covered from the hybrid aspect. This course provides knowledge on how to use Office 365 services for both cloud and on-premises resources.

This course is based on the objectives of the course version 10984A.

10997: Office 365 Administration and Troubleshooting

24 Hours | $1,775

Schedules

06/01/2020 – 06/03/2020
07/07/2020 – 07/09/2020
08/10/2020 – 08/12/2020
09/21/2020 – 09/23/2020
10/12/2020 – 10/14/2020
11/16/2020 – 11/18/2020
12/07/2020 – 12/09/2020

This is a three-day Instructor Led Training (ILT) course that targets the needs of information technology (IT) professionals who take part in administering, configuring, troubleshooting, and operating Office 365 services, including its identities, dependencies, requirements, and supporting technologies. This course focuses on skills required to administer and troubleshoot Office 365 tenant and key services of Office 365, such as Exchange Online, SharePoint Online and Skype for Business and Teams. It also covers security and compliance features of Office 365.

This course is based on the objectives of the course version 10997C.

55154: Office 365 for the End-User

8 Hours | $295

Schedules

06/29/2020 – 06/29/2020
07/22/2020 – 07/22/2020
08/26/2020 – 08/26/2020
09/23/2020 – 09/23/2020
10/21/2020 – 10/21/2020
12/03/2020 – 12/03/2020

55154: Office 365 for the End-User course is designed for information workers who are using or will use Office 365. This course will provide students with the knowledge and skills to efficiently use Office 365 on a day-to-day basis. The course is designed with real world scenarios in mind. Students will learn how to use Outlook Online, Skype for Business, OneDrive for Business, SharePoint Online, and OneNote. At the end of this course students will be able to effectively navigate Office 365 and make use of all of the features of Office 365.

This course is based on the objectives of the course version 55154B.

55261: SharePoint for Office 365 Site Owner

16 Hours | $995

Schedules

06/15/2020 – 06/16/2020
08/04/2020 – 08/05/2020
09/29/2020 – 09/30/2020
11/24/2020 – 11/25/2020

SharePoint for Office 365 Site Owner Training course is for site owners/managers new to working in a SharePoint Office 365 environment.

55262: Introduction to SharePoint for Office 365

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
08/03/2020 – 08/03/2020
09/28/2020 – 09/28/2020
11/23/2020 – 11/23/2020

Introduction to SharePoint for Office 365 Training course is for end users working in a SharePoint environment. It is an abbreviated version of our complete SharePoint for Office 365 End User class and is intended for people new to using SharePoint who will not be responsible for managing a SharePoint site.

55283: Microsoft Office 365 Power User

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
08/03/2020 – 08/05/2020
09/28/2020 – 09/30/2020
11/16/2020 – 11/18/2020

The course is designed to help Power Users and end users make the most of the Office 365 apps. Teaching you how to collaborate across the business and understand when to use what and maximize your business adoption of Office 365.

This course is based on course objectives of 55283A.

Collaborating with Microsoft Teams for the Desktop

8 Hours | $295

Schedules

06/08/2020 – 06/08/2020
06/10/2020 – 06/10/2020
06/22/2020 – 06/22/2020
07/20/2020 – 07/20/2020
08/24/2020 – 08/24/2020
09/21/2020 – 09/21/2020
10/19/2020 – 10/19/2020
12/01/2020 – 12/01/2020

This course is an introduction to Microsoft® Office 365™ with Teams in a cloud-based environment. Using the Office 365 suite of productivity apps, users can easily communicate and collaborate together through Microsoft® Teams messaging and meeting functionality.

Configuring Microsoft Teams for the Desktop

8 Hours | $295

Schedules

06/09/2020 – 06/09/2020
06/11/2020 – 06/11/2020
06/23/2020 – 06/23/2020
07/21/2020 – 07/21/2020
08/25/2020 – 08/25/2020
09/22/2020 – 09/22/2020
10/20/2020 – 10/20/2020
12/02/2020 – 12/02/2020

This course is an introduction to Microsoft® Office 365™ with Teams™ in a cloud-based environment. Using the Office 365 suite of productivity apps, users can easily communicate and collaborate together through Microsoft® Teams™ messaging and meeting functionality.

Microsoft Office 365 Online (with Teams for the Desktop)

8 Hours | $295

Schedules

06/30/2020 – 06/30/2020
07/23/2020 – 07/23/2020
08/27/2020 – 08/27/2020
09/24/2020 – 09/24/2020
10/22/2020 – 10/22/2020
12/04/2020 – 12/04/2020

This course is an introduction to Microsoft Office 365 with Teams in a cloud-based environment. It can be used as an orientation to the full suite of Office 365 cloud-based tools.

Using the Office 365 suite of productivity apps, users can easily communicate and collaborate through Microsoft Outlook mail and Teams messaging and meeting functionality. Additionally, the Microsoft SharePoint team site provides a central storage location for accessing and modifying shared documents.

This course introduces working with shared documents in the familiar Office 365 online apps– word, PowerPoint, and Excel-as an alternative to installing the Microsoft Office desktop applications. This course also introduces several productivity apps including Yammer, Planner, and Delve that can be used in combination by teams for communication and collaboration.

MS-030T00: Office 365 Administrator

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020

This is a five-day course that targets the needs of IT professionals who take part in evaluating, planning, deploying, and operating Microsoft Office 365 services, including its identities, dependencies, requirements, and supporting technologies. This course focuses on skills required to set up an Office 365 tenant, including federation with existing user identities, and skills required to sustain an Office 365 tenant and its users.

This course is based on the objectives of the course version MS-030T00A.

This MS-030T00 is a replacement course for 20347: Enabling & Managing Office 365.

Microsoft Outlook

Outlook (2019/2016/2013) Combo

16 Hours | $590

Schedules

06/29/2020 – 06/30/2020
07/27/2020 – 07/28/2020
08/27/2020 – 08/28/2020
09/28/2020 – 09/29/2020
11/02/2020 – 11/03/2020
12/03/2020 – 12/04/2020

Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook (2019/2016/2013) courses. It will provide you with the basic skills you need to start using Outlook to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/29/2020 – 06/29/2020
07/27/2020 – 07/27/2020
08/27/2020 – 08/27/2020
09/28/2020 – 09/28/2020
11/02/2020 – 11/02/2020
12/03/2020 – 12/03/2020

This course is suited for those using Microsoft Outlook Level 1 (2019/2016/2013). This course will be taught using Microsoft Outlook. Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook (2019/2016/2013) courses. It will provide you with the basic skills you need to start using Outlook to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/30/2020 – 06/30/2020
07/28/2020 – 07/28/2020
08/28/2020 – 08/28/2020
09/29/2020 – 09/29/2020
11/03/2020 – 11/03/2020
12/04/2020 – 12/04/2020

This course is suited for those using Microsoft Outlook Level 2 (2019/2016/2013). This course will

be taught using Microsoft Outlook. Every day, millions of emails are exchanged among people within and between organizations. Email has a ubiquitous presence in the lives of many, and it's likely that email technologies will continue to evolve with the changing needs of workplaces. After all, email communication has not been replaced, or its growth slowed, as many predicted with the rise of social media and the widespread adoption of mobile technologies. Many organizations have implemented mail management systems that combine the back-end power of Microsoft Exchange Server and the front-end intuitive user interface of Microsoft Office Outlook.

In this course, you will customize command sets, configure mail accounts, set global options, perform advanced searches, apply filters to intercept mail and control spam, create rules to automate many management tasks, work with calendars and contacts, manage tasks, protect data with archiving and data files, as well as share and delegate access to your workspaces. In short, you'll work with a wide range of features and options, and in so doing, understand why Outlook is a leading personal management system.

This course builds upon the foundational knowledge presented in the Microsoft Office Outlook, Part 1 course and will help you customize a communication system well-suited to your work styles.

Microsoft Power BI

20778: Analyzing Data with Power BI

24 Hours | $1,775

Schedules

06/15/2020 – 06/17/2020
07/08/2020 – 07/10/2020
08/10/2020 – 08/12/2020
09/14/2020 – 09/16/2020
10/13/2020 – 10/15/2020
11/09/2020 – 11/11/2020
12/07/2020 – 12/09/2020

The main purpose of the course is to give students a good understanding of data analysis with Power BI. The course includes creating visualizations, the Power BI Service, and the Power BI Mobile App. This is a refresh to the preceding versions to take account of changes in the Power BI service.

This course is based on the objectives of the course version 20778C.

Note: e-learning module (Microsoft On Demand, MOD) is also available for this course.

55164: Quick Powerful Graphics with Power View, PowerPivot, Power Query, Power Map and Power BI

16 Hours | $1,195

Schedules

06/15/2020 – 06/16/2020
08/10/2020 – 08/11/2020
10/05/2020 – 10/06/2020
12/03/2020 – 12/04/2020

This course is designed to teach the participant how to combine the functionality of Power View, PowerPivot, Power Query, and Power BI into graphs, charts, KPIs, reports, and other visualizations for use in their business. This course is lab example intensive.

Microsoft PowerApps and Flow

55265: Microsoft PowerApps

16 Hours | $1,175

Schedules

06/22/2020 – 06/23/2020
07/13/2020 – 07/14/2020
08/19/2020 – 08/20/2020
09/24/2020 – 09/25/2020
10/19/2020 – 10/20/2020
11/19/2020 – 11/20/2020
12/14/2020 – 12/15/2020

This course delivers an instructor-led breakdown of Microsoft PowerApps. Students will be taught how to design, test and publish new apps that work with a variety of data sources. We will take users through a selection of well-crafted lessons to help them build new applications for their business.

This course is based on the objectives of the course version 55265A.

MB-400T00: Microsoft Power Apps + Dynamics 365 Developer

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
07/22/2020 – 07/24/2020
08/19/2020 – 08/21/2020
09/23/2020 – 09/25/2020
10/19/2020 – 10/21/2020
11/23/2020 – 11/25/2020
12/14/2020 – 12/16/2020

The Microsoft Power Platform helps organizations optimize their operations by automating routine tasks and standardizing business best practices. A PowerApps Developer is a professional software developer who extends the Power Platform to solve complex business problems. In this course, PowerApps Developers will build on their existing knowledge of the Power Platform, Microsoft stack, and standard development tools and practices. PowerApps Developers will learn how to estimate effort and scope; validate requirements and design technical architecture; create data models; determine implementation tools; and document their technical design. Broad topics will include implementing user security and accessibility; managing environments; extending the Common Data Service; creating and using web resources; and working with plug-ins.

This course is based on the objectives of MB-400T00-A.

Microsoft PowerPoint

PowerPoint (2019/2016/2013) Combo

16 Hours | $590

Schedules

06/15/2020 – 06/16/2020
07/20/2020 – 07/21/2020
08/17/2020 – 08/18/2020
09/14/2020 – 09/15/2020
10/13/2020 – 10/14/2020
11/16/2020 – 11/17/2020
12/07/2020 – 12/08/2020

It's hard to imagine a day going by without people passing along large amounts of information. Messages are everywhere, and the number of messages we receive seems to be increasing each day. Whether via phone, email, mass media, or personal interaction, we are subjected to a constant stream of information.

With so much communication to contend with, it can be difficult to grab people's attention. But, we are often called upon to do just that. So, how do you grab and maintain an audience's focus when you're asked to present important information? By being clear,organized, and engaging. And, that is exactly what Microsoft Office PowerPoint (2019/2016/2013) can help you do.

Gone are the days of flip charts or drawing on a white board to illustrate your point. Today audiences are tech savvy, accustomed to high-impact multimedia content, and stretched for time. By learning how to use the vast array of features and functionality contained within PowerPoint, you will gain the ability to organize your content, enhance it with high-impact visuals, and deliver it with a punch. In this course, you will use PowerPoint to begin creating engaging, dynamic multimedia presentations.

PowerPoint Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
07/20/2020 – 07/20/2020
08/17/2020 – 08/17/2020
09/14/2020 – 09/14/2020
10/13/2020 – 10/13/2020
11/16/2020 – 11/16/2020
12/07/2020 – 12/07/2020

This course is suited for those using Microsoft PowerPoint Level 1 (2019/2016/2013). This course will be taught using Microsoft PowerPoint. It's hard to imagine a day going by without people passing along large amounts of information. Messages are everywhere, and the number of messages we receive seems to be increasing each day. Whether via phone, email, mass media, or personal interaction, we are subjected to a constant stream of information.

With so much communication to contend with, it can be difficult to grab people's attention. But, we are often called upon to do just that. PowerPoint Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
07/21/2020 – 07/21/2020
08/18/2020 – 08/18/2020
09/15/2020 – 09/15/2020
10/14/2020 – 10/14/2020
11/17/2020 – 11/17/2020
12/08/2020 – 12/08/2020

This course is suited for those using Microsoft PowerPoint Level 2 (2019/2016/2013). This course will be taught using Microsoft PowerPoint. Meetings, instruction, training, pitches; these are all a part of our daily lives. We are often called upon to deliver presentations with little notice, at multiple venues, and with varying requirements. And, some of these presentations include sensitive information that needs to be guarded. Given all the variables, it may seem an overwhelming task to deliver your content, on time, to all audiences, and to only those who need to see it. Oh, and by the way, you need to make it interesting, informative, and memorable. So, how do you do it? Without the help of a robust set of tools, it would be nearly impossible. But Microsoft Office PowerPoint (2019/2016/2013) provides you with a variety of such tools that can help you deliver content in nearly any situation, while saving time and effort. By taking advantage of these tools, you will be creating presentations that not only stand out from the crowd, but also don't consume all of your available time.

Microsoft PowerShell

10961: Automating Administration with Windows PowerShell

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
08/17/2020 – 08/21/2020
10/19/2020 – 10/23/2020
12/14/2020 – 12/18/2020

This course provides students with the fundamental knowledge and skills to use Windows PowerShell for administering and automating administration of Windows servers. This course provides students the skills to identify and build the command they require to perform a specific task. In addition, students learn how to build scripts to accomplish advanced tasks such as automating repetitive tasks and generating reports. This course provides prerequisite skills supporting a broad range of Microsoft products, including Windows Server, Windows Client, Microsoft Exchange Server, Microsoft SharePoint Server, Microsoft SQL Server, System Center, and more. In keeping with that goal, this course will not focus on any one of those products, although Windows Server, which is the common platform for all of those products, will serve as the example for the techniques this course teaches.

This course is based on the objectives of the course version 10961C

Note: E-learning module (Microsoft On Demand, MOD) is also available for this course.

10962: Advanced Automated Administration with Windows PowerShell

24 Hours | $1,775

Schedules

06/15/2020 – 06/17/2020
08/24/2020 – 08/26/2020
10/26/2020 – 10/28/2020
12/21/2020 – 12/23/2020

This course that will teach students how to automate administrative tasks using Windows PowerShell 5.1. Students will learn core scripting skills such as creating advanced functions, writing controller scripts, and handling script errors. Students will learn how to works with Windows PowerShell Workflow, the REST API and XML and JSON formatted data files, Students will also learn how to use new administration tools such Desired State Configuration (DSC) and Just Enough Administration (JEA) to configure and secure servers.

This course is based on the objectives of the course version 10962C

Note: E-learning module (Microsoft On Demand, MOD) is also available for this course.

50414: Microsoft Windows PowerShell v2 For Administrators

32 Hours | $2,395

Schedules

06/15/2020 – 06/18/2020
08/03/2020 – 08/06/2020
10/26/2020 – 10/29/2020
12/07/2020 – 12/10/2020

This four-day instructor-ledcourse provides students with the knowledge and skills to leverage Microsoft Windows PowerShell v2 to administer their Windows environment. Both the command line environment and the scripting capabilities inherent in Microsoft's automation engine are addressed during this hands-on course.

55039: Windows PowerShell Scripting and Toolmaking

40 Hours | $2,995

Schedules

07/06/2020 – 07/10/2020
09/14/2020 – 09/18/2020
11/16/2020 – 11/20/2020

This PowerShell training is intended for IT professionals who are interested in furthering their skills in Windows PowerShell and administrative automation. The course assumes a basic working knowledge of PowerShell as an interactive command-line shell, and teaches students the correct patterns and practices for building reusable, tightly scoped units of automation.

This course covers advanced Windows PowerShell topics, with an emphasis on building reusable tools. Introduces workflow, reinforces best practices, and teaches a variety of script development and toolmaking techniques.

This course is based on the objectives of the course version 55039B.

55069: PowerShell for SQL Server Administrators

16 Hours | $1,775

Schedules

06/15/2020 – 06/16/2020
07/16/2020 – 07/17/2020
08/17/2020 – 08/18/2020
09/14/2020 – 09/15/2020
10/15/2020 – 10/16/2020
11/16/2020 – 11/17/2020

This two-day instructor-led course provides candidates with the knowledge and skills needed to use PowerShell for SQL Server administration. Students will learn how to manage day-to-day and scheduled maintenance tasks. The main focus will be administration of the database engine, but material and exercises on Analysis Services (SSAS) and Integration Services (SSIS) are also included.

Microsoft Project

55205: Mastering Microsoft Project 2016

24 Hours | $1,195

Schedules

07/21/2020 – 07/23/2020
09/30/2020 – 10/02/2020
11/25/2020 – 11/27/2020

Mastering Microsoft Project 2016 course is intended for individuals who are interested in expanding their knowledge base and technical skills about Microsoft Project. The course begins with the basic concepts and leads aspirants through all the functions they'll need to plan and manage a small to medium-size project, including how to level resources and capture both cost and schedule progress.

This course will also help aspirants prepare for Microsoft Project Exam 74-343 Managing Projects with Microsoft Project

Microsoft Project 2016 Combo

16 Hours | $790

Schedules

06/22/2020 – 06/23/2020
07/27/2020 – 07/28/2020
08/24/2020 – 08/25/2020
09/28/2020 – 09/29/2020
10/26/2020 – 10/27/2020
11/23/2020 – 11/24/2020
12/21/2020 – 12/22/2020

Welcome to Microsoft Project 2016 : Level 1 & 2. This course is designed to familiarize you with the basic features and functions of Microsoft Project Professional 2016 so you can use it effectively and efficiently in a real-world environment.

This course covers the critical knowledge and skills a project manager needs to create a project plan with

Project 2016 during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project 2016 and share it with your supervisor (and others) for review and approval.

Microsoft Project 2016: Level 1

8 Hours | $395

Schedules

06/22/2020 – 06/22/2020
07/27/2020 – 07/27/2020
08/24/2020 – 08/24/2020
09/28/2020 – 09/28/2020
10/26/2020 – 10/26/2020
11/23/2020 – 11/23/2020
12/21/2020 – 12/21/2020

Welcome to Microsoft Project 2016: Level 1. This course is designed to familiarize you with the basic features and functions of Microsoft Project Professional 2016 so you can use it effectively and efficiently in a real-world environment.

This course covers the critical knowledge and skills a project manager needs to create a project plan with Project 2016 during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project 2016 and share it with your supervisor (and others) for review and approval.

Microsoft Project 2016: Level 2

8 Hours | $395

Schedules

06/23/2020 – 06/23/2020
07/28/2020 – 07/28/2020
08/25/2020 – 08/25/2020
09/29/2020 – 09/29/2020
10/27/2020 – 10/27/2020
11/24/2020 – 11/24/2020
12/22/2020 – 12/22/2020

Welcome to Microsoft Project 2016: Level 2. This course is designed to familiarize you with the advanced features and functions of Microsoft Project Professional 2016 so that you can use it effectively and efficiently in a real-world environment.

In Microsoft Project 2016: Level 1, you learned the basic features of Microsoft Project 2016 during the planning phase of a project. Microsoft Project 2016: Level 2 covers the advanced knowledge and skills a project manager needs to update a project plan in Project 2016 during the execution, monitoring, and controlling phases of a project. In other words, once your project plan is approved by the project sponsor, this course will enable you to manage the project so that it is completed on time, within budget, and according to scope.

Microsoft Security

AZ-500T00: Microsoft Azure Security Technologies Associate (Security Engineer)

32 Hours | $1,399

Schedules

06/15/2020 – 06/18/2020
06/29/2020 – 07/02/2020
08/10/2020 – 08/13/2020
10/05/2020 – 10/08/2020
12/07/2020 – 12/10/2020

This course provides students with the key knowledge to help prepare for Exam AZ-500: Microsoft Azure Security Technologies. Passing this exam is required to earn Microsoft Certified Azure Security Engineer Associate certification.

In this course students will gain the knowledge and skills needed to implement security controls, maintain the security posture, and identify and remediate vulnerabilities by using a variety of security tools. The course covers scripting and automation, virtualization, and cloud N-tier architecture.

This course is based on the objectives of the course version AZ-500T00-A.

MS-500T00: Microsoft 365 (M365) Security Administration

32 Hours | $2,395

Schedules

07/06/2020 – 07/09/2020
08/03/2020 – 08/06/2020
09/08/2020 – 09/11/2020
10/05/2020 – 10/08/2020
11/02/2020 – 11/05/2020
12/01/2020 – 12/04/2020

In MS-500T00: Microsoft 365 (M365) Security Administration course you will learn how to secure user access to your organization's resources. The course covers user password protection, multi-factor authentication, how to enable Azure Identity Protection, how to setup and use Azure AD Connect, and introduces you to conditional access in Microsoft 365. You will learn about threat protection technologies that help protect your Microsoft 365 environment. Specifically, you will learn about threat vectors and Microsoft's security solutions to mitigate threats. You will learn about Secure Score, Exchange Online protection, Azure Advanced Threat Protection, Windows Defender Advanced Threat Protection, and threat management.

In the course you will learn about information protection technologies that help secure your Microsoft 365 environment. The course discusses information rights managed content, message encryption, as well as labels, policies and rules that support data loss prevention and information protection. Lastly, you will learn about archiving and retention in Microsoft 365 as well as data governance and how to conduct content searches and investigations. This course covers data retention policies and tags, in-place records management for SharePoint, email retention, and how to conduct content searches that support eDiscovery investigations.

This course is based on the objectives of the course version MS-500T00-A.

Microsoft SharePoint

20339-1: Planning and Administering SharePoint 2016

40 Hours | $2,975

Schedules

06/01/2020 – 06/05/2020

This course will provide you with the knowledge and skills to plan and administer a Microsoft SharePoint 2016 environment. The course teaches you how to deploy, administer, and troubleshoot your SharePoint environment. This course also provides guidelines, best practices, and considerations that help you optimize your SharePoint deployment.

This is the first in a sequence of two courses for IT professionals and is aligned with the SharePoint 2016 IT Pro certification.

This course is based on the objectives of the course version 20339-1A.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course .

20339-2: Advanced Technologies of SharePoint 2016

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020

This course will teach you how to plan, configure, and manage the advanced features in a SharePoint 2016 environment. The special areas of focus for this course include implementing high availability, disaster recovery, service application architecture, and Microsoft Business Connectivity Services. This course also focuses on social computing features, productivity, and collaboration platforms and features. Students also will learn about business intelligence solutions, Enterprise Content Management, web content management infrastructure, solutions, and apps. This course also covers how to develop and implement a governance plan, and how to perform an upgrade or a migration to SharePoint 2016.

This is the second in a sequence of two courses for IT Professionals and is aligned with the SharePoint 2016 IT Pro certification.

This course is based on the objectives of the course version 20339-2A.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

55081: Basic SharePoint Server 2013 Branding

16 Hours | $1,175

Schedules

07/08/2020 – 07/09/2020
09/08/2020 – 09/09/2020
11/10/2020 – 11/11/2020
01/11/2021 – 01/12/2021

This 55081- Basic SharePoint Server 2013 Branding course is intended for those interested in learning how to customize the look of SharePoint Server 2013 through the concept of Branding. Although some coding is involved we strive to keep it to a minimum in this introductory level course. Though we use minimum code you will be surprised at the ease with which SharePoint can be branded to your environment for internet, intranet and extranet sites. The level of expertise you gain coupled with the built-in SharePoint tools may be all your company ever needs for great looking branded sites.

55199: SharePoint 2016 End User Training

24 Hours | $1,775

Schedules

07/07/2020 – 07/09/2020
08/17/2020 – 08/19/2020
09/14/2020 – 09/16/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/21/2020 – 12/23/2020

This SharePoint 2016 End User class is for end users working in a SharePoint 2016 environment. The course teaches SharePoint basics such as working with lists and libraries as well as basic page customizations.

55215: SharePoint Online Power User

32 Hours | $2,375

Schedules

06/08/2020 – 06/11/2020
08/03/2020 – 08/06/2020
09/21/2020 – 09/24/2020
11/02/2020 – 11/05/2020
12/01/2020 – 12/04/2020

This course delivers the complete site owner story from start to finish in an engaging and practical way to ensure you have the confidence to plan and create new sites or manage your existing sites in SharePoint Online. Your goal is to learn how to make SharePoint online relevant to your team by using a sites functionality to help you share information and collaborate with your colleagues. During the class, you will also learn best practices and 'what not to do' as you watch live, interactive demonstrations and put theory into practice with hands-on exercises in SharePoint Online.

55234: SharePoint 2016 Site Collections and Site Owner Administration

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020
10/05/2020 – 10/09/2020
12/07/2020 – 12/11/2020

55234: SharePoint 2016 Site Collections and Site Owner Administration course is intended for power users, who are tasked with working within the SharePoint 2016 environment. This course will provide a deeper, narrowly-focused training on the important and popular skills needed to be an administrator for SharePoint site collections and sites. SharePoint deployment or farm administration skills and tasks, which are required for IT professionals to manage SharePoint 2016.

This course is designed to complement skills learned in other Microsoft courses, which focus on overall SharePoint 2016 server administration and deployment as well as overall Office 365 management:

20339-1, Planning and Administering SharePoint 2016

20339-2, Advanced Technologies of SharePoint 2016

20347, Enabling and Managing Office 365

55238: SharePoint Online for Administrators

24 Hours | $1,775

Schedules

06/15/2020 – 06/17/2020
08/10/2020 – 08/12/2020
10/05/2020 – 10/07/2020
12/07/2020 – 12/09/2020

This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on-premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

55251: SharePoint 2016 Site Owner Training

16 Hours | $1,175

Schedules

06/15/2020 – 06/16/2020
08/06/2020 – 08/07/2020
10/01/2020 – 10/02/2020
11/30/2020 – 12/01/2020

This SharePoint 2016 Site Owner instructor-led training class is for site owners/managers new to working in a SharePoint 2016 environment.

This course is based on the objectives of the course version 55251A.

55261: SharePoint for Office 365 Site Owner

16 Hours | $995

Schedules

06/15/2020 – 06/16/2020
08/04/2020 – 08/05/2020
09/29/2020 – 09/30/2020
11/24/2020 – 11/25/2020

SharePoint for Office 365 Site Owner Training course is for site owners/managers new to working in a SharePoint Office 365 environment.

55262: Introduction to SharePoint for Office 365

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
08/03/2020 – 08/03/2020
09/28/2020 – 09/28/2020
11/23/2020 – 11/23/2020

Introduction to SharePoint for Office 365 Training course is for end users working in a SharePoint environment. It is an abbreviated version of our complete SharePoint for Office 365 End User class and is intended for people new to using SharePoint who will not be responsible for managing a SharePoint site.

55294: SharePoint Power User 2019

16 Hours | $1,195

Schedules

06/15/2020 – 06/16/2020
07/13/2020 – 07/14/2020
09/03/2020 – 09/04/2020
10/26/2020 – 10/27/2020
12/07/2020 – 12/08/2020

This SharePoint 2019 Power User training class is designed for individuals who need to learn the fundamentals of managing SharePoint sites.

This course is based on the objectives of the course version 552934.

55299: SharePoint 2019 Site Owner

16 Hours | $1,195

Schedules

06/17/2020 – 06/18/2020
07/15/2020 – 07/16/2020
08/17/2020 – 08/18/2020
09/14/2020 – 09/15/2020
10/12/2020 – 10/13/2020
11/16/2020 – 11/17/2020
12/21/2020 – 12/22/2020

This SharePoint 2019 Site Owner class is for site owners/managers new to working in a SharePoint 2019 environment.

This course is based on the course objectives of 55299A.

MCSE: Productivity (SharePoint 2016) Combo

80 Hours | $5,950

Schedules

06/01/2020 – 06/12/2020

This MCSE: Productivity (SharePoint 2016) Certification Package is a combo of 2 Microsoft SharePoint courses:

1. 20339-1 Planning and Administering SharePoint 2016

2. 20339-2 Advanced Technologies of SharePoint 2016

Before taking this MCSE: Productivity (SharePoint 2016) Certification track. Student first have to earn 1 of the following MCSA certifications:

1. MCSA Windows Server 2012

2. MCSA Windows Server 2016

Earning an MCSE: Productivity certification qualifies you for a position in network and computer systems administration.

Microsoft SharePoint Designer 2013

8 Hours | $395

Schedules

07/17/2020 – 07/17/2020
09/14/2020 – 09/14/2020
11/20/2020 – 11/20/2020

Microsoft SharePoint Designer 2013 provides a code-free environment to access data types and build custom SharePoint applications. It allows rapid development of SharePoint workflows to meet a company's specific needs. Before SharePoint Designer, most custom SharePoint applications were created with Microsoft Visual Basic. SharePoint Designer simplifies the process with a no-code interface that can be integrated with Microsoft Visio 2013 to easily manipulate workflow shapes. In this course, you will create and publish custom SharePoint workflows without code using SharePoint Designer 2013.

Microsoft SQL Server

10985: Introduction to SQL Databases (SQL Server 2016)

24 Hours | $1,775

Schedules

06/15/2020 – 06/17/2020
08/17/2020 – 08/19/2020
10/05/2020 – 10/07/2020
12/14/2020 – 12/16/2020

Introduction to SQL Databases course is aimed at people looking to move into a database professional role or whose job role is expanding to encompass database elements. The course describes fundamental database concepts including database types, database languages, and database designs.

This course is based on the objectives of the course version 10985C.

Note: E-learning module (Microsoft On Demand, MOD) is also available for this course.

10986: Updating Your Skills to SQL Server 2016

24 Hours | $1,775

Schedules

06/08/2020 – 06/10/2020
08/10/2020 – 08/12/2020
10/12/2020 – 10/14/2020
12/21/2020 – 12/23/2020

Updating Your Skills to SQL Server 2016 course provides students moving from earlier releases of SQL Server with an introduction to the new features in SQL Server 2016.

This course is based on the objectives of the course version 10986B.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

10987: Performance Tuning and Optimizing SQL Databases (SQL Server 2017)

32 Hours | $2,375

Schedules

07/13/2020 – 07/16/2020
08/17/2020 – 08/20/2020
09/21/2020 – 09/24/2020
10/26/2020 – 10/29/2020
12/07/2020 – 12/10/2020

This course provides students who manage and maintain SQL Server databases with the knowledge and skills to performance tune and optimize their databases.

This course is based on the objectives of the course version 10987C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

10990: Analyzing Data with SQL Server Reporting Services (SQL Server 2016)

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

10990: Analyzing Data with SQL Server Reporting Services course teaches the students how to

implement a SQL Server 2016 Reporting Services solution for data analysis in an organization. The course discusses how to use the Reporting Services development tools to create and manage reports and implement self-service BI solutions.

This course is based on the objectives of the course version 10990C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20761: Querying Data with Transact-SQL (SQL Server 2017)

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
12/07/2020 – 12/11/2020

This course is designed to introduce students to Transact-SQL. It is designed in such a way that the first three days can be taught as a course to students requiring the knowledge for other courses in the SQL Server curriculum. Days 4 & 5 teach the remaining skills required to take exam 70-761.

This course is based on the objectives of the course version 20761C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20762: Developing SQL Databases (SQL Server 2017)

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
12/14/2020 – 12/18/2020

This five-day instructor-led course provides students with the knowledge and skills to develop a Microsoft SQL Server database. The course focuses on teaching individuals how to use SQL Server product features and tools related to developing a database.

This course is based on the objectives of the course version 20762C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20764: Administering a SQL Database Infrastructure (SQL Server 2017)

40 Hours | $2,975

Schedules

06/01/2020 – 06/05/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

20764: Administering a SQL Database Infrastructure (SQL Server 2017) course provides students who administer and maintain SQL Server databases with the knowledge and skills to administer a SQL server database infrastructure. Additionally, it will be of use to individuals who develop applications that deliver content from SQL Server databases.

This course is based on the objectives of the course version 20764C.

Note: E-learning module (Microsoft On Demand, MOD) is also available for this course.

20765: Provisioning SQL Databases (SQL Server 2017)

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/21/2020 – 09/25/2020
10/26/2020 – 10/30/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

20765: Provisioning SQL Databases (SQL Server 2017) course is designed to teach students how to provision SQL Server databases both on premise and in SQL Azure.

This course is based on the objectives of the course version 20765C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20767: Implementing a SQL Data Warehouse (SQL Server 2017)

40 Hours | $2,975

Schedules

07/20/2020 – 07/24/2020
08/03/2020 – 08/07/2020
09/21/2020 – 09/25/2020
10/19/2020 – 10/23/2020
11/30/2020 – 12/04/2020

This course provides students with the knowledge and skills to provision a Microsoft SQL Server database. The course covers SQL Server provision both on-premise and in Azure, and covers installing from new and migrating from an existing install.

This course is based on the objectives of the course version 20767C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20768: Developing SQL Data Models SQL Server (SQL Server 2017)

24 Hours | $1,775

Schedules

07/27/2020 – 07/29/2020
08/10/2020 – 08/12/2020
09/28/2020 – 09/30/2020
10/26/2020 – 10/28/2020
12/07/2020 – 12/09/2020

The focus of this 20768: Developing SQL Data Models SQL Server course is on creating managed enterprise BI solutions. It describes how to implement both multidimensional and tabular data models and how to create cubes, dimensions, measures, and measure groups. This course helps you prepare for the Exam 70-768.

This course is based on the objectives of the course version 20768C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

40562: Microsoft Cloud Workshop: Migrating SQL Databases to Azure

8 Hours | $995

Schedules

06/15/2020 – 06/15/2020
08/10/2020 – 08/10/2020
10/13/2020 – 10/13/2020
12/14/2020 – 12/14/2020

In this workshop, you will work as a group to setup and configure a serverless architecture within Azure using a combination of Azure Functions, Logic Apps, Event Grid, Cosmos DB, and Azure Storage. The focus is on removing server management from the equation, breaking down the solution into smaller components that are individually scalable, and allowing the customer to only pay for what they use.

This course is based on the objectives of the course version 40562G.

55246: SQL Always On High Availability with SQL 2016

24 Hours | $1,795

Schedules

06/22/2020 – 06/24/2020
07/27/2020 – 07/29/2020
09/02/2020 – 09/04/2020
10/14/2020 – 10/16/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

The SQL Always On High Availability with SQL 2016 course is designed for database administrators and Windows engineers to familiarize them with the concepts in SQL AlwaysOn and High Availability. The course utilizes SQL 2016, but explains the differences from SQL 2012- SQL 2014.

This course is based on the objectives of the course version 55246A.

DP-050T00: Migrate SQL Workloads to Azure

16 Hours | $1,195

Schedules

06/08/2020 – 06/09/2020
08/03/2020 – 08/04/2020
10/05/2020 – 10/06/2020
12/21/2020 – 12/22/2020

In this course, the students will explore the objectives of data platform modernization and how it is suitable for given business requirements. They will also explore each stage of the data platform modernization process and define what tasks are involved at each stage, such as the assessment and planning phase. Students will also learn the available migration tools and how they are suitable for each stage of the data migration process.

The student will learn how to migrate to the three target platforms for SQL based workloads; Azure Virtual Machines, Azure SQL Databases and Azure SQL Database Managed Instances. The student will learn the benefits and limitations of each target platform and how they can be used to fulfill both business and technical requirements for modern SQL workloads. The student will explore the changes that may need to be made to existing SQL based applications, so that they can make best use of modern data platforms in Azure.

This course is based on the objectives of the course version DP-050T00-A.

DP-070T00: Migrate Open Source Data Workloads to Azure

8 Hours | $995

Schedules

06/15/2020 – 06/15/2020
08/10/2020 – 08/10/2020
10/13/2020 – 10/13/2020
12/07/2020 – 12/07/2020

This course will enable the students to understand Azure SQL Database, and educate the students on what is required to migrate MySQL and PostgreSQL workloads to Azure SQL Database.

This course is based on the objectives of the course version DP-070T00-A.

MCSA: SQL 2017 Business Intelligence Development Combo

64 Hours | $4,750

Schedules

07/20/2020 – 07/29/2020
08/03/2020 – 08/12/2020
09/21/2020 – 09/30/2020
10/19/2020 – 10/28/2020
11/30/2020 – 12/09/2020

This MCSA: SQL 2017 Business Intelligence Development package is a combo of two courses: 20767: Implementing a SQL Data Warehouse & 20768: Developing SQL Data Models SOL Server. To become an MCSA: SQL 2017 Business Intelligence Development Certified you have to clear all the exams followed by the courses mentioned above.

MCSA: SQL 2017 Database Administration Combo

80 Hours | $5,950

Schedules

06/01/2020 – 06/12/2020
07/06/2020 – 07/17/2020
08/03/2020 – 08/14/2020
09/14/2020 – 09/25/2020
10/19/2020 – 10/30/2020
11/09/2020 – 11/20/2020
12/07/2020 – 12/18/2020

This MCSA: SQL 2017 Database Administration Combo package is a combo of two courses: 20764: Administering a SQL Database Infrastructure & 20765: Provisioning SQL Databases SQL Server 2016. To become an MCSA: SQL 2017 Database Administration Certified you have to clear all the exams followed by the courses above.

MCSA: SQL 2017 Database Development Combo

80 Hours | $5,950

Schedules

06/08/2020 – 06/19/2020
07/06/2020 – 07/17/2020
08/03/2020 – 08/14/2020
09/14/2020 – 09/25/2020
10/19/2020 – 10/30/2020
12/07/2020 – 12/18/2020

This MCSA: SQL 2017 Database Development Combo package is a combo of two courses: 20761: Querying Data with Transact-SQL & 20762: Developing SQL Databases SQL Server 2017. To become an MCSA: SQL 2017 Database Development Certified you have two clear all the exams 70-761 & 70-762 followed by the courses mentioned above.

Microsoft System Center Manager

10965: IT Service Management with System Center Service Manager 2016

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020
08/17/2020 – 08/21/2020
10/19/2020 – 10/23/2020
12/14/2020 – 12/18/2020

This 10965 course will provide students with the key knowledge required to deploy and configure System Center 2016 Service Manager. Using hands-on labs, students will learn the following:

- Where Service Manager sits within the System Center 2016 product
- What business and technical needs Service Manager is designed to meet
- How Service Manager aligns itself to ITIL and MOF
- How to architect and implement a System Center 2016 Service Manager deployment
- How to upgrade an existing Service Manager 2012 R2 environment to System Center 2016
- How to customize System Center 2016 Service Manager to be in line with corporate standards
- How to configure Incident and Problem Management
- How to configure Activity, Change and Release Management
- How to configure Service Requests
- How to configure Service Level Management
- How to customize the Self-Service Portal
- How to configure Reporting and Analysis
- How to troubleshoot Service Manager and perform disaster recovery
- How to create customized Service Manager forms

This course is based on the objectives of the course version 10965D

20703-1: Administering System Center Configuration Manager

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/20/2020 – 07/24/2020
09/14/2020 – 09/18/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

This five-day course describes how to use Configuration Manager and its associated site systems to efficiently manage network resources. In this five-day course, you will learn day-to-day management tasks, including how to manage applications, client health, hardware and software inventory, operating system deployment, and software updates by using Configuration Manager. You also will learn how to optimize System Center Endpoint Protection, manage compliance, and create management queries and reports.

This course is based on the objectives of the course version 20703-1B.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

Microsoft Visio

Microsoft Visio (2019/2016/2013) Combo

16 Hours | $790

Schedules

06/25/2020 – 06/26/2020
07/27/2020 – 07/28/2020
09/03/2020 – 09/04/2020
10/05/2020 – 10/06/2020
11/09/2020 – 11/10/2020
12/14/2020 – 12/15/2020

Microsoft Visio stands out among similar applications because of its unique ability to draw a wide variety of diagrams, flowcharts, workflows, and organization structures-anything that can be represented by shapes connected by lines. Most importantly, these shapes can be rearranged and with corresponding lines remaining intact. Visio has improved over the years as features common among Microsoft Office applications have been added. Today, Visio is well integrated with other members of the Office family as well as Microsoft's cloud-based services. This greatly enriches the sharing and publishing of Visio drawings.

In Microsoft Visio 2019: Level 1, you learned the basic skills needed to create and modify various Visio drawings. In Microsoft Visio 2019: Level 2, you will learn about more advanced features-making you a more efficient and effective Visio user.

Microsoft Visio Level 1 (2019/2016/2013)

8 Hours | $395

Schedules

06/25/2020 – 06/25/2020
07/27/2020 – 07/27/2020
09/03/2020 – 09/03/2020
10/05/2020 – 10/05/2020
11/09/2020 – 11/09/2020
12/14/2020 – 12/14/2020

This course is suited for those using Microsoft Visio Level 1 (2019/2016/2013). This course will be taught using Microsoft Visio. From the earliest eras of human existence, visual images have been used to represent knowledge, data, and information. Beginning with the Paleolithic cave paintings and continuing to today most complex computer networks, these images leverage the ability of the human brain to rapidly perceive patterns and trends from visual representations.

In today workplace, visual diagrams are an essential part of communication, from road maps to sales flows to process charts. Microsoft® Visio® provides you with an intuitive, customizable tool to easily create a professional-looking visual product by using its extensive gallery of shapes. By following the exercises in this course, you will create visually engaging diagrams, maps, and drawings, using graphical elements to make information easier to comprehend.

Microsoft Visio Level 2 (2019/2016/2013)

8 Hours | $395

Schedules

06/26/2020 – 06/26/2020
07/28/2020 – 07/28/2020
09/04/2020 – 09/04/2020
10/06/2020 – 10/06/2020
11/10/2020 – 11/10/2020
12/15/2020 – 12/15/2020

This course is suited for those using Microsoft Visio Level 2 (2019/2016/2013). This course will be taught using Microsoft Visio. Microsoft Visio stands out among similar applications because of its unique ability to draw a wide variety of diagrams, flowcharts, workflows, and organization structures-anything that can be represented by shapes connected by lines. Most importantly, these shapes can be rearranged and with corresponding lines remaining intact. Visio has improved over the years as features common among Microsoft® Office

applications have been added. Today, Visio is well integrated with other members of the Office family as well as Microsoft's cloud-based services. This greatly enriches the sharing and publishing of Visio drawings.

In Microsoft Visio (2019/2016/2013) Level 1, you learned the basic skills needed to create and modify various Visio drawings. In Microsoft Visio (2019/2016/2013) Level 2, you will learn about more advanced features-making you a more efficient and effective Visio user.

Microsoft Windows

10982: Supporting and Troubleshooting Windows 10

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/03/2020 – 08/07/2020
09/14/2020 – 09/18/2020
10/19/2020 – 10/23/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

This course is designed to provide students with the knowledge and skills required to support and troubleshoot Windows 10 PCs and devices in a Windows Server domain environment. These skills include understanding of Windows 10 features, how they can be used in an Active Directory environment and how to troubleshoot them.

This course is based on the objectives of the course version 10982D.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20703-1: Administering System Center Configuration Manager

40 Hours | $2,975

Schedules

06/08/2020 – 06/12/2020
07/20/2020 – 07/24/2020
09/14/2020 – 09/18/2020
11/02/2020 – 11/06/2020
12/14/2020 – 12/18/2020

This five-day course describes how to use Configuration Manager and its associated site systems to efficiently manage network resources. In this five-day course, you will learn day-to-day management tasks, including how to manage

applications, client health, hardware and software inventory, operating system deployment, and software updates by using Configuration Manager. You also will learn how to optimize System Center Endpoint Protection, manage compliance, and create management queries and reports.

This course is based on the objectives of the course version 20703-1B.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

Microsoft Windows Server

20740: Installation, Storage, and Compute with Windows Server 2016

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020
07/06/2020 – 07/10/2020
07/27/2020 – 07/31/2020
09/14/2020 – 09/18/2020
09/14/2020 – 09/18/2020
10/26/2020 – 10/30/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

This course is designed primarily for IT professionals who have some experience with Windows Server. It is designed for professionals who will be responsible for managing storage and compute by using Windows Server 2016, and who need to understand the scenarios, requirements, and storage and compute options that are available and applicable to Windows Server 2016.

This course is based on the objectives of the course version 20740C

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20741: Networking with Windows Server 2016

40 Hours | $2,975

Schedules

06/01/2020 – 06/05/2020
07/13/2020 – 07/17/2020
09/21/2020 – 09/25/2020
11/16/2020 – 11/20/2020

This course provides the fundamental networking skills required to deploy and support Windows

Server 2016 in most organizations. It covers IP fundamentals, remote access technologies, and more advanced content including Software Defined Networking.

This course is based on the objectives of the course version 20741B

Note: E-learning module (Microsoft On Demand, MOD) is also available for this course.

20742: Identity with Windows Server 2016

40 Hours | $2,975

Schedules

07/20/2020 – 07/24/2020
09/28/2020 – 10/02/2020
11/23/2020 – 11/27/2020

This course teaches IT Pros how to deploy and configure Active Directory Domain Services (AD DS) in a distributed environment, how to implement Group Policy, how to perform backup and restore, and how to monitor and troubleshoot Active Directory-related issues with Windows Server 2016. Additionally, this course teaches how to deploy other Active Directory server roles such as Active Directory Federation Services (AD FS) and Active Directory Certificate Services (AD CS).

This course is based on the objectives of the course version 20742B

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

20744: Securing Windows Server 2016

40 Hours | $2,975

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020
10/12/2020 – 10/16/2020
12/07/2020 – 12/11/2020

Securing Windows Server 2016 course teaches IT professionals how they can enhance the security of the IT infrastructure that they administer. This course begins by emphasizing the importance of assuming that network breaches have occurred already, and then teaches you how to protect administrative credentials and rights to help ensure that administrators can perform only the tasks that they need to, when they need to.

This course explains how you can use auditing and the Advanced Threat Analysis feature in Windows Server 2016 to identify security issues. You will also learn how to mitigate malware threats, secure your virtualization platform, and use deployment options such as Nano server and containers to enhance security. The course also explains how you can help protect access to files by using encryption and dynamic access control, and how you can enhance your network's security.

This course is based on the objectives of the course version 20744C.

Note: E- learning module (Microsoft On Demand, MOD) is also available for this course.

50255: Managing Windows Environments with Group Policy

40 Hours | $2,975

Schedules

06/01/2020 – 06/05/2020
08/03/2020 – 08/07/2020
10/05/2020 – 10/09/2020
12/07/2020 – 12/11/2020

In this Managing Windows Environments with Group Policy course you will learn how to reduce costs and increase efficiencies in your network. You will discover how to consolidate the administration of an enterprise IT infrastructure with Group Policy, and

you will learn to control and manage computer systems and domain users running Windows Server and Windows clients. Create Group Policies, implement administrative and security templates, and determine best practices when deploying software packages. Walk away with the experience and tools needed to optimize your enterprise systems and networks.implement administrative and security templates, and determine best practices when deploying software packages. Walk away with the experience and tools needed to optimize your enterprise systems and networks.

55152: Fundamentals of Active Directory

8 Hours | $595

Schedules

08/03/2020 – 08/03/2020
10/12/2020 – 10/12/2020
12/14/2020 – 12/14/2020

55152: Fundamentals of Active Directory course is intended for IT professionals and IT managers who work with Active Directory or supervise IT professionals that work with Active Directory. Additionally, IT professionals that work with products that integrate with Active Directory such as Exchange can also benefit. In this course, students learn how and why Active Directory was developed by Microsoft, the fundamental architecture, basic design, management, as well as security and fundamentals for cloud integration with services like Azure.

MCSA: Windows Server 2016 Combo

120 Hours | $8,925

Schedules

06/01/2020 – 06/05/2020
07/06/2020 – 07/24/2020
09/14/2020 – 10/02/2020
11/09/2020 – 11/27/2020

The Microsoft Certified Solutions Associate (MCSA): Windows Server 2016 certification shows that you have the primary set of Windows Server skills that are relevant across multiple solution areas in a business environment. Earning an MCSA: Windows Server 2016 certification qualifies you for a position as a network or computer systems administrator or as a computer network specialist, and it is the first step on your path to becoming a Microsoft Certified Solutions Expert (MCSE).

This package is comprised of a series of three courses that follows the exam objectives for MCSA: Windows Server 2016 certification.

MCSA: Windows Server 2016 Exams:

- MCSA: Windows Server 2016 Exam 1: 740: Installation, Storage, and Compute with Windows Server 2016
- MCSA: Windows Server 2016 Exam 2: 741: Networking with Windows Server 2016
- MCSA: Windows Server 2016 Exam 3: 742: Identity with Windows Server 2016

Microsoft Word

Word (2019/2016/2013) Combo

24 Hours | $885

Schedules

06/15/2020 – 06/17/2020
07/20/2020 – 07/22/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

These days, most people take electronic word processing for granted. While we may still write out our grocery lists with pen and paper, we expect to use a computer to create the majority of our documents. Its impossible to avoid word-processing software in many areas of the business world. Managers, lawyers, clerks, reporters, and editors rely on this software to do their jobs. Whether you are an executive secretary or a website designer, you'll need to know the ins and outs of electronic word processing.

Microsoft Word (2019/2016/2013) is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

Word Level 1 (2019/2016/2013)

8 Hours | $295

Schedules

06/15/2020 – 06/15/2020
07/20/2020 – 07/20/2020
08/17/2020 – 08/17/2020
09/21/2020 – 09/21/2020
10/19/2020 – 10/19/2020
11/16/2020 – 11/16/2020
12/14/2020 – 12/14/2020

These days, most people take electronic word processing for granted. While we may still write out our grocery lists with pen and paper, we expect to use a computer to create the majority of our documents. It's impossible to avoid word-processing software in many areas of the business world. Managers, lawyers, clerks, reporters, and editors rely on this software to do their jobs. Whether you are an executive secretary or a website designer, you'll need to know the ins and outs of electronic word processing.

Microsoft Word 2019 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word 2019 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

Word Level 1 (2019/2016/2013) training covers the creation and editing of documents, formatting, adding tables and lists, adding design elements, and layout options. Learn Microsoft Word Level 1 (2019/2016/2013) by exploring all the built-in options that make work easy and fun. This Microsoft Office Word 2019 essential training is the first step toward becoming an expert in working with Word.

Word Level 2 (2019/2016/2013)

8 Hours | $295

Schedules

06/16/2020 – 06/16/2020
07/21/2020 – 07/21/2020
08/18/2020 – 08/18/2020
09/22/2020 – 09/22/2020
10/20/2020 – 10/20/2020
11/17/2020 – 11/17/2020
12/15/2020 – 12/15/2020

After you master the basics of using Microsoft Word such as creating, editing, and saving documents; navigating through a document; and printing, you're ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

The Microsoft Office Word Level 2 (2019/2016/2013) essential training is conducted by certified trainers via a hands-on approach and guides learners through the multiple options and tools available in the application. The program is designed to build the user's expertise for all their word processing objectives.

Word Level 3 (2019/2016/2013)

8 Hours | $295

Schedules

06/17/2020 – 06/17/2020
07/22/2020 – 07/22/2020
08/19/2020 – 08/19/2020
09/23/2020 – 09/23/2020
10/21/2020 – 10/21/2020
11/18/2020 – 11/18/2020
12/16/2020 – 12/16/2020

This course is suited for those using Microsoft Word Level 3 (2019/2016/2013). This course will be taught using Microsoft Word. After you have learned to draft documents by getting familiar with the full features and customization tools of Microsoft Word, it is time to know more than simple word processing. The Microsoft Level 3 (2019/2016/2013) course from

The Word Level 3 (2019/2016/2013) training class covers tools other than word processing, like manipulation tools, cross-referencing and linking tools, security features, entry forms and data collection, and document production automation tools. Candidates explore how to create lengthy documents in an easy manner, and how to collaborate with others through this Word Level 3 (2019/2016/2013) training.

Imparted by certified instructors, the proactive Microsoft Office Word training prepares aspirants to accomplish tasks by using Word efficiently. The training includes a hands-on approach to ensure learners are able to handle complex tasks easily upon course completion.

Mile2 Certified Application and Secure Code

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Certified Secure Web Application Engineer (C)SWAE) – Specialized

40 Hours | $3,500

Schedules

07/27/2020 – 07/31/2020

Certified Secure Web Application Engineer certification course provides the developer with a thorough and broad understanding of secure application concepts, principles and standards. The student will be able to design, develop and test web applications that will provide reliable web services that meet functional business requirements and satisfy compliance and assurance needs.

The Certified Secure Web Application Engineer course is delivered by high level OWASP experts and students can expect to obtain real world security knowledge that enables them to recognize vulnerabilities, exploit system weaknesses and help safeguard against application threats.

Mile2 Certified Security Principles (C)SP) – Fundamental

40 Hours | $2,500

Schedules

06/08/2020 – 06/12/2020
08/03/2020 – 08/07/2020

Certified Security Principles course provides the skills necessary to apply and implement technical knowledge of security concepts in today's security environment. Students will gain an in-depth knowledge of systems security, access control, network infrastructure, assessments and audits, cryptography and organizational security across all vendor products.

Mile2 Certified Auditing

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Certified Cloud Security and Virtualization

Mile2 Certified Cloud Security Officer (C)CSO) – Specialized

40 Hours | $4,000

Schedules

06/01/2020 – 06/05/2020

This course provides knowledge combined into one source from the leading global standards. It will offer practical skills regarding implementing cloud security, auditing and compliance. This is all managed by a unique delivery of cloud security along with the hands-on labs needed to truly understand what is happening to your data at all the layers of the cloud stack. This is a relevant course which introduces many technologies used in the cloud from implementing a private cloud architecture to using a new key management solution from various vendors.

Mile2 Certified Disaster Recovery

Mile2 Certified Disaster Recovery Engineer (C)DRE) – Specialized

32 Hours | $2,500

Schedules

08/17/2020 – 08/20/2020

The Certified Disaster Recovery Engineer course goes beyond traditional BCP training: preparing students for industry certification in Business Continuity planning and presenting the latest methodologies and best practices for real-world systems recovery.

Students will receive a solid foundation of instruction that will enable them to create meaningful business continuity plans. This course offers up-to-date information that has been developed by leading risk management professionals. The goal of this course is to keep a business-critical operation running, which today relies heavily on its IT infrastructure.

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Certified Healthcare

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Certified Incident Handling and Forensics

Mile2 Certified Digital Forensics Examiner (C)DFE) – Foundational

40 Hours | $3,000

Schedules

07/20/2020 – 07/24/2020

The Certified Digital Forensics Examiner certification course is designed to train Cyber Crime and Fraud Investigators whereby students are taught electronic discovery and advanced investigation techniques. This course is essential to anyone encountering digital evidence while conducting an investigation. Mile2's Certified Digital Forensics Examiner training teaches the methodology for conducting a computer forensic examination.

Students will learn to use forensically sound investigative techniques in order to evaluate the scene, collect and document all relevant information, interview appropriate personnel, maintain chain-of-custody, and write a findings report.

Mile2 Certified Incident Handling Engineer (C)IHE) – Specialized

40 Hours | $3,500

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020

The Certified Incident Handling Engineer certification course is designed to help Incident Handlers, System Administrators, and any General Security Engineers understand how to plan, create and utilize their systems in order to prevent, detect and respond to attacks. In this in-depth training, students will learn step-by-step approaches used by hackers globally, the latest attack vectors and how to safeguard against them, Incident Handling procedures (including developing the process from start to finish and establishing your Incident Handling team), strategies for each type of attack, recovering from attacks and much more.

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Certified Network Forensics Examiner (C)NFE) – Advanced

40 Hours | $3,500

Schedules

06/01/2020 – 06/05/2020
08/10/2020 – 08/14/2020

The Certified Network Forensics Examiner certification course was developed for a U.S. classified government agency. The C)NFE takes a

digital and network forensic skill set to the next level by navigating through over twenty modules of network forensic topics. It provides practical experience through our lab exercises that simulate real-world scenarios that cover investigation and recovery of data in a network, Physical Interception, Traffic Acquisition, Analysis, Wireless Attacks, and SNORT. The course focuses on the centralizing and investigating of logging systems as well as network devices.

Mile2 Certified Information Awareness Services (IAS) Leadership and Management

Mile2 Certified Information Systems Risk Manager (C)ISRM) – Foundational

24 Hours | $2,500

Schedules

08/03/2020 – 08/05/2020

Certified Information Systems Risk Manager certification is designed for IT and IS professionals who are involved with risk identification, assessment& evaluation, risk response, risk monitoring, IS control design & implementation as well as IS control monitoring & maintenance.

The Certified Information Systems Risk Manager training will enable professionals to elevate their understanding in identifying and evaluating entity-specific risk but also aid them in assessing risks associated to enterprise business objectives by equipping the practitioner to design, implement, monitor and maintain risk-based, efficient and effective IS controls.

The Certified Information Systems Risk Manager covers 5 critical subjects; Risk Identification Assessment and Evaluation, Risk Response, Risk Monitoring, IS Control Design and Implementation and IS Control Monitoring & Maintenance.

Mile2 Certified Information Systems Security Manager (C)ISSM) – Fundamental

32 Hours | $2,500

Schedules

06/08/2020 – 06/11/2020
08/24/2020 – 08/27/2020

The Certified Information Systems Security Manager covers the skills and knowledge to assess threat analysis and risks, Risk &incident management, Security programs and CISO roles, IS security strategy and frameworks, Audit and Risk management creation of policies, compliance and awareness, as well as DR and BCP development, deployment and maintenance.

The Certified Information Systems Security Manager will receive in-depth knowledge in topics that pertain to the following: Information Security Governance, Information Risk Management & Compliance, Information Security Program Development & Management and Information Security Incident management.

Mile2 Certified Information Systems Security Officer (C)ISSO) – Foundational

40 Hours | $3,000

Schedules

06/22/2020 – 06/26/2020

Certified Information Systems Security Officer addresses the broad range of industry best practices, knowledge and skills expected of a security manager/officer. The candidate will learn in-depth theory pertaining to the practical implementation of core security concepts, practices, monitoring and compliance in the full panorama of IS management.

Using a risk-based approach, the CISSO can implement and maintain cost-effective security controls that are closely aligned with both business and industry standards. Whether you're responsible for the management of a Cyber Security team, a Security Officer, an IT auditor or a Business Analyst, the C)ISSO certification course is an ideal way to increase your knowledge, expertise, and skill.

Mile2 Information Systems Certification & Accreditation Professional (ISCAP) – Specialized

24 Hours | $2,500

Schedules

08/10/2020 – 08/12/2020

Information Systems Certification and Accreditation Professional certification training quantifies the process of certifying, reviewing and accrediting an information system by IT professionals. This certification is designed to provide, through its contents and referenced resources, a complete guide to establishing a certified and accredited information system in any organization.

This course was created as a standard to measure the set of skills that specific members of an organization are required to have for the practice of certifying, reviewing and accrediting the security of information systems. Specifically, this training was designed for the individuals who are responsible for creating and implementing the processes used to evaluate risk and institute security baselines and requirements. These critical decisions will be essential in making sure that the security of the information systems outweighs the potential risks to an organization from any internal or external threats.

Mile2 Top 20 Information Systems Security Controls (IS20 Security Controls) – Specialized

24 Hours | $2,500

Schedules

07/13/2020 – 07/15/2020

IS20 Controls certification course covers proven general controls and methodologies that are used to execute and analyze the Top Twenty Most Critical Security Controls. This course allows the security professional to see how to implement controls in their existing network(s) through highly effective and economical automation.

For management, this training is the best way to distinguish how you'll assess whether these security controls are effectively being administered or if they are falling short of industry standards. Nearly all organizations containing sensitive information are adopting and implementing the most critical security controls as the highest priority list.

Mile2 Certified Pen Testing and Hacking

Mile2 Certified Penetration Testing Consultant (C)PTC) – Advanced

40 Hours | $3,500

Schedules

07/27/2020 – 07/31/2020

Certified Penetration Testing Consultant course is designed for IT Security Professionals and IT Network Administrators who are interested in taking an in-depth look into specific Penetration tests and techniques against operating systems. This course will teach you the necessary skills to work as a penetration testing team, the exploitation process, how to create a buffer overflow against programs running on Windows and Linux while subverting features such as DEP and ASLR.

Mile2 Certified Penetration Testing Engineer (C)PTE) – Specialized

40 Hours | $3,000

Schedules

06/15/2020 – 06/19/2020
08/24/2020 – 08/28/2020

Certified Penetration Testing Engineer (C)PTE) certification course is built firmly upon proven, hands-on, Penetration Testing methodologies utilized by international group of Penetration Testing Consultants.

The C)PTE presents information based on the 5 Key Elements of Pen Testing; Information Gathering, Scanning, Enumeration, Exploitation, and Reporting. The latest vulnerabilities will be discovered using these tried and true techniques.

Mile2 Certified Powershell Hacker (C)PSH) – Advanced

32 Hours | $3,000

Schedules

08/17/2020 – 08/20/2020

This course covers the keys of hacking with PowerShell. The course is based on real world implementations of a windows infrastructure along with real world penetration testing techniques. You will leave with a real strong skill set to help test your windows environment like never. An attendee will also walk away with a strong skill set on how to help prevent these attacks from happening in the first place.

Mile2 Certified Vulnerability Assessor (C)VA) – Fundamental

24 Hours | $2,500

Schedules

07/13/2020 – 07/15/2020

Certified Vulnerability Assessor certification course helps students understand the importance of vulnerability assessments by providing intricate knowledge and skills in the Vulnerability Assessment arena. The CVA course provides foundational knowledge of general VA tools as well as popular exploits an IT engineer should be familiar with.

The C)VA is a fundamental cybersecurity certification course that focuses on vulnerability assessments. The CVA course focuses on foundational information such as the importance of a Vulnerability Assessment and how it can help an engineer prevent serious break-ins to your organization.

OpenShift

DO180 Introduction to Containers, Kubernetes, and Red Hat OpenShift

24 Hours | $2,700

Schedules

06/15/2020 – 06/18/2020
07/13/2020 – 07/16/2020
07/20/2020 – 07/23/2020
07/27/2020 – 07/30/2020
08/10/2020 – 08/13/2020
08/24/2020 – 08/27/2020
09/14/2020 – 09/17/2020
09/28/2020 – 10/01/2020

Learn to build and manage containers for deployment on a Kubernetes and Red Hat OpenShift cluster

Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) helps you build core knowledge in managing containers through hands-on experience with containers, Kubernetes, and the Red Hat® OpenShift® Container Platform. These skills are needed for multiple roles, including developers, administrators, and site reliability engineers.

This course is based on Red Hat OpenShift Container Platform 4.2.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO285 Containers, Kubernetes, and Red Hat OpenShift Administration I

40 Hours | $4,500

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
07/27/2020 – 07/31/2020
08/10/2020 – 08/14/2020

08/24/2020 – 08/28/2020
09/14/2020 – 09/18/2020

Learn to build and manage Linux containers and configure and manage an OpenShift cluster

Containers, Kubernetes, and Red Hat OpenShift Administration I (DO285) helps you build core knowledge in building and managing Linux® containers and Red Hat® OpenShift® Container Platform. This hands-on, lab-based course shows you how to deploy sample applications to either a local container runtime or an OpenShift cluster, as well as how to configure and manage OpenShift clusters. If you're a developer, administrator or site reliability engineer, you will benefit from learning these skills.

This course is based on Red Hat OpenShift Container Platform 4.2 and combines the content from Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) and Red Hat OpenShift Administration I (DO280).

DO288 Red Hat OpenShift Development I: Containerizing Applications

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
07/27/2020 – 07/31/2020
09/14/2020 – 09/18/2020

Hands-on training to boost developer productivity powered by Red Hat OpenShift

Red Hat OpenShift Development I: Containerizing Applications (DO288) enhances understanding of containers as a key technology for configuring and deploying applications and microservices. As the second course in the OpenShift development track, this offering will teach you how to design, build, and deploy containerized software applications to an OpenShift cluster.

Whether you're writing container-native applications or migrating existing brownfield applications, you'll learn how to boost developer productivity powered by Red Hat® OpenShift Container Platform, a containerized application platform that allows enterprises to manage container deployments and scale their applications using Kubernetes.

This course is based on Red Hat OpenShift Container Platform 4.2.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO292 Red Hat OpenShift Development II: Creating Microservices with Red Hat OpenShift Application Runtimes

30 Hours | $3,600

Schedules

08/31/2020 – 09/04/2020

Developing microservices using Red Hat OpenShift Application Runtimes

Red Hat OpenShift Development II: Creating Microservices with Red Hat OpenShift Application Runtimes (DO292) introduces you to three runtimes: WildFly Swarm, Vert.x, and Spring Boot. This course is an intensive, hands-on programming experience in which you will develop multiple microservices using the three runtimes and deploy them on a Red Hat® OpenShift Container Platform cluster.

This course is based on Red Hat® Enterprise Linux 7.5 and OpenShift Container Platform 3.9.

Like members of many organizations, you may be interested in or are already employing microservice architectures. We have introduced solutions to ease the on-ramp for the creation and deployment of

microservices through its developer programs and Red Hat® OpenShift Application Runtimes.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO295 Containers, Kubernetes, and Red Hat OpenShift Development I

40 Hours | $4,500

Schedules

06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/21/2020 – 09/25/2020

Accelerated hands-on training to boost developer productivity powered by Red Hat OpenShift

Containers, Kubernetes, and Red Hat OpenShift Development I (DO295) teaches you how to design, build, and deploy containerized software applications to an OpenShift® cluster. Whether you are tasked with writing container-native applications or migrating existing brownfield applications, this course provides hands-on training to boost developer productivity powered by Red Hat OpenShift.

DO380 Red Hat OpenShift Administration II: High Availability

30 Hours | $3,600

Schedules

07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020

Design, build, and test OpenShift HA cluster

Red Hat OpenShift Administration II teaches you how to build robust clusters that provide high availability and the ability to run large numbers of applications. You will learn about OpenShift integration with datacenter infrastructure such as load balancers, identity management, monitoring, proxies, and storage. You will also develop more troubleshooting and Day 2 operations skills in this course.

This course is based on Red Hat® OpenShift Container Platform 3.6.

You will design an OpenShift HA cluster, then build and test it. You will use this cluster to examine more advanced topics in the administration and operation of a robust OpenShift cluster in the remainder of the course.

DO425 Red Hat Security: Securing Containers and OpenShift

30 Hours | $3,600

Schedules

06/22/2020 – 06/26/2020
08/03/2020 – 08/07/2020
09/28/2020 – 10/02/2020

Learn to mitigate and manage threats to OpenShift container-based infrastructure

Red Hat Security: Securing Containers and OpenShift (DO425) is designed to help infrastructure administrators and security professionals learn to identity and mitigate threats to OpenShift container-based infrastructure. The curriculum also covers how to implement and manage secure architecture, policies, and procedures for modern containerized applications and software-defined networking.

This course is based on Red Hat®Enterprise Linux® 7.5, Red Hat® OpenShift® Container Platform 3.11, and Red Hat® Identity Manager 7.5.

You will learn about using secure and trusted container images, registries, and source code; managing network and storage isolation;

implementing application single sign-on; and configuring appropriate security constraints and service role–based access control. You will also find out how existing core Linux technologies-such as namespaces, cgroups, seccomp, capabilities, and SELinux-provide a robust and mature host environment with strongly secure containers.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

OpenShift Enterprise Administration (DO280)

24 Hours | $2,700

Schedules

06/22/2020 – 06/25/2020
07/06/2020 – 07/09/2020
07/20/2020 – 07/23/2020
08/03/2020 – 08/06/2020
08/17/2020 – 08/20/2020
08/31/2020 – 09/03/2020
09/21/2020 – 09/24/2020

In this course, you will learn how to install, configure, and manage Red Hat OpenShift Enterprise (OSE) instances. OpenShift Enterprise by Red Hat is a Platform-as-a-Service (PaaS) product that provides pre-defined deployment environments for applications of all types through its use of container technology. This enables an environment that supports DevOps principles such as reduced time-to-market and continuous delivery. You will learn how to install and configure an instance of OpenShift Enterprise by Red Hat, test the instance by deploying a real world application, and manage projects and applications through hands-on labs.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Oracle Primavera

Primavera P6 Fundamentals Rel 16

24 Hours | $2,325

Schedules

08/03/2020 – 08/05/2020
10/05/2020 – 10/07/2020
11/30/2020 – 12/02/2020

This Primavera P6 Fundamentals training teaches you how to create a project, add activities and relationships, assign resources, adjust the project plan to account for schedule delays and overallocated resources and analyze portfolios. You'll also learn how to customize the Personal Workspace and the Project Workspace to monitor project progress and communicate with team members.

Note: This course uses P6, Primavera Web-based project management tool.

Primavera P6 Professional Advanced Rel 16

16 Hours | $1,550

Schedules

06/18/2020 – 06/19/2020
08/13/2020 – 08/14/2020
10/15/2020 – 10/16/2020
12/10/2020 – 12/11/2020

This Primavera P6 Professional Advanced training teaches you about resource management topics like manual allocation, bucket planning and leveling. Project management topics include earned value analysis and advanced scheduling.

Primavera P6 Professional Combo

40 Hours | $3,875

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020
10/12/2020 – 10/16/2020
12/07/2020 – 12/11/2020

Combo comprises of the following two courses :

- Primavera P6 Professional Fundamentals Rel 16
- Primavera P6 Professional Advanced Rel 16

Primavera P6 Professional Fundamentals Rel 16

24 Hours | $2,325

Schedules

06/15/2020 – 06/17/2020
08/10/2020 – 08/12/2020
10/12/2020 – 10/14/2020
12/07/2020 – 12/09/2020

This Primavera P6 Professional Fundamentals training leads you through the entire project life cycle, from planning to execution. You'll develop a thorough understanding of how to plan, schedule, and control the project.

The training focus on the three basic elements of project management: schedule, resources and costs. At the end of each day, you'll apply the concepts and functionality you learned in a case study. The course is divided into three sections: Creating a Project; Scheduling the Project; Project Execution and Control.

Note: This course uses P6 Professional, Primavera's Optional Client (Windows-based), client/server application. It is appropriate for those using P6 Professional either as a stand-alone application or as part of P6 EPPM.

Palo Alto

Palo Alto Combo

112 Hours | $14,685

Schedules

06/01/2020 – 06/17/2020

This package comprises of the following courses :

- Palo Alto Firewall 9.0: Essentials-Configuration and Management (EDU-210)
- Palo Alto Panorama 9.0: Managing Firewalls at Scale (EDU-220)
- Palo Alto Firewall 9.0: Troubleshooting (EDU-330)
- Palo Alto Firewall 9.0: Optimizing Firewall Threat Prevention (EDU-214)

Palo Alto Firewall 9.0: Essentials, Configuration and Management (EDU-210)

40 Hours | $5,000

Schedules

06/01/2020 – 06/05/2020

This course enhances the student's understanding of how to configure and manage Palo Alto Networks next-generation firewalls. The student will learn and get hands-on experience configuring, managing, and monitoring a firewall in a lab environment.

Palo Alto Firewall 9.0: Optimizing Firewall Threat Prevention (EDU-214)

32 Hours | $4,195

Schedules

06/14/2020 – 06/17/2020

This course will enhance the student's understanding of how to better configure, manage, and monitor PAN-OS threat prevention features. The student will get hands-on experience configuring, managing, and

monitoring threat prevention features in a lab environment.

Palo Alto Firewall 9.0: Troubleshooting (EDU-330)

24 Hours | $3,195

Schedules

06/09/2020 – 06/11/2020

In this course you will learn how to troubleshoot the full line of Palo Alto Networks next-generation firewalls. You will develop in-depth knowledge of how to troubleshoot visibility and control over applications, users, and content. In a hands-on environment, you will also troubleshoot common problems related to the configuration and operation of the security features of the Palo Alto Networks PAN-OS operating system.

PHP

PHP Fundamentals

16 Hours | $1,195

Schedules

06/29/2020 – 06/30/2020
08/24/2020 – 08/25/2020
09/28/2020 – 09/29/2020
10/26/2020 – 10/27/2020
12/03/2020 – 12/04/2020

PHP is commonly used for website and web application development. PHP is a general purpose language which is built to make dynamic pages and applications on the server-side. It is secure, fast, and reliable and offers lots of advantages that make it accessible to a lot of people. PHP has gained the title as one of the most commonly used programming language for the web industry.

It is estimated that over 83% of websites in the market use PHP as its scripting language for server side transactions. PHP is used by tech giants like Facebook, Wikipedia, Tumbler, and so on. Take this course if you want to learn the server-side scripting language used by developers all over the world.

This course will get you up to speed starting with basic concepts such as variables, data types, arrays and loops. It then progresses to more advanced concepts such as building your own frameworks and creating your own app.

PMI Agile Certified Practitioner (PMI-ACP)

PMI Agile Certified Practitioner (PMI-ACP)

24 Hours | $1,299

Schedules

06/15/2020 – 06/17/2020
07/13/2020 – 07/15/2020
08/17/2020 – 08/19/2020
09/21/2020 – 09/23/2020
10/19/2020 – 10/21/2020
11/16/2020 – 11/18/2020
12/14/2020 – 12/16/2020

If you're experienced using agile approaches, have good collaboration skills, eagerly embrace complexity and thrive on rapid response times, then your talents are in demand.

The Project Management Institute Agile Certified Practitioner (PMI-ACP) formally recognizes your knowledge of agile principles and your skill with agile techniques. It will make you shine even brighter to your employers, stakeholders, and peers. The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you.

What you will receive:
- Expert-led lectures
- Real-life examples
- 24 PMI PDUs (Based on course delivery & assignment hours)
- Tips and tricks to conquer the exam
- Assistance with the PMI application process.

PMI Professional in Business Analysis (PMI-PBA)

PMI Professional in Business Analysis (PMI-PBA)

40 Hours | $1,999

Schedules

06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/17/2020 – 08/21/2020
08/24/2020 – 08/28/2020
09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020
10/19/2020 – 10/23/2020
10/26/2020 – 10/30/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

Today more than ever the world is moving towards project-based work. The jobs of business analysts and solution builders are intermingled with project environments and management of projects. The Project Management Institute (PMI) has recognized the need to educate and certify the role of the business analyst as viewed through the lens of the project. With the introduction of the Project Management Institute Professional in Business Analysis (PMI-PBA) credential, PMI is formalizing the importance of BA work in the project management world. They have highlighted specific knowledge areas, skills, and published materials which describe the value of business analysis to projects, and built the new PMI-PBA certification around them. We teach you exactly what you need to know to pass the exam on your first try and add this newly-minted BA credential to your qualifications.

PMI Risk Management Professional (PMI-RMP)

PMI Risk Management Professional (PMI-RMP)

24 Hours | $2,295

Schedules

06/29/2020 – 07/01/2020
08/24/2020 – 08/26/2020
09/28/2020 – 09/30/2020
10/26/2020 – 10/28/2020
11/30/2020 – 12/02/2020
12/21/2020 – 12/23/2020

This course is designed for project managers who want to proactively reduce the probability of project failure. In this course, you will learn to use proven approaches and techniques specific to risk management. You will learn to plan and analyze projects so as to minimize risk in a formal environment. You will identify, analyze, and address uncertainty throughout the project lifecycle and incorporate lessons learned and industry best practices related to risk management. You will apply (PMI) risk management processes in a practical way to eliminate, mitigate, and minimize threats while maximizing and optimizing opportunities.

Programming Languages

55264: Introduction to Programming Using Python

40 Hours | $2,995

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020
10/12/2020 – 10/16/2020
12/07/2020 – 12/11/2020

Introduction to Programming Using Python course is intended for students who want to learn how to write Python code that logically solves a given problem. Candidates will learn how to write, debug, maintain and document Python code. The material will prepare students for the Microsoft certification exam 98-381.

Project Management Professional (PMP)

Project Management Professional (PMP)

40 Hours | $1,899

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
07/06/2020 – 07/10/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
11/09/2020 – 11/13/2020
12/07/2020 – 12/11/2020

If you are taking this course, you probably have some professional exposure to the duties of a project manager, or you may be considering embarking on a career in professional project management. Your ability as a project manager to demonstrate best practices in project management-both on the job and through professional certification-is becoming the standard to compete in today's fast-paced and highly technical workplace. In this course, you will apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI) to successfully manage projects.

Project managers who have proven skills and experience can find exciting, high-visibility opportunities in a wide range of fields. This course is specifically designed to provide you with the proven, practical body of project management knowledge and skills that you need to demonstrate project management mastery on the job. Additionally, this course can be a significant part of your preparation for the Project Management Professional (PMP) Certification Exam. The skills and knowledge you gain in this course will help you avoid making costly mistakes and increase your competitive edge in the project management profession.

The PMP exam content is majorly focused on *A Guide to the Project Management Body of Knowledge – Sixth Edition, (PMBOK Guide)* and other sources, this program features a wide variety of proven learning tools.

What you will receive:

- Expert led lectures
- Real-life examples
- 35 PMI PDUs (Based on course delivery & assignment hours)
- Tips and tricks to conquer the exam
- Assistance with the PMI application process

To become a certified Project Management Professional, a student must have:

- A bachelor's degree and 4,500 hours of Project Management experience, and 35 hours of classroom instruction that relate to project management objectives (NetCom's PMP training satisfies this requirement) – OR – a High School diploma or equivalent and 7,500 hours of Project Management experience.

- Supporting Documentation is required for the above qualifications.
- Pass the PMP exam, which consists of 200 multiple-choice questions to be completed in 4 hours. NetCom's Project Management Professional (PMP) Certification course will prepare you for this exam.

Don't have enough Project Management hours that you can document? PMI offers another certification track: Certified Associate in Project Management (CAPM). Click Here for the full list of NetCom courses pre-approved for Professional Development Units (PDUs).

Python

55264: Introduction to Programming Using Python

40 Hours | $2,995

Schedules

06/15/2020 – 06/19/2020
08/10/2020 – 08/14/2020
10/12/2020 – 10/16/2020
12/07/2020 – 12/11/2020

Introduction to Programming Using Python course is intended for students who want to learn how to write Python code that logically solves a given problem. Candidates will learn how to write, debug, maintain and document Python code. The material will prepare students for the Microsoft certification exam 98-381.

Python Programming – Advanced

24 Hours | $1,795

Schedules

06/17/2020 – 06/19/2020
07/15/2020 – 07/17/2020
08/19/2020 – 08/21/2020
09/23/2020 – 09/25/2020
10/28/2020 – 10/30/2020
11/18/2020 – 11/20/2020
12/16/2020 – 12/18/2020

Python continues to be a popular programming language, perhaps owing to its ability to get a lot of work done in few lines of code, and its versatility. Python is useful for developing custom software tools, applications, web services, and cloud applications. In this advanced Python course, you'll build upon your basic Python skills, learning more advanced topics such as object-oriented programming patterns, development of graphical user interfaces, data management, threading, unit testing, and creating and installing packages and executable applications.

Python Programming – Introduction

16 Hours | $1,195

Schedules

06/15/2020 – 06/16/2020
07/13/2020 – 07/14/2020
08/17/2020 – 08/18/2020
09/21/2020 – 09/22/2020
10/26/2020 – 10/27/2020
11/16/2020 – 11/17/2020
12/14/2020 – 12/15/2020

Python has been around for decades, but it's still one of the most versatile and popular programming languages out there. Whether you're relatively new to programming or have been developing software for years, Python is an excellent language to add to your skill set. In this course, you'll learn the fundamentals of programming in Python, and you'll develop applications to demonstrate your grasp of the language.

QuickBooks

Mastering QuickBooks 2018 Desktop for Windows – Combo

16 Hours | $790

Schedules

06/15/2020 – 06/16/2020
07/07/2020 – 07/08/2020
08/17/2020 – 08/18/2020
09/14/2020 – 09/15/2020
10/13/2020 – 10/14/2020
11/23/2020 – 11/24/2020
12/14/2020 – 12/15/2020

This package is a combo of both QuickBooks Level 1 & QuickBooks Level 2.

QuickBooks 2018 Desktop for Windows – Level 1

8 Hours | $395

Schedules

06/15/2020 – 06/15/2020
07/07/2020 – 07/07/2020
08/17/2020 – 08/17/2020
09/14/2020 – 09/14/2020
10/13/2020 – 10/13/2020
11/23/2020 – 11/23/2020
12/14/2020 – 12/14/2020

This training course is dedicated to providing you with a flexible, high-performance learning system. This dedication has resulted in a unique and progressive training method. Unlike other training methods that focus on theory or high-tech training products that overwhelm you, this training method provides a simple approach to learning computer software. Each guide is written to assume the user has no prior computer skills. If you are using the software for the first time, you will be introduced to its primary features. If you are familiar with the software, you will quickly learn the new features and functionality of this version. Regardless of your skill level, you will learn with the greatest of ease.

QuickBooks 2018 Desktop for Windows – Level 2

8 Hours | $395

Schedules

06/16/2020 – 06/16/2020
07/08/2020 – 07/08/2020
08/18/2020 – 08/18/2020
09/15/2020 – 09/15/2020
10/14/2020 – 10/14/2020
11/24/2020 – 11/24/2020
12/15/2020 – 12/15/2020

This training course is dedicated to providing you with a flexible, high-performance learning system. This dedication has resulted in a unique and progressive training method. Unlike other training methods that focus on theory or high-tech training products that overwhelm you, this training method provides a simple approach to learning computer software. Each guide is written to assume the user has no prior computer skills. If you are using the software for the first time, you will be introduced to its primary features. If you are familiar with the software, you will quickly learn the new features and functionality of this version. Regardless of your skill level, you will learn with the greatest of ease.

Red Hat Ansible

DO407: Automation with Ansible I

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
06/22/2020 – 06/26/2020
06/29/2020 – 07/03/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020

Through hands-on labs, students will learn to automate system administration tasks on managed hosts with Ansible, learn how to write Ansible playbooks to standardize task execution, centrally manage playbooks and schedule recurring execution through a web interface with Red Hat® Ansible Tower. Students will also learn to manage encryption for Ansible with Ansible Vault, deploy Ansible Tower and use it to manage systems, and use Ansible in a DevOps environment with Vagrant.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO417 Microsoft Windows Automation with Red Hat Ansible

30 Hours | $3,600

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020

Learn how to automate administration on Windows Server to enable your DevOps workflow

Microsoft Windows Automation with Red Hat Ansible (DO417) is designed for Windows Server professionals without previous Ansible® experience. You will use Ansible to write automation playbooks for Microsoft Windows systems to perform common system administration tasks reproducibly at scale. You will also learn to use Red Hat® Ansible Tower to securely manage and run your Ansible playbooks from a central web-based user interface.

This course is based on Red Hat Ansible Engine 2.8, Red Hat Ansible Tower 3.5, and Windows Server 2016 and 2019.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO457 Ansible for Network Automation

30 Hours | $3,600

Schedules

06/15/2020 – 06/19/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
08/31/2020 – 09/04/2020

Configure and manage network infrastructure using Red Hat Ansible Automation for Networking

Ansible for Network Automation (DO457) is designed for network administrators or infrastructure automation engineers who want to use network automation to centrally manage the switches, routers, and other devices in the organization's network infrastructure.

This course is based on Red Hat® Ansible Engine 2.5 and Red Hat® Ansible Tower 3.2.

Learn how to use Red Hat Ansible Automation for Networking to remotely automate configuration of network devices, test and validate the current network state, and perform compliance checks to detect and correct configuration drift.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Red Hat Cloud Computing, Virtualization and Storage

CEPH125 Red Hat Ceph Storage Architecture and Administration

30 Hours | $3,600

Schedules

06/15/2020 – 06/19/2020
08/03/2020 – 08/07/2020

Learn how to deploy, manage, and scale out a Ceph storage cluster

Red Hat Ceph Storage Architecture and Administration (CEPH125) helps you provide unified storage for enterprise servers and Red Hat® OpenStack Platform with Red Hat Ceph Storage. Learn to use a Ceph storage cluster to provide servers and cloud resources with object storage compatible with the Amazon S3 or OpenStack Swift APIs, Ceph-native or iSCSI-based block storage, and file storage using CephFS.

This course is based on Red Hat Ceph Storage 3.0, Red Hat Enterprise Linux 7.4/7.5, and Red Hat OpenStack Platform 10.0.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Trainings, the no. of days are subject to change.

CL110: Red Hat OpenStack Administration I

40 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020

08/31/2020 – 09/04/2020
09/28/2020 – 10/02/2020

Red Hat OpenStack Administration I (CL110) is designed for system administrators who are intending to implement a cloud computing environment using Red Hat OpenStack Platform. This course is based on Red Hat OpenStack Platform 10.This course will teach students to install a proof-of-concept, configure, use, and maintain Red Hat OpenStack Platform. The focus on this course will be managing OpenStack using the Horizon dashboard and the command-line interface and managing instances, leaving students with proof-of-concepts.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Trainings, the no. of days are subject to change.

CL210: Red Hat OpenStack Administration II

30 Hours | $3,600

Schedules

06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/14/2020 – 09/18/2020

This course will also begin the transition from administering OpenStack using Horizon to using the unified command-line interface. Exam competencies covered in the course include: install and configure Red Hat OpenStack Platform (using OpenStack Director), manage users, projects, flavors, roles, images, networking, and block storage, automation (scale-out and scale-back), and build a customized image.

This course teaches system administrators how to implement a cloud-computing environment using Red Hat® OpenStack® Platform, including installation, configuration, and maintenance.

This course can also help you prepare for the Red Hat Certified System Administrator in Red Hat OpenStack exam (EX210).

This course is based on Red Hat OpenStack Platform 8.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

CL310: Red Hat OpenStack Administration III

30 Hours | $3,600

Schedules

07/27/2020 – 07/31/2020

The Red Hat OpenStack Administration III (CL310) course provides extensive hands-on training for experienced system administrators in how to use the distributed storage features of Red Hat Ceph Storage and the networking capabilities of OpenStack Neutron. Aspirants will set up a Ceph environment and its configuration as a back end for OpenStack, and configure and use the advanced features of OpenStack Neutron.

Aspirants will set up a Ceph environment and its configuration as a back end for OpenStack, and configure and use the advanced features of OpenStack Neutron.

JB183: Red Hat Application Development I: Programming in Java EE

30 Hours | $2,880

Schedules

06/29/2020 – 07/06/2020
08/31/2020 – 09/07/2020

Helping Java SE developers write Java EE applications

Red Hat Application Development I: Programming in Java EE (JB183) exposes experienced Java Standard Edition (Java SE) developers to the world of Java Enterprise Edition (Java EE).

This course is based on Red Hat® Enterprise Application Platform 7.0.

In this course, you will learn about the various specifications that make up Java EE. Through hands-on labs, you will transform a simple Java SE command line application into a multi-tiered enterprise application using various Java EE specifications, including Enterprise Java Beans, Java Persistence API, Java Messaging Service, JAX-RS for REST services, Contexts and Dependency Injection (CDI), and JAAS for securing the application.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH236 Red Hat Gluster Storage Administration

24 Hours | $2,850

Schedules

06/29/2020 – 07/02/2020

This course is for senior system and storage administrators who are interested in deploying scalable, highly available storage on off-the-shelf hardware and in cloud environments.

Students will learn how to install, configure, and maintain a cluster of Red Hat Storage servers. The course will also explore highly available common Internet file systems (CIFS) and network file systems (NFS) using Clustered Trivial DataBase (CTDB), unified file and object storage, and geo-replication. Finally, students will learn about the Hadoop plugin for Red Hat Storage, snapshots, and geo-replication

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Red Hat DevOps

DO180 Introduction to Containers, Kubernetes, and Red Hat OpenShift

24 Hours | $2,700

Schedules

06/15/2020 – 06/18/2020
07/13/2020 – 07/16/2020
07/20/2020 – 07/23/2020
07/27/2020 – 07/30/2020
08/10/2020 – 08/13/2020
08/24/2020 – 08/27/2020
09/14/2020 – 09/17/2020
09/28/2020 – 10/01/2020

Learn to build and manage containers for deployment on a Kubernetes and Red Hat OpenShift cluster

Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) helps you build core knowledge in managing containers through hands-on experience with containers, Kubernetes, and the Red Hat® OpenShift® Container Platform. These skills are needed for multiple roles, including developers, administrators, and site reliability engineers.

This course is based on Red Hat OpenShift Container Platform 4.2.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO283: Red Hat Application Development II: Implementing Microservice Architectures

30 Hours | $3,600

Schedules

08/03/2020 – 08/07/2020

Develop microservice-based applications in Java EE with MicroProfile and OpenShift

Building on Red Hat Application Development I: Programming in Java EE (JB183), the introductory course for Java EE application development, Red Hat Application Development II: Implementing Microservice Architectures (DO283) emphasizes learning architectural principles and implementing microservices in Java EE, primarily based on MicroProfile with WildFly Swarm and OpenShift.

This course is based on Red Hat® Enterprise Application Platform 7.4 and Wildfly Swarm 2018.3.3.

You will build on Java EE application development fundamentals and focus on how to develop, monitor, test, and deploy modern microservices applications. Many enterprises are looking for a way to take advantage of cloud-native architectures, but many do not know the best way to go about it. These enterprises have monolithic applications written in Java Enterprise Edition (JEE).

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO285 Containers, Kubernetes, and Red Hat OpenShift Administration I

40 Hours | $4,500

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
07/27/2020 – 07/31/2020
08/10/2020 – 08/14/2020
08/24/2020 – 08/28/2020
09/14/2020 – 09/18/2020

Learn to build and manage Linux containers and configure and manage an OpenShift cluster

Containers, Kubernetes, and Red Hat OpenShift Administration I (DO285) helps you build core knowledge in building and managing Linux® containers and Red Hat® OpenShift® Container Platform. This hands-on, lab-based course shows you how to deploy sample applications to either a local container runtime or an OpenShift cluster, as well as how to configure and manage OpenShift clusters. If you're a developer, administrator or site reliability engineer, you will benefit from learning these skills.

This course is based on Red Hat OpenShift Container Platform 4.2 and combines the content from Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) and Red Hat OpenShift Administration I (DO280).

DO288 Red Hat OpenShift Development I: Containerizing Applications

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
07/27/2020 – 07/31/2020
09/14/2020 – 09/18/2020

Hands-on training to boost developer productivity powered by Red Hat OpenShift

Red Hat OpenShift Development I: Containerizing Applications (DO288) enhances understanding of containers as a key technology for configuring and deploying applications and microservices. As the second course in the OpenShift development track, this offering will teach you how to design, build, and deploy containerized software applications to an OpenShift cluster.

Whether you're writing container-native applications or migrating existing brownfield applications, you'll learn how to boost developer productivity powered by Red Hat® OpenShift Container Platform, a containerized application platform that allows enterprises to manage container deployments and scale their applications using Kubernetes.

This course is based on Red Hat OpenShift Container Platform 4.2.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO292 Red Hat OpenShift Development II: Creating Microservices with Red Hat OpenShift Application Runtimes

30 Hours | $3,600

Schedules

08/31/2020 – 09/04/2020

Developing microservices using Red Hat OpenShift Application Runtimes

Red Hat OpenShift Development II: Creating Microservices with Red Hat OpenShift Application Runtimes (DO292) introduces you to three runtimes: WildFly Swarm, Vert.x, and Spring Boot. This course is an intensive, hands-on programming experience in which you will develop multiple microservices using the three runtimes and deploy them on a Red Hat® OpenShift Container Platform cluster.

This course is based on Red Hat® Enterprise Linux 7.5 and OpenShift Container Platform 3.9.

Like members of many organizations, you may be interested in or are already employing microservice architectures. We have introduced solutions to ease the on-ramp for the creation and deployment of microservices through its developer programs and Red Hat® OpenShift Application Runtimes.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO380 Red Hat OpenShift Administration II: High Availability

30 Hours | $3,600

Schedules

07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020

Design, build, and test OpenShift HA cluster

Red Hat OpenShift Administration II teaches you how to build robust clusters that provide high availability and the ability to run large numbers of applications. You will learn about OpenShift integration with datacenter infrastructure such as load balancers, identity management, monitoring, proxies, and storage. You will also develop more troubleshooting and Day 2 operations skills in this course.

This course is based on Red Hat® OpenShift Container Platform 3.6.

You will design an OpenShift HA cluster, then build and test it. You will use this cluster to examine more advanced topics in the administration and operation of a robust OpenShift cluster in the remainder of the course.

DO407: Automation with Ansible I

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
06/22/2020 – 06/26/2020
06/29/2020 – 07/03/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020

Through hands-on labs, students will learn to automate system administration tasks on managed hosts with Ansible, learn how to write Ansible playbooks to standardize task execution, centrally manage playbooks and schedule recurring execution through a web interface with Red Hat® Ansible Tower. Students will also learn to manage encryption for Ansible with Ansible Vault, deploy Ansible Tower and use it to manage systems, and use Ansible in a DevOps environment with Vagrant.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO425 Red Hat Security: Securing Containers and OpenShift

30 Hours | $3,600

Schedules

06/22/2020 – 06/26/2020
08/03/2020 – 08/07/2020
09/28/2020 – 10/02/2020

Learn to mitigate and manage threats to OpenShift container-based infrastructure

Red Hat Security: Securing Containers and OpenShift (DO425) is designed to help infrastructure administrators and security professionals learn to identity and mitigate threats to OpenShift container-based infrastructure. The curriculum also covers how to implement and manage secure architecture,

policies, and procedures for modern containerized applications and software-defined networking.

This course is based on Red Hat®Enterprise Linux® 7.5, Red Hat® OpenShift® Container Platform 3.11, and Red Hat® Identity Manager 7.5.

You will learn about using secure and trusted container images, registries, and source code; managing network and storage isolation; implementing application single sign-on; and configuring appropriate security constraints and service role–based access control. You will also find out how existing core Linux technologies−such as namespaces, cgroups, seccomp, capabilities, and SELinux−provide a robust and mature host environment with strongly secure containers.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

DO457 Ansible for Network Automation

30 Hours | $3,600

Schedules

06/15/2020 – 06/19/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
08/31/2020 – 09/04/2020

Configure and manage network infrastructure using Red Hat Ansible Automation for Networking

Ansible for Network Automation (DO457) is designed for network administrators or infrastructure automation engineers who want to use network automation to centrally manage the switches, routers, and other devices in the organization's network infrastructure.

This course is based on Red Hat® Ansible Engine 2.5 and Red Hat® Ansible Tower 3.2.

Learn how to use Red Hat Ansible Automation for Networking to remotely automate configuration of network devices, test and validate the current network state, and perform compliance checks to detect and correct configuration drift.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Red Hat Enterprise Linux

Red Hat Satellite 6 Administration (RH403)

30 Hours | $3,800

Schedules

06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/20/2020 – 07/24/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/14/2020 – 09/18/2020
09/28/2020 – 10/02/2020

Aspirants will use Red Hat Satellite to manage the software development life cycle of a subscribed host and its configuration. Aspirants should have previous Red Hat Satellite experience, since the course will compare Red Hat Satellite 6 features and terminology with Red Hat Satellite 5.

Note: The no. of days are applicable to Virtual Instructor-Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH124 Red Hat System Administration I

40 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/10/2020 – 08/14/2020
08/17/2020 – 08/21/2020
08/24/2020 – 08/28/2020
08/31/2020 – 09/04/2020
09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020

Red Hat System Administration I (RH124) is designed for IT professionals without previous Linux administration experience. The course focuses on providing students with Linux administration "survival skills" by focusing on core administration tasks.

Red Hat System Administration I provides a foundation for students wishing to become full-time Linux system administrators by introducing key command line concepts and other enterprise-level tools. These concepts are further developed in the follow-on course, Red Hat System Administration II (RH134).Both courses are needed in your preparation for the Red Hat Certified System Administrator Exam (EX200).

RH134 Red Hat System Administration II

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/10/2020 – 08/14/2020
08/17/2020 – 08/21/2020
08/24/2020 – 08/28/2020
08/31/2020 – 09/04/2020
09/14/2020 – 09/18/2020
09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020

Red Hat System Administration II (RH134) course is specifically designed for students who have

completed Red Hat System Administration I (RH124). Red Hat System Administration II (RH134) focuses on the key tasks needed to become a full time Linux administrator.

Red Hat System Administration II (RH134) course goes deeper into enterprise Linux administration including file systems and partitioning, logical volumes, SELinux, firewalling, and troubleshooting. Attending both Red Hat System Administration I and Red Hat System Administration II can help you in your preparation for the Red Hat Certified System Administrator exam (EX200).

Note: The no. of days are applicable to Virtual Instructor-Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH294 Red Hat System Administration III: Linux Automation with Ansible

30 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/14/2020 – 09/18/2020
09/28/2020 – 10/02/2020

Learn how to automate Linux system administration tasks with Ansible

Red Hat System Administration III: Linux Automation with Ansible (RH294) teaches the skills needed to manage large numbers of systems and applications efficiently and consistently. You will learn the techniques needed to use Ansible® to automate provisioning, configuration, application deployment, and orchestration.

This course is based on Red Hat® Enterprise Linux® 8 and Red Hat Ansible Engine 2.8.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH342 Red Hat Enterprise Linux Diagnostics and Troubleshooting

30 Hours | $3,800

Schedules

06/22/2020 – 06/26/2020
08/24/2020 – 08/28/2020

Diagnose problems, gather information, and fix common issues with Red Hat Enterprise Linux

The Red Hat Enterprise Linux Diagnostics and Troubleshooting course (RH342) provides system administrators with the tools and techniques they need to successfully diagnose, and fix, a variety of potential issues. Students will work through hands-on problems in various subsystems to diagnose and fix common issues.

Students will learn how to apply the scientific method to a structured form of troubleshooting. This approach is then used troubleshooting various types of problems, including boot issues, hardware issues, storage issues, RPM issues, network issues, third-party application issues, security issues, and kernel issues. At the end of the course students can complete various comprehensive review labs to test their skills.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH354 Red Hat Enterprise Linux 8 New Features for Experienced Linux Administrators

24 Hours | $2,850

Schedules

06/22/2020 – 06/25/2020
08/10/2020 – 08/13/2020
09/21/2020 – 09/24/2020

Prepare yourself for Red Hat Enterprise Linux 8 by learning about changes to the operating system

Red Hat Enterprise Linux 8 New Features for Experienced Linux Administrators (RH354) introduces you to updates in the upcoming Red Hat® Enterprise Linux® release. Intended for experienced Linux system administrators, this course offers a rapid orientation to Red Hat Enterprise Linux 8 based on the pre-release beta. The offering prepares operators, managers, principal system administrators, and other IT professionals with experience in Red Hat Enterprise Linux 7 for deployments and migrations to the new release.

This course is based on Red Hat Enterprise Linux 8.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH362 Red Hat Security: Identity Management and Active Directory Integration

30 Hours | $3,800

Schedules

06/08/2020 – 06/12/2020
08/10/2020 – 08/14/2020

Configure and manage Red Hat Identity Management (IdM)

Red Hat Security: Identity Management and Active Directory Integration (RH362) provides the skills to configure and manage IdM, the comprehensive Identity Management solution bundled with Red Hat® Enterprise Linux.

This course is based on Red Hat Identity Manager 4.5 (bundled with RHEL), Red Hat Enterprise Linux 7.4, Microsoft Windows Server 2016, Red Hat Satellite 6.3, Red Hat Ansible Tower 3.2.2, and Red Hat Ansible 2.5.

This course teaches you skills on the most requested Red Hat Identity Management (IdM) capabilities, including Active Directory trusts, multi-product federation, configuration management with Ansible, integrated certificate management, single sign-on, one-time passwords, and cybersecurity policy conformance.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH415 Red Hat Security: Linux in Physical, Virtual, and Cloud (RH415)

30 Hours | $3,800

Schedules

06/15/2020 – 06/19/2020
08/24/2020 – 08/28/2020

Manage security of Red Hat Enterprise Linux systems deployed in bare-metal, virtual, and cloud environments

Red Hat Security: Linux in Physical, Virtual, and Cloud (RH415) is designed for security administrators and system administrators who need to manage the secure operation of servers running Red Hat® Enterprise Linux®, whether deployed on physical hardware, as virtual machines, or as cloud instances.

This course is based on Red Hat Enterprise Linux 7.5, Red Hat Satellite 6.3, Red Hat Ansible® Engine 2.5, Red Hat Ansible Tower 3.2, and Red Hat Insights.

Maintaining security of computing systems is a process of managing risk through the implementation of processes and standards backed by technologies and tools. In this course, you will learn about resources that can be used to help you implement and comply with your security requirements.

Note: The no. of days are applicable to Virtual Instructor-Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH436 Red Hat High Availability Clustering

30 Hours | $3,800

Schedules

06/22/2020 – 06/26/2020
08/10/2020 – 08/14/2020
09/28/2020 – 10/02/2020

Created for senior Linux system administrators, Red Hat Enterprise Clustering and Storage Management (RH436) course strongly emphasizes lab-based activities. You'll learn how to deploy and manage shared storage and server clusters that provide highly available network services to a mission-critical enterprise environment.

This course also helps you prepare for the Red Hat Certificate of Expertise in High Availability Clustering exam (EX436).

Note: The no. of days are applicable to Virtual Instructor-Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Red Hat Fuse, Decision Maker and More

JB371 Red Hat Decision Manager and Red Hat Process Automation Manager 7.0 for Business Users

16 Hours | $1,800

Schedules

07/16/2020 – 07/17/2020

Understand and design business user rules and processes

Red Hat Decision Manager and Red Hat Process Automation Manager 7.0 for Business Users (JB371) teaches the core concepts and foundational skills necessary to make the most of Red Hat® Decision Manager and Red Hat® Process Automation Manager as a business user. You will learn to navigate the improved user interface for Decision Manager and Process Automation Manager, as well as how to design basic rules and business processes and define foundational case management concepts.

This course is based on Red Hat® Enterprise Linux® 7.5, Red Hat Decision Manager 7.0, Red Hat Process Automation Manager 7.0, and Red Hat® OpenShift® Container Platform 3.9.

Many organizations are interested in undergoing a digital transformation from traditional applications to process-driven applications. With Red Hat Decision Manager and Red Hat Process Automation Manager 7.0, Red Hat has introduced solutions to empower business users to develop and manage business rules and processes in a low-code environment.

JB373 Red Hat Decision Manager and Red Hat Process Automation Manager 7.0 for Developers

30 Hours | $3,600

Schedules

07/27/2020 – 07/31/2020

Business rules and process-driven application development

Red Hat Decision Manager and Red Hat Process Automation Manager 7.0 for Developers (JB373) teaches the core concepts behind business rules and processes, as well as how to author and test them. You will find out how to navigate the improved user interface of Red Hat® Decision Manager and Red Hat® Process Automation Manager to develop these rules and business processes. You will also learn to design and run a case management project.

This course is based on Red Hat® Enterprise Linux® 7.5, Red Hat Decision Manager 7.0, Red Hat Process Automation Manager 7.0, and Red Hat® OpenShift® Container Platform 3.9.

Many organizations are interested in undergoing a digital transformation from traditional applications to process-driven applications. With Red Hat Decision Manager and Red Hat Process Automation Manager 7.0, Red Hat has introduced solutions to empower developers to create and manage business rules and processes in a low-code environment.

JB440: Red Hat JBoss AMQ Administration

16 Hours | $1,800

Schedules

07/14/2020 – 07/15/2020

Learn to configure, manage, and monitor broker instances

Red Hat® JBoss® AMQ Administration (JB440) helps system administrators, architects, and developers acquire the skills they need to administer the message broker, Red Hat JBoss AMQ. Through numerous hands-on exercises, the student will create, configure, manage, and monitor broker instances including hardened, clustered brokers that provide high availability and failover.

This course is based on Red Hat JBoss AMQ 7.0.

Red Hat JBoss AMQ, part of the Red Hat application integration suite, provides application administrators, software architects, and developers the ability to integrate disparate applications in a decoupled manner using enterprise messaging paradigms.

Providing a highly performant and robust message broker, router, and client libraries for numerous languages, Red Hat JBoss AMQ is the solution for asynchronous and synchronous messaging. Red Hat JBoss AMQ Administration (JB440) helps system administrators, architects, and developers acquire the skills they need to administer Red Hat JBoss AMQ.

Through numerous hands-on exercises, the student will create, configure, manage, and monitor broker instances including hardened, clustered brokers that provide high availability and failover.

Red Hat JBoss Enterprise Application Platform (EAP)

JB248: Red Hat JBoss Application Administration I

40 Hours | $3,600

Schedules

07/06/2020 – 07/10/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020

Install, configure, and manage Red Hat JBoss Enterprise Application Platform

Red Hat JBoss Application Administration I teaches you the best practices for installing and configuring Red Hat® JBoss® Enterprise Application Platform (JBoss EAP) 7. Through hands-on labs, learn the essential, real-world tasks that a system administrator needs to know to effectively deploy and manage applications on JBoss EAP.

After completing this course, you should be prepared to take the Red Hat Certified Specialist in Enterprise Application Server Administration exam.

Red Hat Linux

Red Hat Satellite 6 Administration (RH403)

30 Hours | $3,800

Schedules

06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/20/2020 – 07/24/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/14/2020 – 09/18/2020
09/28/2020 – 10/02/2020

Aspirants will use Red Hat Satellite to manage the software development life cycle of a subscribed host and its configuration. Aspirants should have previous Red Hat Satellite experience, since the course will compare Red Hat Satellite 6 features and terminology with Red Hat Satellite 5.

Note: The no. of days are applicable to Virtual Instructor-Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RH199 RHCSA Rapid Track Course

30 Hours | $3,800

Schedules

06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020
07/20/2020 – 07/24/2020
07/27/2020 – 07/31/2020
08/03/2020 – 08/07/2020
08/10/2020 – 08/14/2020
08/17/2020 – 08/21/2020
08/31/2020 – 09/04/2020
09/14/2020 – 09/18/2020

09/21/2020 – 09/25/2020
09/28/2020 – 10/02/2020

The RHCSA Fast Track course (RH199) is designed for experienced Linux System Administrators who want to harden their technical skill sets and become accredited with the RHCSA certification. Using a best-of-breed contemporary teaching approach, students will learn to properly manage a Linux workstation and server, including installation and configuration of local components and services as well as connections to existing network services. To successfully navigate this course, students must already have solid Linux command line experience to perform tasks at an accelerated pace. In addition, they should possess the necessary skills to execute common commands, such as cp, grep, sort, mkdir, tar, mkfs, ssh, and yum, and be familiar with accessing man pages for help. At the completion of the course, students will be adequately prepared to take the Red Hat Certified System Administration (RHCSA) exam.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

Red Hat Storage Server

RH236 Red Hat Gluster Storage Administration

24 Hours | $2,850

Schedules

06/29/2020 – 07/02/2020

This course is for senior system and storage administrators who are interested in deploying scalable, highly available storage on off-the-shelf hardware and in cloud environments.

Students will learn how to install, configure, and maintain a cluster of Red Hat Storage servers. The course will also explore highly available common Internet file systems (CIFS) and network file systems (NFS) using Clustered Trivial DataBase (CTDB), unified file and object storage, and geo-replication. Finally, students will learn about the Hadoop plugin for Red Hat Storage, snapshots, and geo-replication

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

RedHat OpenStack

CL110: Red Hat OpenStack Administration I

40 Hours | $3,600

Schedules

06/08/2020 – 06/12/2020
07/06/2020 – 07/10/2020
08/03/2020 – 08/07/2020
08/31/2020 – 09/04/2020
09/28/2020 – 10/02/2020

Red Hat OpenStack Administration I (CL110) is designed for system administrators who are intending to implement a cloud computing environment using Red Hat OpenStack Platform. This course is based on Red Hat OpenStack Platform 10.This course will teach students to install a proof-of-concept, configure, use, and maintain Red Hat OpenStack Platform. The focus on this course will be managing OpenStack using the Horizon dashboard and the command-line interface and managing instances, leaving students with proof-of-concepts.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Trainings, the no. of days are subject to change.

CL210: Red Hat OpenStack Administration II

30 Hours | $3,600

Schedules

06/22/2020 – 06/26/2020
07/20/2020 – 07/24/2020
08/17/2020 – 08/21/2020
09/14/2020 – 09/18/2020

This course will also begin the transition from administering OpenStack using Horizon to using the unified command-line interface. Exam competencies covered in the course include: install and configure Red Hat OpenStack Platform (using OpenStack Director), manage users, projects, flavors, roles, images, networking, and block storage, automation (scale-out and scale-back), and build a customized image.
This course teaches system administrators how to implement a cloud-computing environment using Red Hat® OpenStack® Platform, including installation, configuration, and maintenance.

This course can also help you prepare for the Red Hat Certified System Administrator in Red Hat OpenStack exam (EX210).

This course is based on Red Hat OpenStack Platform 8.

Note: The no. of days are applicable to Virtual-Instructor Led Training only. When Mode of Delivery is chosen as Classroom Training, the no. of days are subject to change.

CL310: Red Hat OpenStack Administration III

30 Hours | $3,600

Schedules

07/27/2020 – 07/31/2020

The Red Hat OpenStack Administration III (CL310) course provides extensive hands-on training for experienced system administrators in how to use the distributed storage features of Red Hat Ceph Storage and the networking capabilities of OpenStack Neutron. Aspirants will set up a Ceph environment and its configuration as a back end for OpenStack, and configure and use the advanced features of OpenStack Neutron.

Aspirants will set up a Ceph environment and its configuration as a back end for OpenStack, and configure and use the advanced features of OpenStack Neutron.

Salesforce Analytics Cloud

Salesforce Building Lenses, Dashboards and Apps in Einstein Analytics (ANC-201)

8 Hours | $600

Schedules

06/18/2020 – 06/18/2020
07/01/2020 – 07/01/2020

Ready to start building in Einstein Analytics? In this course, you'll find out how to design and create an effective dashboard layout to help explorers quickly find their way around. You'll learn how to build lenses and add them into your dashboards using the Einstein Analytics Dashboard Designer to create selectors, filters, and widgets, plus how to create a faceted dashboard which automatically updates as explorers interact with it. Once you've created a dashboard, you'll also learn advanced functionality, such as creating mobile layouts and modifying lens queries. You'll also learn how to organize your lenses and dashboards using apps and ensure that only the right users have access to them.

Salesforce: Mobile and Desktop Exploration in Wave Analytics – (ANC-101)

8 Hours | $600

Schedules

06/17/2020 – 06/17/2020
06/30/2020 – 06/30/2020

Ready to see where your data takes you in Salesforce Analytics? This course teaches you how to explore your data through lenses and interactive dashboards from your desktop or mobile device, and how to share your insights in Chatter or email. Learn how to quickly change measures, groups, and filters; select the best visualizations for your data; and drill down to see details. You will also learn how to easily load additional data from a CSV file, which you can start exploring right away using the power of Analytics.

Salesforce Community Cloud

Salesforce: Administration Essentials for Experienced Admins in Lightning Experience (ADX-211)

32 Hours | $3,600

Schedules

06/09/2020 – 06/12/2020
06/15/2020 – 06/18/2020
06/23/2020 – 06/26/2020
07/13/2020 – 07/16/2020

Comprehensive and hands-on, this course is for administrators who are ready to significantly ramp up their skills and knowledge about using Salesforce to solve their most pressing business needs. Using real-world scenarios, this course covers topics such as extending Salesforce with custom objects and Lightning apps, generating complex reports and dashboards, and automating complex business processes to help you work more efficiently and get more out of Salesforce. Additional topics include Lightning Record Pages, Lightning Knowledge, and Lightning Data.

Salesforce: Get Started with Communities in Lightning Experience (ADX-271)

8 Hours | $900

Schedules

07/01/2020 – 07/08/2020

Online communities provide a place where employees, customers, and partners can engage and collaborate. Learn how to enable communities in your organization, create communities for partner and customers, and gauge participation.

Salesforce: Integrating with the Salesforce Platform in Lightning Experience (DEX-502)

40 Hours | $4,500

Schedules

06/01/2020 – 06/05/2020
06/22/2020 – 06/26/2020
07/02/2020 – 07/30/2020

Integrating with the Salesforce Platform covers the key elements of how to design and implement all types of integrations with the Salesforce platform. The course introduces the major integration mechanisms available on the Salesforce platform, such as the APIs and the built-in declarative functionalities. Participants explore the technologies that play critical roles in integrating with the platform, including the SOAP and REST APIs, Apex, the Streaming API, and outbound messaging.

Salesforce Sales Cloud

Administrative Essentials for New Admins In Lightning Experience (ADX-201)

30 Hours | $4,500

Schedules

06/01/2020 – 06/05/2020
06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/25/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020
07/13/2020 – 07/17/2020

Extensive and interactive, Administrative Essentials in Lightning Experience is the core training that ensures your success with Salesforce Lightning. It's a must for new administrators, and we recommend completing this course before starting a Salesforce deployment or when taking over an existing deployment.

Salesforce: Administration Essentials for Experienced Admins (ADM-211)

32 Hours | $3,600

Schedules

06/01/2020 – 06/04/2020

Comprehensive and hands-on, this course is for administrators who are ready to significantly ramp up their skills and knowledge about how Salesforce can solve their most pressing business needs. Using real-world scenarios, Administration Essentials for Experienced Admins covers topics such as extending Salesforce with custom objects and apps, generating complex reports and dashboards, and automating complex business processes to help you work more efficiently and get more out of Salesforce.

Salesforce: Administration Essentials for New Admins (ADM-201)

30 Hours | $4,500

Schedules

06/01/2020 – 06/05/2020
06/08/2020 – 06/12/2020
06/15/2020 – 06/19/2020
06/22/2020 – 06/26/2020
07/06/2020 – 07/10/2020

Comprehensive and hands-on, Administration Essentials for New Admins is the core training that ensures your success with Salesforce. It's a must for new administrators. We recommend administrators take this course before starting a Salesforce deployment or when taking over an existing deployment.

Salesforce: Preparing for Your Salesforce.com Administrator Certification (CRT-101)

8 Hours | $900

Schedules

06/18/2020 – 06/18/2020

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Administrator? Instructors will present real-world business scenarios that will help hone your problem-solving skills and reinforce your knowledge of key topics covered on the Certified Administrator exam. You will complete practice questions related to these scenarios to help prepare you for your exam.

Salesforce: Preparing for Your Salesforce.com Sales Cloud Consultant Certification (CRT-251)

8 Hours | $900

Schedules

07/01/2020 – 07/01/2020

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Sales Cloud Consultant? Instructors will present scenarios that will help reinforce your knowledge of Sales Cloud functionality by thinking through requirements design considerations. The course provides an overview of the exam objectives to help you focus your efforts to prepare for the Salesforce.com Sales Cloud Consultant Certification exam.

Salesforce Service Cloud

Salesforce: Preparing for Your Salesforce.com Service Cloud Consultant Certification (CRT-261)

8 Hours | $900

Schedules

07/02/2020 – 07/02/2020

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Service Cloud Consultant? Instructors will present scenarios that will help reinforce your knowledge of Service Cloud functionality by thinking through requirements design considerations. The course provides an overview of the exam objectives to help you focus your efforts to prepare for the Salesforce.com Service Cloud Consultant Certification exam.

Salesforce: Programmatic Development Using Apex and Visualforce (DEX-450)

40 Hours | $4,500

Schedules

06/22/2020 – 06/26/2020

Are you a programmer who wants to understand how to customize applications programmatically on the Force.com platform? In this course, you will learn the core of the Apex programming language and Visualforce markup in order to customize your Force.com applications. You will get hands-on experience building data objects (sObjects) and programmatically retrieving, manipulating, and storing the data associated with those objects. You will write custom logic using Apex triggers and classes, and test that logic using the built-in testing framework.

You will explore how Apex code interacts with declarative customization's on the platform, and the

nuances of working on a multi-tenant platform. You'll then examine common techniques for designing solutions in Apex. These activities will culminate in an exercise building a complex trigger that takes advantage of the declarative aspects of the platform. You will get hands-on experience writing Visualforce pages to customize your user interface and Visualforce controllers (in Apex) to modify the controller behavior behind the interface. You'll also explore design techniques and the built-in testing framework around Visualforce.

Salesforce1 Platform and Salesforce1 Mobile App

Introduction to Object-Oriented Programming Using Apex in Lightning Exp (ADX-231)

40 Hours | $4,500

Schedules

06/15/2020 – 06/19/2020

This course is designed for Salesforce administrators who would like to learn the basics of implementing business logic using Apex, the primary programming language of the Salesforce platform. First, you'll learn how to read Apex code and then you'll gradually increase your programming skills from writing single debugging statements to programming multiple, multi-line blocks of code.

It is meant to provide an understanding of object-oriented programming in the context of Apex and the Salesforce platform.

Salesforce: Programming Lightning Web Components (DEX-602)

40 Hours | $4,500

Schedules

06/15/2020 – 06/19/2020

If your responsibilities include developing custom applications running in Lightning Experience and Salesforce mobile that support multiple devices and screen sizes from a single codebase, taking this class will boost your skills to the next level.

In this course, you'll learn how to program Lightning Web Components with markup, JavaScript, CSS, Apex, and the Salesforce Lightning Design System (SLDS), and make them available to Salesforce end users.

Tableau Desktop

Tableau Combo

32 Hours | $2,390

Schedules

06/22/2020 – 06/25/2020

Tableau is a Business Intelligence and data visualization software tool that can speed up data analysis through its rich visualization capabilities, and help uncover insights for better and smarter decision making. This course is for the business, technology, data and analytics professionals who use and analyze data and data-driven approaches to support business operations and strategic initiatives in their organizations.

The Tableau Combo is comprise of two courses:
1. Tableau Desktop: Level 1
2. Tableau Desktop: Level 2

Tableau Desktop: Level 1

16 Hours | $1,195

Schedules

06/22/2020 – 06/23/2020

As technology progresses and becomes more interwoven with our businesses and lives, more and more data is collected about business and personal activities. This era of "big data" has exploded due to the rise of cloud computing, which provides an abundance of computational power and storage, allowing organizations of all sorts to capture and store data. Leveraging that data effectively can provide timely insights and competitive advantages.

The creation of data-backed visualizations is a key way data scientists, or any professional, can explore, analyze, and report insights and trends from data. Tableau software is designed for this purpose. Tableau was built to connect to a wide range of data sources, and allows users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Tableau's data connection capabilities and visualization features go far beyond those that can be found in spreadsheets, allowing users to create compelling and interactive worksheets, dashboards, and stories that bring data to life and turn data into thoughtful action.

Tableau Desktop: Level 2

16 Hours | $1,195

Schedules

06/24/2020 – 06/25/2020

The advent of cloud computing and storage has ushered in the era of big data. With the abundance of computational power and storage, organizations and employees with many different roles and responsibilities can benefit from analyzing data to find timely insights and gain a competitive advantage.

Data-backed visualizations allow anyone to explore, analyze, and report insights and trends from data. Tableau software is designed for this purpose. Tableau was built to connect to a wide range of data sources, and allows users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Beyond the fundamental capabilities of creating data-driven visualizations, Tableau allows users to manipulate data with calculations to show insights, make visualizations interactive, and perform statistical analysis. This gives users the ability to create and share data-driven insights with peers, executives, and clients.

TOGAF

TOGAF 9.2 Training Course: Level 1 and 2 Combined

32 Hours | $3,895

Schedules

06/15/2020 – 06/18/2020

The TOGAF Standard, Version 9.2 is an improvement to the TOGAF Standard, Version 9.1, providing improved guidance, fixing errors, refining the document structure, and removing obsolete content. The TOGAF 9 Training Course: Level 1 and Level 2 Combined is a classroom-based course based on TOGAF Standard, Version 9.2. This training provides an opportunity to architects and aspiring architects to strive for greater industry credibility and better career opportunities by possessing the updated knowledge and skill-set based on TOGAF Standard, Version 9.2.

The Foundation (Part 1) certification provides validation that the candidate has gained knowledge of the terminology, structure, and basic concepts of TOGAF 9, and understands the core principles of Enterprise Architecture and TOGAF. The TOGAF 9 Certified (Part 2) content focuses on the practical application of TOGAF framework, building on the foundational knowledge and comprehension of Part 1, using practical scenarios to enforce concepts.

Unix/Linux

55187: Linux System Administration

32 Hours | $2,395

Schedules

08/10/2020 – 08/13/2020
11/09/2020 – 11/12/2020

This hands-on 4-day Linux System Administration course teaches attendees how to administer, configure and upgrade Linux systems running one of the three major Linux distribution families (Red Hat, SUSE, Debian/Ubuntu). Focused on enterprise environments, it provides Linux system administrators with all the tools and concepts needed to efficiently build and manage a production Linux infrastructure. This course presents state-of-the-art techniques used in the industry and applies them in the context of practical labs.

CompTIA Linux+ Certification Prep (Exam XK0-004)

40 Hours | $2,495

Schedules

06/15/2020 – 06/19/2020
07/27/2020 – 07/31/2020
09/14/2020 – 09/18/2020
11/30/2020 – 12/04/2020

CompTIA Linux+ measures the necessary skills of an IT professional with hands-on experience configuring, monitoring, and supporting servers running the Linux operating system. Successful candidates will have the knowledge required to configure, manage, operate, and troubleshoot a Linux environment by using security best practices, scripting, and automation.

VMware Horizon

VMware Horizon: Design Workshop v7.0

24 Hours | $2,775

Schedules

07/20/2020 – 07/22/2020
10/19/2020 – 10/21/2020

This course presents a methodology for designing a VMware Horizon® solution. The design methodology includes recommendations for the type of information and data that must be gathered and analyzed to make sound design decisions for client systems, desktop options,VMware vSphere® infrastructure, and VMware Horizon components. VMware best practices are presented for each phase of the design process.

In this course, you apply your new knowledge by working with other participants to design a VMware Horizon solution for a real-world project.

VMware Horizon: Install, Configure, Manage V7.7

40 Hours | $4,250

Schedules

06/08/2020 – 06/12/2020
06/22/2020 – 06/26/2020
07/13/2020 – 07/17/2020
07/27/2020 – 07/31/2020
08/10/2020 – 08/14/2020
09/14/2020 – 09/18/2020
09/28/2020 – 10/02/2020
10/26/2020 – 10/30/2020
11/16/2020 – 11/20/2020
12/14/2020 – 12/18/2020

The VMware Horizon: Install, Configure, Manage V7.7 course gives you the skills to deliver virtual desktops and applications through a single virtual desktop infrastructure platform. This course builds your skills in installing, configuring, and managing VMware Horizon 7 through a combination of lecture and hands-on labs. You learn how to configure and deploy pools of virtual machines, how to manage the access and security of the machines, and how to provide a customized desktop environment to end users.

VMware NSX

VMware NSX-T Data Center: Install, Configure, Manage 2.4

40 Hours | $4,250

Schedules

06/08/2020 – 06/12/2020
07/13/2020 – 07/17/2020
08/10/2020 – 08/14/2020

This five-day, comprehensive, fast-paced training course provides comprehensive training on how to install, configure,and manage a VMware NSX-TTM Data Center environment. This course covers key NSX-T Data Center features and functionality offered in the NSX-T Data Center 2.4 release, including the overall infrastructure, logical switching, logical routing, networking and security services, micro-segmentation and firewalls, and so on. Access to a software-defined data center environment is provided through hands-on labs to reinforce the skills and concepts presented in the course.

VMware NSX-T Data Center: Troubleshooting and Operations 2.4

40 Hours | $4,625

Schedules

07/20/2020 – 07/24/2020
09/21/2020 – 09/25/2020
11/16/2020 – 11/20/2020

This is a five-day, hands-on training course provides you with the advanced knowledge, skills, and tools to achieve competency in operating and troubleshooting the VMware NSX-TTM Data Center

environment. In this course, you are introduced to workflows of various networking and security constructs along with several operational and troubleshooting tools that help managing and troubleshooting your NSX-T Data Center. In addition, you are presented with various types of technical problems, which you will identify, analyze, and solve through a systematic process.

VMware NSX: Install, Configure, Manage plus Troubleshooting and Operations Fast Track v6.4

40 Hours | $4,250

Schedules

06/15/2020 – 06/19/2020
08/17/2020 – 08/21/2020

This intensive five-day, extended-hours course focuses on configuring and troubleshooting a VMware NSX® deployment. This course presents NSX as a part of the software-defined data center. You will learn how to use logical switching in NSX to virtualize your switching environment and how to use gateway services, firewall configurations, and security services to help secure and optimize your NSX environment. In addition, you will be presented with various types of technical problems that you will learn how to identify and solve through a systematic process. You will also be introduced to several operational, management, and troubleshooting tools. A software-defined data center environment with hands-on labs is provided to reinforce the skills and concepts presented in the course.

This course prepares you for the following certifications:

- VMware Certified Professional 6
- Network Virtualization (VCP6-NV)
- VMware Certified Advanced Professional 6
- Network Virtualization Deployment (VCAP6-NV Deploy)

What's included:

- Attend a VMware delivered Fast Track course and receive a free VCP Exam voucher to use toward certification.

Product Alignment:

- VMware vSphere® 6.5
- NSX 6.4

VMware NSX: Install, Configure, Manage v6.4

40 Hours | $4,250

Schedules

06/15/2020 – 06/19/2020
07/13/2020 – 07/17/2020
08/17/2020 – 08/21/2020

This five-day, comprehensive, fast-paced training course presents VMware NSX® as a part of the software-defined data center. You will learn how to use logical switching in NSX to virtualize your switching environment. The course also details logical routing to enable you to dynamically route between different virtual environments. You will also learn how to use gateway services, firewall configurations, and security services to help secure and optimize your NSX environment.

VMware vCenter

VMware vCenter Site Recovery Manager: Install, Configure, Manage 8.2

16 Hours | $1,795

Schedules

08/03/2020 – 08/04/2020
11/16/2020 – 11/17/2020

This two-day, hands-on training course gives experienced VMware vSphere® administrators the knowledge to install, configure, and manage VMware Site Recovery ManagerTM 8.2. This course also shows you how to write and test disaster recovery plans that use Site Recovery Manager.

VMware vCloud

VMware vCloud Director: Install, Configure, Manage 9.7

40 Hours | $4,250

Schedules

07/06/2020 – 07/10/2020
10/05/2020 – 10/09/2020

This is a five-day course, you focus on installing, configuring, and managing VMware vCloud Director® for Service Providers 9.x. You learn about self-service provisioning, the creation of organizations, virtual data centers (VDCs), catalog services that include predefined virtual machines, and on-demand VMware NSX® networks.

This course covers interfacing VMware vCloud Director® with other systems using various APIs and the integration and use of VMware vCloud® Availability for vCloud Director®. You will understand how to manage multisite, cross-VDC networking for vCloud Director. You will also understand how to configure Central Point of Management (CPOM) to define a Softwaredefined Datacenter (SDDC) for tenant and provider users of vCloud Director. This course also

discusses how to monitor various vCloud Director objects using VMware vRealize® OperationsTM, Tenant vApp, and VMware vRealize® Log InsightTM.

VMware Virtual SAN

VMware Virtual SAN: Deploy and Manage [V6.7]

24 Hours | $2,550

Schedules

11/23/2020 – 11/25/2020

In VMware vSAN: Deploy and Manage [V6.7] course, student will focus on deploying and managing a software-defined storage solution with VMware vSAN 6.7. You wil learn how vSAN functions as an important component in the VMware software-defined data center. You gain practical experience with vSAN concepts through the completion of hands-on lab exercises.

VMware vRealize

VMware vRealize Automation: Install, Configure, Manage 8.0

40 Hours | $4,250

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/24/2020 – 08/28/2020
09/28/2020 – 10/02/2020
10/26/2020 – 10/30/2020

During this VMWARE VREALIZE AUTOMATION: ICM 8.0 course, you will focus on installing, configuring, and managing VMware vRealize® AutomationTM. You will gain an understanding on how to use vRealize Automation to automate the delivery of virtual machines, applications, and personalized IT services across different data centers and hybrid cloud environments.

The course covers how to manage both on-premise systems and cloud services and how vRealize Automation Service Broker can aggregate content in native formats from multiple clouds and platforms into a common catalog. You will learn how to interface vRealize Automation with other systems using VMware vRealize® OrchestratorTM and how to use vRealize Automation to manage Kubernetes systems and leverage other systems.

This course makes heavy use of hands-on labs. Students can run 39 labs during the 5-day course.

VMware vSphere

VMware vSphere: Fast Track [V6.7]

40 Hours | $6,475

Schedules

06/15/2020 – 06/19/2020

VMware vSphere: Fast Track [V6.7] course covers the introductory as well as the advanced VMware vSphere management skills. Building on the installation and configuration content from our best-selling course, you will also develop advanced skills needed to manage and maintain a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will install, configure and manage vSphere 6.7. You will explore the features that build a foundation for a truly scalable infrastructure, and discuss when and where these features have the greatest effect. This course prepares you to administer a vSphere infrastructure for an organization of any size using vSphere 6.7, which includes VMware ESXi 6.7 and VMware vCenter Server 6.7.

VMware vSphere: Install, Configure, Manage V6.7

40 Hours | $4,250

Schedules

06/01/2020 – 06/05/2020
06/15/2020 – 06/19/2020
07/06/2020 – 07/10/2020
07/20/2020 – 07/24/2020
08/03/2020 – 08/07/2020
08/17/2020 – 08/21/2020
09/14/2020 – 09/18/2020
10/05/2020 – 10/09/2020
10/19/2020 – 10/23/2020
11/02/2020 – 11/06/2020
11/16/2020 – 11/20/2020
12/07/2020 – 12/11/2020

VMware vSphere: Install, Configure, Manage V6.7 course features intensive hands-on training that focuses on installing, configuring, and managing VMware vSphere 6.7, which includes VMware ESXi 6.7 and VMware vCenter Server 6.7. This course prepares you to administer a vSphere infrastructure for an organization of any size. It is the foundation for most other VMware technologies in the software-defined data center.

VMware vSphere: Optimize and Scale [V6.7]

40 Hours | $4,625

Schedules

06/22/2020 – 06/26/2020

VMware vSphere: Optimize and Scale (V6.7) course teaches you advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you configure and optimize the VMware vSphere 6.7 features that build a foundation for a truly scalable infrastructure, and you discuss when and where these features have the greatest effect. This course deepens your understanding of vSphere and how its advanced features and controls can benefit your organization.

VMware vSphere: Skills for Operators [V6.7]

16 Hours | $1,700

Schedules

07/01/2020 – 07/07/2020
10/01/2020 – 10/06/2020
10/01/2020 – 10/02/2020

This training course is designed to help operators and administrators who create and manage virtual machines. This course provides you with a strong understanding of VMware virtual machine features in vSphere 6.7. This course will help you gain the skills required to work effectively with VMware virtual machines.

VMware vSphere: Troubleshooting Workshop [V6.7]

40 Hours | $4,625

Schedules

06/22/2020 – 06/26/2020
07/27/2020 – 07/31/2020
08/24/2020 – 08/28/2020
09/21/2020 – 09/25/2020

The VMware vSphere: Troubleshooting Workshop [V6.7] training workshop provides you with the advanced knowledge, skills, and abilities to achieve competence in troubleshooting the VMware vSphere 6.x environment. This workshop increases your skill and competence in using the command-line interface, VMware vSphere Client, VMware vRealize Log lnsight, and other tools to analyze and solve problems.

VMware vSphere: What's New [V5.5 to V6.7]

24 Hours | $2,550

Schedules

09/09/2020 – 09/11/2020
12/21/2020 – 12/23/2020

In VMware vSphere: What's New [V5.5 to V6.7] course, you will explore the new features and enhancements in VMware vCenter Server 6.7 and VMware ESXi 6.7. Real-world use-case deployment scenarios, hands-on lab exercises, and lectures teach you the skills that you need to effectively implement and configure VMware vSphere 6.7. This course is recommended for customers who want to deploy vSphere 6.7 into their existing vSphere environment.

About NetCom Learning

NetCom Learning is an innovative leader in IT, business, and executive training to companies, individuals, and government agencies, dedicated to promoting the values of lifelong learning. NetCom Learning has trained over 80% of the Fortune 100 and helped advance the skills of more than 90,000 professionals. NetCom Learning's efforts at offering a customer-driven culture have resulted in building a trust factor that can be seen in our high instructor evaluations of 8.6 out of a possible 9.

Our instructors have an average of 20.75 years of experience, and our courses have produced more than 2,300 client testimonials, with 96% of our clients recommending our services. Our quality customized learning solutions have earned us the respect of the Learning industry, being named Microsoft's Worldwide Training Partner of the Year, Inc. Magazine 5000's fastest growing company, and TrainingIndustry.com's 2014 Top 20 IT Training Company.
